The Radicalization of Cicero Katherine A. East, 2017-06-28 This book uses a previously overlooked Neo Latin treatise Cicero Illustratus to provide insight into the status and function of the Ciceronian tradition at the beginning of the eighteenth century and consequently to more broadly illuminate the fate of that tradition in the early Enlightenment Cicero Illustratus itself is the first subject for inquiry mined for what its deliberately erudite and colorfully polemical passages of scholarly stratagems reveal about Ciceronian scholarship and the motives for exploring it within the context of early Enlightenment thought It also includes an analysis of the role played by the Ciceronian tradition in the broader political and radical movements that existed in the Enlightenment with particular attention paid to Cicero's unexpectedly prominent position in major political and philosophical Republican and Erastian works The subject of this book together with the conclusions reached will provide scholars and students with crucial new material relating to the classical tradition the history of scholarship and the intellectual history of the early Enlightenment

Paul as homo novus Eve-Marie Becker, Jacob Mortensen, 2018-04-16 20th century research in St Paul is widely impacted by Adolf Deissmann's prominent view on the apostle as a homo novus 1911 But where does this concept originate from and what does it imply This collection of articles does not only re-evaluate Deissmann's concept by tracing it back to its historical and socio-political origins in Cicero and exploring how authors from early Imperial Time perceive and transform the homo novus paradigm by diverse modes and strategies of literary self-fashioning Scholars ranging the fields of New Testament Studies Greek and Latin Philology Ancient History Patristics and Comparative Literature also examine how the Ciceronian paradigm was early on transformed disseminated and applied as a literary concept and an authorial topos of self-molding One of the leading questions throughout the volume thus is How do authors like Cicero Horace Paul Tacitus Seneca Athanasius and Augustine fashion themselves in accordance to or in difference from the idea of being a new man It is argued that by means of literary self-configuration indeed some of these writers such as Paul and Augustine want to appear as new men by either altering traditional social moral religious or political roles or by creating new patterns of social behavior and religious self-understanding

The Rhetoric of Cicero in its Medieval and Early Renaissance Commentary Tradition Virginia Cox, John Ward, 2018-11-12 This multi-authored volume by an authoritative team of international scholars examines the transmission of Ciceronian rhetoric in medieval and early Renaissance Europe concentrating on the fortunes in particular of the two dominant classical rhetorical textbooks of the time Cicero's early *De inventione* and the contemporary pseudo-Ciceronian *Rhetorica ad Herennium* The volume is unprecedented in range and depth as a presentation of the place of classical rhetoric in medieval culture and will serve to revise views of a period seen until recently as largely indifferent to the values of eloquence The main body of the volume is composed of a series of ground-breaking studies of the relationship between Ciceronian rhetoric and a wide range of intellectual traditions and cultural practices including dialectic law conduct theory memory poetics and practical composition teaching preaching *ars dictaminis* and political oratory Also included are important contextualizing essays on the commentary tradition of the Ciceronian *juvenilia* on the textual history and manuscript transmission of Cicero's rhetorical works and on the Latin and vernacular traditions of Ciceronian rhetoric in Italy The volume concludes with an annotated appendix of illustrative texts containing extracts from the commentary tradition on Ciceronian rhetoric most of which have not been previously available in print

trust The Renaissance is one of the most celebrated periods in European history But when did it begin When did it end And what did it include Traditionally regarded as a revival of classical art and learning centred upon fifteenth century Italy views of the Renaissance have changed considerably in recent decades The glories of Florence and the art of Raphael and Michelangelo remain an important element of the Renaissance story but they are now only a part of a much wider story which looks beyond an exclusive focus on high culture beyond the Italian peninsula and beyond the fifteenth century The Oxford History of the Renaissance tells the cultural history of this broader and longer Renaissance from seminal figures such as Dante and Giotto in thirteenth century Italy to the waning of Spain's golden age in the 1630s and the closure of the English theatres in 1642 the date generally taken to mark the end of the English literary Renaissance Geographically the story ranges from Spanish America to Renaissance Europe's encounter with the Ottomans and far beyond to the more distant cultures of China and Japan And thematically under Gordon Campbell's expert editorial guidance the volume covers the whole gamut of Renaissance civilization with chapters on humanism and the classical tradition war and the state religion art and architecture the performing arts literature craft and technology science and medicine and travel and cultural exchange
