Conventional Forward Defense to which the GERMAN STRATEGY FORUM DSF had invited some 50 systems analysts and
defense experts of the United States the United Kingdom the Federal Republic of Germany and the SHAPE Technical Centre
Held in Bonn from 2 to 4 December 1984 this workshop was to provide a forum for the dis cussion at a non political expert

capabilities In addition it aimed at arriving at some recommenda tions as to which of these proposals deserve to be studied
further and what methodological deficiencies must be alleviated and information gaps closed for an adequate assessment The
idea to organize this workshop has been discussed ever since 1980 with several defense systems analysts in the US and the
UK who shared the opinion that with a view to the immense global build up of the Soviet threat on one hand and the
stringency of defense resources in most NATO countries on the other there is no reason that could permit us to dismiss any
proposal promising improvement without careful study **The Falklands Conflict Twenty Years on** Stephen
