**The Archaeology of the Royal Flying Corps** Melanie Winterton, 2022-10-07 Winterton's book is a good introductory effort on the haptic environment of World War I aviators and their personal artifacts. The Journal of the Air Force Historical Foundation Archaeology provides a fascinating insight into the lives of the aviators of the First World War. Their descriptions of the sensation of flying in the open cockpits of the primitive warplanes of the day and the artifacts that have survived from these first years of aerial combat give us a powerful sense of what their wartime service was like and chart the beginning of our modern understanding of aviation. But the subject hasn't been explored in any depth before, which is why Melanie Winterton's pioneering book is so timely. Hers is the first study of the trench art souvenirs and lucky mascots associated with the Royal Flying Corps, which in an original way tell us so much about the experience of flying on the Western Front a century ago. Extensive quotations from the memoirs of these early airmen are combined with an analysis of the artifacts themselves. They convey something of the fear and anxiety the airmen had to grapple with on a daily basis and bring out the full significance of the poignant souvenirs they left behind. Pieces of crashed aeroplane, wooden propellers, strips of linen, fragments of metal, were recycled and circulated during the war and afterwards became the focus of attention in the domestic home. As Melanie Winterton demonstrates, these items connected the living with the deceased, which is why they are so strongly evocative even today. *An Airman's Wife* Aimée McHardy, Barry M. Marsden, 2007-09 Originally published in 1918, *An Airman's Wife* chronicles the relationship between Aimee McHardy and William Bond from their nomadic life around France before World War One to their marriage in 1917 and William's death in action as a fighter pilot shortly afterward.

This gripping memoir recounts the pivotal moments leading up to the fall of Saigon on April 29, 1975. The book captures Nguyen V n Ba's personal journey as a South Vietnamese Air Force pilot navigating the chaos during one of history's most crucial events. The story begins with the fall of Saigon and the evacuation of thousands of refugees, including Nguyen V n Ba's family and crew. It emphasizes his courage and quick decision-making, including the dramatic choice to ditch his helicopter in the ocean to ensure everyone's safety. Themes of sacrifice, leadership, and survival resonate throughout. As the story unfolds, Nguyen V n Ba explores the challenges his family faced after escaping Vietnam and resettling in the United States. The book delves into the emotional struggles and resilience needed to rebuild, reflecting the refugee experience and enduring spirit to overcome hardship. The book also reflects on the broader historical and cultural impact of the Vietnam War, not just on his family but on the Vietnamese community. His writings, initially published in Vietnamese language newspapers, are compiled to mark the 50th remembrance of these events in 2025, aiming to preserve the memory of that era for future generations.
