Scientific Meeting,1989 *Problems of Drug Dependence* ,1990 **Current Issues in Alcohol/drug Studies** ,1989 In this new volume experts focus on a number of important issues of current interest and controversy Is alcoholism a disease or is it not Should federal bans on drugs like heroin and cocaine be removed and will that solve modify or exacerbate the problem Can the risk for alcoholism really be predicted Professionals from a very wide variety of disciplinesmedicine and biochemistry psychiatry and psychology philosophy anthropology law social work and journalismpresent their very differing points of view on the perception of alcoholism as a disease and on public policy issues like proposed legislative controls over alcoholic beverages **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), **Drug Dependence** M.M. Glatt,2012-12-06 Drug dependence according to the 1969 World Health Organization definition is A state psychic and sometimes also physical resulting from the interaction between a living organism and a drug characterized by behavioural and other responses that always include a compulsion to take the drug on a continuous or periodic basis in order to experience its psychic effects and sometimes to avoid the discomfort of its absence Tolerance may or may not be present A person may be dependent on more than one drug The substitution of the term Drug Dependence in place of the previously employed terms Drug Addiction and Drug Habituation was recommended by a WHO Expert Committee in 1964 It was felt that there had been ongoing confusion in the use of the terms addiction and habituation and in particular misuse of the term addiction In 1965 the WHO Expert Committee was pleased to note the generally favourable reaction to the recommendations made in the previous year and the gradual acceptance of the new term In general in subsequent years the term Drug Dependence has gained increasing acceptance Yet it would seem that difficulties may arise whatever term and definition may be used Glatt 1974 and although by and large the newer term seems more appropriate than the older definitions one still often comes across the term Addiction and this not only when discussing the matter with laymen or drug misusers themselves *Current Bibliography of Epidemiology* ,1970 Monthly with annual cumulations Comprehensive current index to periodical medical literature intended for use of practitioners investigators and other workers in community medicine who are concerned with the etiology prevention and control of disease Citations are derived from MEDLARS tapes for Index medicus of corresponding date Arrangement by 2 sections i e Selected subject headings and Diseases organisms vaccines No author index Current Catalog National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 *Alcohol Consumption and Problems in the General Population* ,2002 Current List of Medical Literature ,1942 **Fundamentals of Mental Health Nursing** Andrew Clifton,Steve Hemingway,Anne Felton,2025-04-07 Evidence based introduction to the role of the mental health nurse covering social political psychological and biological aspects of mental health Fundamentals of Mental Health Nursing is an accessible
