Alcohol in the USSR Vladimir G. Treml, Rutgers Center of Alcohol Studies, 1982      *Pressures for Reform in the East European Economies* , 1989      The Rise and Fall of the The Soviet Economy Philip Hanson, 2014-09-11 Why did the Soviet economic system fall apart Did the economy simply overreach itself through military spending Was it the centrally planned character of Soviet socialism that was at fault Or did a potentially viable mechanism come apart in Gorbachev s clumsy hands Does its failure mean that true socialism is never economically viable The economic dimension is at the very heart of the Russian story in the twentieth century Economic issues were the cornerstone of soviet ideology and the soviet system and economic issues brought the whole system crashing down in 1989 91 This book is a record of what happened and it is also an analysis of the failure of Soviet economics as a concept      The Impact of Soviet Ethnicity and Demographic Changes on Soviet Foreign Policy Patricia Weathers Wyatt, 1984 This thesis examines Soviet ethnic and national problems resulting from the gradual demographic shifts presently underway It considers the impact of the shift from a Russian majority in a Russian dominated society to the Russians becoming only one large minority group among many The tensions that will increasingly strain the Soviet system as a result of the demographic changes and the complex problems with which the new Kremlin leadership must deal are discussed in relation to Soviet foreign policy A major problem of the coming decades will be how the leadership attempts to resolve these changes The nationality problems of the Soviet Union may not intrinsically be momentous but are crucial for their potentially exacerbating effects on Soviet foreign policy Author      **Third Special Report to the U.S. Congress on Alcohol and Health** United States. Department of Health, Education, and Welfare, 1978      **Special Report to the U.S. Congress on Alcohol & Health from the Secretary of Health, Education, and Welfare** United States. Colton, Thane Gustafson, 2014-07-14 How much power does the Soviet military exert on the politics of the Kremlin This is one of the most controversial questions in the study of the Soviet Union here addressed by eight top Western specialists on Soviet politics and security policy While the authors assert that the civil military relationship has been less turbulent than often believed they also point out that Gorbachev s reforms threaten the system of buffers that have until now shielded the military industrial world from disruption and change Introduced by Timothy Colton s essay Perspectives on Civil Military Relations the volume discusses civil military relations in relation to political change Bruce Parrott the KGB Army Knight resource stringency and civil military resource allocation Robert Campbell the defense industry Julian Cooper response to technological challenge Thane Gustafson social change Ellen Jones and consequences of external expansion Bruce D Porter Gustafson has written a concluding chapter Toward a Crisis in Civil Military Relations Originally published in 1990 The

**The High Title of a Communist** Edward Cohn, 2015-06-19 Between 1945 and 1964 six to seven million members of the Communist Party of the Soviet Union were investigated for misconduct by local party organizations and then reprimanded demoted from full party membership or expelled Party leaders viewed these investigations as a form of moral education and used humiliating public hearings to discipline wrongdoers and send all Soviet citizens a message about how Communists should behave *The High Title of a Communist* is the first study of the Communist Party s internal disciplinary

system in the decades following World War II Edward Cohn uses the practices of expulsion and censure as a window into how the postwar regime defined the ideal Communist and the ideal Soviet citizen As the regime grappled with a postwar economic crisis and evolved from a revolutionary prewar government into a more bureaucratic postwar state the Communist Party revised its informal behavioral code shifting from a more limited and literal set of rules about a party member's role in the economy to a more activist vision that encompassed all spheres of life The postwar Soviet regime became less concerned with the ideological orthodoxy and political loyalty of party members and more interested in how Communists treated their wives raised their children and handled their liquor Soviet power in other words became less repressive and more intrusive Cohn uses previously untapped archival sources and avoids a narrow focus on life in Moscow and Leningrad combining rich local materials from several Russian provinces with materials from throughout the USSR The High Title of a Communist paints a vivid portrait of the USSR's postwar era that will help scholars and students understand both the history of the Soviet Union's postwar elite and the changing values of the Soviet regime In the end it shows the regime failed in its efforts to enforce a clear set of behavioral standards for its Communists a failure that would threaten the party's legitimacy in the USSR's final days
