**Albrecht Dürer and His Legacy** Giulia Bartrum, Günter Grass, Joseph Leo Koerner, Ute Kuhlemann, 2002 Albrecht Durer 1471 1528 was in a sense the first truly international artist The collection of his work in the British Museum is one of the best in the world This book shows how his sophisticated development of the techniques of woodcut and engraving introduced the idea of multiple images into fine art and thereby altered the history of printmaking The chronology of his career is traced from his early work in the medieval tradition of Martin Schongauer through the experience he acquired while living in Italy to his major print projects for the Holy Roman Emperor Maximilian I The book also examines Durer s influence at later periods from the obsessive interest in his work by collectors and artists during the late sixteenth century to the virtually iconic status he acquired amid the rise of German nationalism during the nineteenth century The Nobel winning German novelist Gunter Grass himself a printmaker contributes a subjective view of Durer s images from a twentieth century standpoint while other introductory essays by Guilia Bartrum Joseph Koerner and Ute Kuhlemann consider aspects of Durer s legacy through history The illustrations include all Durer s best known prints as well as numerous drawings and watercolours

**Dürer's Lost Masterpiece** Ulinka Rublack, 2023-07-11 Dürer's Lost Masterpiece tracks the history of a turning point in the career of the celebrated German artist Albrecht Dürer 1471 1528 when he stopped painting altarpieces after arguing with a merchant patron over payment As an eloquent homage to Dürer's life it brings us closer to the creation and meaning of his paintings than ever before Dürer's Lost Masterpiece considers the celebrated German artist Albrecht Dürer 1471 1528 his time and his legacy It tracks the history of a crucial and often overlooked turning point in his career when Dürer stopped painting altarpieces after falling out with the Frankfurt merchant Jacob Heller over a commission The story of this painting as Dürer's lost masterpiece functions as a lens through which to view the new relationship developing between art collecting and commerce in Europe up to the Thirty Years War 1618 1648 when global trade and cultural exchanges were increasing At the heart of the book is the argument that merchants and their mentalities were crucial for the making of Renaissance art and its legacy for modern art The book draws on a decade of research and uniquely draws the reader into the rich emotional worlds of three merchants each of whom typified the evolving relationship between art and commerce in that entrepreneurial and often ruthless age It brings to life Dürer's determined fight for creative makers to be adequately paid and explores the big questions about how European societies came to value the arts and crafts that remain relevant to our time

Reframing Albrecht Dürer Andrea Bubenik, 2013 Focusing on the ways his art and persona were valued and criticized by writers collectors and artists subsequent to his death this book examines the reception of the works of Albrecht Dürer The author traces carefully how Dürer's paintings prints drawings and theoretical writings traveled widely and were appropriated into new contexts and charged with different meanings The volume includes illustrations of numerous imitative works after Dürer

*Architecture and the Unconscious* John Shannon Hendrix, Lorens Eyan Holm, 2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of independent voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian Manfredo Tafuri was able to do with the Marxist critique of architecture The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities The book explores how architecture engages dreams desires imagination memory and emotions how architecture can appeal to a broader scope of human experience and identity Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis the volume also analyses the city and the urban condition

Boulhosa Laurent Curelly Helen Hughes Jacqueline Hylkema Philip Lavender Lorenzo Paoli Ingrid Rowland Camilla Russo and Ksenija Tschetschik Hammerl      **Albrecht Dürer's Renaissance** David Price, 2003 This lavishly illustrated book provides a fresh and challenging new perspective on the life and Work of Dürer      **Enduring Loss in Early Modern Germany**, 2010-07-05 This anthology assembles cross disciplinary perspectives on the experience of and responses to forms of material and spiritual loss in early modern Germany tracing how individuals and communities registered, coped with and made sense of such events as war, religious reform, bankruptcy, religious marginalization, the death of spouses and children and the loss of freedom of movement through a spectrum of activities including writing poetry, keeping diaries, erecting monuments, collecting books, singing, painting, reconfiguring space, repeatedly migrating and painting and thereby not only turned loss into gain but self consciously made history. Emerging from the 2008 interdisciplinary conference of *Frühe Neuzeit Interdisziplinär* the essays reveal how loss helped to create identity and gave rise to agency and creativity on the cusp of modernity. Contributors are Rosalind J. Beiler, Claudia Benthien, Jill Bepler, Duane J. Corpis, Alexander J. Fisher, Ulrike Gleixner, Claudia Jarzebowski, Hans Medick, Barbara Lawatsch, Melton Christopher Ocker, Helmut Puff, Thomas Max Safley, Jeffrey Chipps Smith, Lynne Tatlock, Mara Wade, Lee Palmer Wandel and Bethany Wiggin      *Picturing German Antiquity in the Age of Print* Rachel Carlisle, 2025-10-01 *Picturing German Antiquity in the Age of Print* Art, Archaeology and the Style *All'antica* in Early Modern Augsburg examines the central role of print to local antiquarian pursuits and generation of a style *all'antica* in early sixteenth century Augsburg, Germany. Working in the shadow of Holy Roman Emperor Maximilian I, Augsburg's leading patrons including humanist Konrad Peutinger and the mercantile Fugger family documented local antiquities and commissioned new works of classicizing art and architecture, visually asserting a genuine, unbroken lineage to the city's past. This study challenges earlier narratives by arguing that Augsburg's artists and printers did not directly copy Italian Renaissance models but instead manipulated the imported visual vocabulary according to local concerns. The book brings together scholarly discourses on transalpine exchange, scientific advancements in printmaking and reception of antiquity north of the Alps to offer a new understanding of art in early modern Augsburg and northern Europe at large      Embracing the Darkness John Callow, 2017-10-30 As dusk fell on a misty evening in 1521, Martin Luther, hiding from his enemies at Wartburg Castle, found himself seemingly tormented by demons hurling walnuts at his bedroom window. In a fit of rage, the great reformer threw at the Devil the inkwell from which he was preparing his colossal translation of the Bible. A belief like Luther's in the supernatural and in black magic has been central to European cultural life for 3000 years. From the Salem witch trials to the macabre novels of Dennis Wheatley, from the sadistic persecution of eccentric village women to the seductive sorceresses of TV's *Charmed* and from Derek Jarman's punk film *Jubilee* to Ken Russell's *The Devils*, John Callow brings the twilight world of the witch, mage and necromancer to vivid and fascinating life. He takes us into a shadowy landscape where, in an age before modern drugs, the onset of sudden illness was readily explained by malevolent spellcasting.

And where dark winding country lanes could terrify by night as the hoot of an owl or shriek of a fox became the desolate cries of unseen spirits Witchcraft has profoundly shaped the western imagination and endures in the forms of modern day Wicca and paganism Embracing the Darkness is an enthralling account of this fascinating aspect of the western cultural experience

**Max Klinger and Wilhelmine Culture** Marsha Morton, 2017-07-05 The Wilhelmine Empire's opening decades 1870s 1880s were crucial transitional years in the development of German modernism both politically and culturally Here Marsha Morton argues that no artist represented the shift from tradition to unsettling innovation more compellingly than Max Klinger The author examines Klinger's early prints and drawings within the context of intellectual and material transformations in Wilhelmine society through an interdisciplinary approach that encompasses Darwinism ethnography dreams and hypnosis the literary Romantic grotesque criminology and the urban experience His work in advance of Expressionism revealed the psychological and biological underpinnings of modern rational man whose drives and passions undermined bourgeois constructions of material progress social stability and class status at a time when Germans were engaged in defining themselves following unification This book is the first full length study of Klinger in English and the first to consistently address his art using methodologies adopted from cultural history With an emphasis on the popular illustrated media Morton draws upon information from reviews and early books on the artist writings by Klinger and his colleagues and unpublished archival sources The book is intended for an academic readership interested in European art history social science literature and cultural studies
