Alto Adige, South Tyrol Mario Toscano, 1975      **Alto Adige-South Tyrol. Italy's frontier with the German world.**  
**Ed. by George A. Carbone. Transl. from the Italien** ,1975      South Tyrol Rolf Steininger, South Tyrol a region in the heart of the Alps about half the size of Connecticut brings into sharp focus an important part of twentieth century history Tyrol a province that had been part of Austria for over 500 years and was almost totally German speaking was split in two after World War I and the southern part awarded to Italy as spoils of war The first phase to follow after the split of Tyrol was systematic subjection by the Italian Fascists of what had been a regional majority in South Tyrol but was now a minority within Italy In a second phase to gain an Italian majority the country was settled with Italians from the south who had a totally different mentality from the Italians residing in South Tyrol With the emergence of National Socialism in Germany and eventually with the Hitler Mussolini Agreement of 1939 a third phase emerged an experiment in ethnic cleansing called the Option Eighty six percent of all South Tyroleans agreed to leave South Tyrol and become citizens of Greater Germany After World War II the region was not returned to Austria South Tyrol became the first victim of the Cold War It took almost forty years of hard bargaining before South Tyrol was granted real autonomy in 1969 This resolution is now regarded as a model for solving minority conflicts Rolf Steininger traces the history of this troubled region during several periods 1918 1922 in which he covers the period from the division of Tyrol to the march on Bozen 1922 1938 in which he reviews fascist policy towards South Tyrol the Option of 1939 the resettlement and so called reunification from 1943 1945 South Tyrol s role as a bargaining chip in the Cold War and the Gruber Gasperi Agreement of 1946 and the volume closes with a discussion of the plan negotiated in 1969 for a new autonomy for South Tyrol that came to be known as the Package Rolf Steininger is professor and head of the Institute of Contemporary History at the University of Innsbruck He is European Union Jean Monnet Professor senior fellow of the Eisenhower Center for American Studies of the University of New Orleans board member of the European Community Studies Association and the author of numerous books articles and television documentaries      **The Munich Crisis, 1938** Erik Goldstein, Igor Lukes, 2012-10-12 Most of the works on the crises of the 1930s and especially the Munich Agreement in 1938 were written when it was virtually impossible to gain access to the relevant archive collections on both sides of the Iron Curtain This text studies the Czechoslovak German crisis and its impact from previously neglected perspectives and celebrates the post Cold War openness by bringing in new evidence from hitherto inaccessible archives      **Making Minorities History** Matthew James Frank, 2017 Making Minorities History examines the various attempts made by European states over the course of the first half of the twentieth century under the umbrella of international law and in the name of international peace and reconciliation to rid the Continent of its ethnographic misfits and problem populations It is principally a study of the concept of population transfer the idea that in order to construct stable and homogeneous nation states and a peaceful international order out of them national minorities could be relocated

en masse in an orderly way with minimal economic and political disruption as long as there was sufficient planning bureaucratic oversight and international support in place Tracing the rise and fall of the concept from its emergence in the late 1890s through its 1940s zenith and its geopolitical and historiographical afterlife during the Cold War Making Minorities History explores the historical context and intellectual milieu in which population transfer developed from being initially regarded as a marginal idea propagated by a handful of political fantasists and extreme nationalists into an acceptable and a progressive instrument of state policy as amenable to bourgeois democracies and Nobel Peace Prize winners as it was to authoritarian regimes and fascist dictators In addition to examining the planning and implementation of population transfers and in particular the diplomatic negotiations surrounding them Making Minorities History looks at a selection of different proposals for the resettlement of minorities that came from individuals organizations and states during this era of population transfer

**Fascist Ideology** Aristotle Kallis, 2002-01-04 Fascist Ideology is a comparative study of the expansionist foreign policies of fascist Italy and Nazi Germany from 1922-1945 Fascist Ideology provides a comparative investigation of fascist expansionism by focusing on the close relations between ideology and action under Mussolini and Hitler With an overview of the ideological motivations behind fascist expansionism and their impact on fascist policies this book explores the two main issues which have dominated the historiographical debates on the nature of fascist expansionism whether Italy's and Germany's particular expansionist tendencies can be attributed to a set of generic fascist values or were shaped by the long term uniquely national ambitions and developments since unification whether the pursuit of expansion was opportunistic or followed a grand design in each case

Minahan, 2000-07-30 Dominating world politics since 1945 the Cold War created a fragile peace while suppressing national groups in the Cold War's most dangerous theater Europe Today with the collapse of Communism the European Continent is again overshadowed by the specter of radical nationalism as it was at the beginning of the century Focusing on the many possible conflicts that dot the European landscape this book is the first to address the

Europeans as distinct national groups not as nation states and national minorities It is an essential guide to the national groups populating the so called Old World groups that continue to dominate world headlines and present the world community with some of its most intractable conflicts While other recent reference books on Europe approach the subject of nations and nationalism from the perspective of the European Union and the nation state this book addresses the post Cold War nationalist resurgence by focusing on the most basic element of any nationalism the nation It includes entries on nearly 150 groups surveying these groups from the earliest period of their national histories to the dawn of the 21st century In short essays highlighting the political social economic and historical evolution of peoples claiming a distinct identity in an increasingly integrated continent the book provides both up to date information and historical background on the European national groups that are currently making the news and those that will produce future headlines **Austrian Information**

,1960 *Italy* Spencer M. DiScala,2018-04-17 This essential book fills a serious gap in the field by synthesizing modern Italian history and placing it in a fully European context Emphasizing globalization Italy traces the country s transformation from a land of emigration to one of immigration and its growing cultural importance Including coverage of the April 2008 elections this updated edition offers expanded examinations of contemporary Italy s economic social and cultural development a deepened discussion on immigration and four new biographical sketches Author Spencer M Di Scala discusses the role of women gives ample attention to the Italian South and provides a picture of how ordinary Italians live Cast in a clear and lively style that will appeal to readers this comprehensive account is an indispensable addition to the field

Minority Rules David Lublin,2014 In *Minority Rules* David Lublin eschews the usual approach of shining attention on conflict and instead looks at the representation of minority groups in largely peaceful and democratic countries throughout the world

**Friends and Foes Volume I** Barbara Gabriella Renzi,Elisabetta Viggiani,2009-01-14 The product of an international multi disciplinary conference at Queen s University Belfast the two volume *Friends and Foes* series offers an illuminating investigation of the relationship between friendship and conflict by established and emerging scholars In this first volume which collects together philosophical and cultural essays on the topic the authors raise and tackle some of the most pertinent issues central to the understanding and making of friendship What constitutes friendship What challenges duties and pleasures does friendship entail The ambiguity of friendship is a recurring theme in the book and Mark Vernon s essay on the philosophical history of thinking about friendship s ambiguity provides the perfect point of entry for discussion of the compelling literary and theatrical representations which follow in the work of writers such as Maria Edgeworth

Gregory Burke and Edgar Allan Poe **Nationalising and Denationalising European Border Regions, 1800-2000**

Hans Knippenberg,J. Markusse,2012-12-06 During the last two centuries the political map of Europe has changed considerably More recently there are remarkably contrasting tendencies concerning the functions and densities of borders The borders inside the European Union lost their importance whereas Central and Eastern Europe saw the birth of a

multitude of new state borders The long term study of border regions therefore is a fascinating subject for geographers historians social scientists and political scientists The main thesis of this book is that the rise of the modern nation state reinforced the separating function of state borders by nationalising the people on both sides of it This process gained strength in the late 19th and early 20th centuries and was challenged in the second half of this century by processes of supra national integration globalisation and the revolution in communication and transport as the case studies from different parts of Europe of this book will show Audience This book will be of interest to academics researchers and practitioners in geography history political sciences European studies and East European studies      Cultural History Through a National Socialist Lens Robert Charles Reimer,2000 This text provides an analysis of 20 films from Nazi Germany reflecting all the major genres and representing a sample of the directors of the time It offers a view of their objectives      **Transforming NATO in the Cold War** Andreas Wenger,Christian Nuenlist,Anna Locher,2006-11-22 The first comprehensive history of NATO in the 1960s based on the systematic use of multinational archival evidence This new book is the result of a gathering of leading Cold War historians from both sides of the Atlantic including Jeremi Suri Erin Mahan and Leopoldo Nuti It shows in great detail how the transformation of NATO since 1991 has opened up new perspectives on the alliance s evolution during the Cold War Viewed in retrospect the 1960s were instrumental to the strengthening of NATO s political clout which proved to be decisive in winning the Cold War even more so than NATO s defense and deterrence capabilities In addition it shows that NATO increasingly served as a hub for state institutional transnational and individual actors in that decade Contributions to the book highlight the importance of NATO s ability to generate soft power the scope and limits of alliance consultation the important role of common transatlantic values and the growing influence of small allies NATO s survival in the crucial 1960s provides valuable lessons for the current bargaining on the purpose and cohesion of the alliance This book will be of much interest to students of international history Cold War studies and strategic studies      *On the Fiery March* G. Bruce Strang,2003-07-30 By the 1930s fascist dictator Benito Mussolini reached the conclusion that Italy faced a clear choice expand its power at the expense of the British and French Empires or face stagnation and decline He believed that the regimes in the democratic West would not be able to contain their inherent hostility toward fascist dynamism while their demographic and political weaknesses provided the opportunity for the younger demographically virile fascist Italy to carve a new empire in the Mediterranean status quo Through his intervention in the Spanish Civil War and his attempts to challenge French Power in Europe and British imperial domination of the Middle East and East Africa Mussolini sought to decisively change Italy s long standing position as the least of the Great Powers Although the Pact of Steel did not always function smoothly Mussolini remained loyal to its principles eventually throwing Italy into the Second World War where he would belatedly discover that his regime had signally failed to prepare his legions for fighting in a modern war      **Program of the ...
