## **Alcohol Misuse:**

Alcohol Misuse Timothy J. Peters, 1996-06-30 This book is based on a series of reports on the health and social consequences of alcohol misuse presented to the European Economic Community Each of the chapters is written by internationally acclaimed experts who have reviewed their own chosen fields and contributed possible future research directions A review of trends in consumption are followed by a report of the racial ethnic and gender differences in alcohol misuse The importance of alcohol as a nutritional source in the pathogenesis of tissue damage the role of malnutrition deficiencies in alcohol misusers is also discussed Chapters review organs which are damaged by misuse such as the liver pancreas brain muscle skin and bone The relationship between alcohol misuse and malignancy and the HIV disease completes the biomedical areas      **Public Health Mini-Guides: Alcohol Misuse E-book** Ken Barrie, Angela Scriven, 2014-06-14 The Hot Topics in Public Health series Hot Topics in Public Health consists of a series of small pocketbooks focussing on the key public health issues identified by the UK government priorities The books will be of use to a wide audience of students and practitioners in the Nursing and Allied Health areas as all students in these areas do modules on Public Health and Health Promotion as well as those doing a diploma or degree in PH HP Students will find the books useful to cover assignments and on the ward and practitioners will love the quick reference format for use on the ward and in giving patient advice and running clinics on these topics There will be a title providing essential information on the priority areas of Obesity Smoking Alcohol misuse Sexual health Mental health Diabetes Non communicable diseases Exercise Drug misuse Health inequalities Boxes Thinking points will be of interest to practitioners Key debates Case studies Current strategies Gov targets Further Reading Useful web links      **Reducing Alcohol Harm** Great Britain. National Audit Office, 2008 This NAO report HC 1049 session 2007 08 ISBN 9780102954333 examines the health service provision in England in respect of dealing with alcohol misuse It is estimated that more than 10 million people are now regularly drinking above the guidelines set by Government with the consequent ill health and injury Between 1995 2007 hospital admissions for the three main alcohol specific conditions alcohol related liver disease mental health disorders linked to alcohol and acute intoxication more than doubled from 93 459 to 207 788 In 2006 there were 8 758 deaths from alcohol related causes twice as many as there were 15 years earlier The Department of Health has estimated that alcohol misuse costs the health service 2 7 billion per year along with the social costs such as crime and disorder social and family breakdown as well as sickness absence The Cabinet Office has put the total cost of alcohol misuse in the UK economy of up to 25 1 billion The NAO has set out a number of main findings and recommendations including that a quarter of Primary Care Trusts PCTs had not accurately assessed the alcohol problems in their area that many PCTs do not have a strategy for alcohol harm or a clear picture of spending on such services that local provision for specialist services is not based on a good understanding of a communities needs with wide variations between localities that few PCTs collect detailed data on local patterns of alcohol misuse that

money spent on identification and brief advice can be cost effective helping to re-empt the need for more expensive services that PCTs need to coordinate more effectively with other public bodies such as the police prisons and probation staff as well as social services to identify and help people who are misusing alcohol that at present no systematic means of promoting good evidence based practice on alcohol harm across PCTs exists

Congress. Senate. Committee on Governmental Affairs, 1988      **Understanding Drugs, Alcohol And Crime** Bennett, Trevor, Holloway, Katy, 2005-04-01

Bennett and Holloway's **Understanding Drugs, Alcohol and Crime** is the best most up to date and comprehensive examination for the United Kingdom of interactions among drugs, alcohol and crime. The authors exhaustively and authoritatively survey current knowledge in the UK and from many other countries on drug and alcohol use as cause and consequence of crime and the effects of law enforcement and treatment responses. Clearly written, unfailingly lucid and admirably accurate, this book will be the indispensable work on British drug policy for many years to come. Professor Michael Tonry, University of Minnesota Law School, USA. What makes this book particularly interesting is the refreshingly non-judgmental presentation which conveys the essence of very important issues in contemporary society. Therefore, this is an ideal text not only for students but also for policy makers, drugs and alcohol counsellors, treatment agencies and everyone interested in doing research on drugs, alcohol and crime. Nicoletta Policek, University of Abertay Dundee. The publication is not only an excellent summary of the existing research in Great Britain and to a lesser extent from other jurisdictions, it is a foundation for future research by evoking and at times provoking questions and offering a variety of possible responses. Hirsch Greenberg, University of Regina. What is the connection between drugs, alcohol and crime? What works in reducing drugs and alcohol related crime? The book provides a succinct overview of current theory and research on the links between drugs, alcohol use and crime. It discusses the legal and social context of drug and alcohol use and identifies current levels of consumption. Focusing on the UK context, it also takes into account international research where appropriate. Detailed review of the research literature on the connections between drug use and crime. Examines the current government anti-drugs policy and assesses the effectiveness of programmes that have been used to reduce drug and alcohol related crime. The book concludes that future government drugs policy should pay particular attention to the lessons learned from research.

on the connection between drug and alcohol use and crime Ideal for criminology criminal justice social policy and social work students this book will also be a useful source of information for policy makers the police probation workers social workers drugs and alcohol counsellors treatment agencies sentencers voluntary agencies Drug Action Teams and others with an interest in research on drugs and crime      *Child Abuse* Brian Corby, David Shemmings, David Wilkins, 2012-11-01 This book is an accessible knowledge base for the whole area of child abuse and child protection now fully updated in terms of policy cases and research      Health Care Needs Assessment Dr. Andrew Stevens, 2004 Providing vital updates this two volume set describes the central role and aim of health care needs assessment in the NHS health care reforms and explains the epidemiological approach to needs assessment and the effectiveness and availability of services
