Cheyney Thompson Christian Schaernack, 2023-05-23 One of the first book length publications on contemporary artist Cheyney Thompson whose work is known for its radically forward looking intellectualism and formal rigor Cheyney Thompson's b 1975 work responds to a long history of debates about how art depicts the world and about how we come to know the world visually In these meditations on the artist's work Christian Schaernack shows that for Thompson reality is something that we can know only in terms of probabilities not absolutes Thompson often produces work that explores contingency at the formal level sometimes in his artistic process itself as Jackson Pollock once did and sometimes through the use of external constraints such as computer algorithms which he subverts as often as he follows The meaning of observation has changed time and time again in the history of art just as it has in the history of science Delving into art history intellectual history and contemporary continental

philosophy Schaernack offers a multifaceted study of an artist who challenges our assumptions about how the world is ordered From Thompson s early black paintings to his Chronochromes to the Stochastic Process Paintings which engage with the algorithms that govern our digital lives Schaernack presents a contemporary artist whose work embraces chance and responds to the shifting conditions of the present This is art that reimagines artwork itself Master Narratives and their Discontents James Elkins,2013-10-18 In this bracing engagement with the many versions of art history James Elkins argues that the story of modernism and postmodernism is almost always told in terms of four narratives Works of art are either seen as modern or postmodern or praised for their technical skill or because of the politics they appear to embody These are master narratives of contemporary criticism and each leads to a different understanding of what art is and does Both a cogent overview of the state of thinking about art and a challenge to think outside the art historical box Master Narratives and their Discontents is the first volume in a series of short books on the theories of modernism by leading art historians on twentieth century art and art criticism *Comic Abstraction* Roxana Marcoci,2007 Foreword by Glenn D Lowry Text by Roxana Marcoci **Artistic Experimentation in Music** Darla Crispin,Bob Gilmore,2014-10-07 Essential reading for anyone interested in artistic research applied to music This book is the first anthology of writings about the emerging subject of artistic experimentation in music This subject as part of the cross disciplinary field of artistic research cuts across boundaries of the conventional categories of performance practice music analysis aesthetics and music pedagogy The texts most of them specially written for this volume have a common genesis in the explorations of the Orpheus Research Centre in Music ORCiM in Ghent Belgium The book critically examines experimentation in music of different historical eras It is essential reading for performers composers teachers and others wanting to inform themselves of the issues and the current debates in the new field of artistic research as applied to music The publication is accompanied by a CD of music discussed in the text and by an online resource of video illustrations of specific issues Contributors Paulo de Assis ORCiM Richard Barrett Institute of Sonology The Hague Tom Beghin McGill University William Brooks University of York ORCiM Nicholas G Brown University of East Anglia Marcel Cobussen University of Leiden Kathleen Coessens Vrije Universiteit Brussel ORCiM Paul Craenen Director Musica Impulse Centre for Music Darla Crispin Norwegian Academy of Music Stephen Emmerson Queensland Conservatorium Griffith University Brisbane Henrik Frisk Malm Academy of Music Bob Gilmore ORCiM Valentin Gloor ORCiM Yolande Harris Center for Digital Arts and Experimental Media DXARTS University of Washington Seattle Mieko Kanno Royal Conservatoire of Scotland Andrew Lawrence King Guildhall School of Music and Drama London Royal Danish Academy of Music Copenhagen University of Western Australia Catherine Laws University of York ORCiM Stefan stersj ORCiM Juan Parra ORCiM Larry Polansky University of California Santa Cruz Stephen Preston Godfried Willem Raes Logos Foundation Ghent Hans Roels ORCiM Michael Schwab ORCiM Royal College of Art London Zurich University of the Arts Anna Scott ORCiM Steve Tromans Middlesex University Luk Vaes ORCiM Bart Vanhecke KU Leuven ORCiM **Mel**

Bochner Drawings Kevin Salatino, 2022-04-26 A groundbreaking examination of Mel Bochner's inventive drawing practice produced collaboratively with the artist. Encompassing both works on paper and oversized wall drawings made from the 1960s to the present, this handsomely designed volume documents the first ever museum retrospective of drawings by Mel Bochner. b. 1940 Drawing has long been critical to the work of this pioneering conceptual artist, and essayists explore the theoretical framework and playful experimentation of his decades-long practice. The book, conceived and designed in close collaboration with the artist, features his own writings about his philosophy of wall drawings and reflections on significant exhibitions of his work. Bochner was a key figure of the Minimalist and Conceptual Art movements, whose first exhibition in 1966 is now recognized as seminal. Today the artist is known for works in a range of media that explore the conventions of language and visual art, as well as the relationships between them: his experimental works on paper, canvas, and wall, all of which are celebrated here, are a foundational facet of his practice and a critical influence on contemporary art.
