Prof. Sergei Averintsev

Aleksei Fedorovich Losev Sergei Sergeevich Averintsev:

From Onomatodoxy to Aesthetics: Aleksei Losev's Concept of Symbol Teresa Obolevitch, 2025-05-08 In *From Onomatodoxy to Aesthetics* Aleksei Losev's Concept of Symbol Teresa Obolevitch analyzes the category of symbol in broad historical and philosophical context with a focus on Losev's exploration of symbol over his prolific and tragic career. A survivor of the Stalinist camps, Losev is recognized as the last classic of Russian Silver Age philosophy. This book addresses Losev's critical role within the divisive debate over onomatodoxy (imiaslavie) or the divine name which occupied the minds of Russian thinkers in the early nineteenth century. Obolevitch presents the ancient and patristic roots of onomatodoxy and elucidates its importance for Losev's work in a range of fields including aesthetics, mathematics, philosophy of language and religion. Losev's work revolves around the possibility of expressing reality in language and his conception of symbol reflects both the apophatic aspect of Logos as well as the possibility for new interpretations of reality. **The Palgrave Handbook**

of Russian Thought Marina F. Bykova, Michael N. Forster, Lina Steiner, 2021-05-22 This volume is a comprehensive Handbook of Russian thought that provides an in-depth survey of major figures, currents and developments in Russian intellectual history spanning the period from the late eighteenth century to the late twentieth century. Written by a group of distinguished scholars as well as some younger ones from Russia, Europe, the United States and Canada, this Handbook reconstructs a vibrant picture of the intellectual and cultural life in Russia and the Soviet Union during the most buoyant period in the country's history. Contrary to the widespread view of Russian modernity as a product of intellectual borrowing and imitation, the essays collected in this volume reveal the creative spirit of Russian thought which produced a range of original philosophical and social ideas as well as great literature, art and criticism. While rejecting reductive interpretations, the Handbook employs a unifying approach to its subject matter, presenting Russian thought in the context of the country's changing historical landscape. This Handbook will open up a new intellectual world to many readers and provide a secure base for its further exploration. *Encyclopaedia of Contemporary Russian* Tatiana Smorodinskaya, Karen

Evans-Romaine, Helena Goscilo, 2013-10-28 The Encyclopedia is an invaluable resource on recent and contemporary Russian culture and history for students, teachers and researchers across the disciplines. *Modern Orthodox Thinkers* Andrew Louth, 2015-09-25 Andrew Louth introduces us to twenty key Orthodox thinkers from the last two centuries. The poets and thinkers included range from Romania, Serbia, Greece, England and France and also include exiles from Communist Russia. The book concludes with an illuminating chapter on Metropolitan Kallistos and the theological vision of the Philokalia.

Other Others Sergey Dolgopolski, 2018-06-05 Denying recognition or even existence to certain others while still tolerating diversity stabilizes a political order or does it? Revisiting this classical question of political theory, the book turns to the Talmud. That late ancient body of text and thought displays a new concept of the political and thus a new take on the question of excluded others. Philosophy and theology-driven approaches to the concept of the political have tacitly elided a

concept of the political which the Talmud displays yet that elision becomes noticeable only by a methodical rereading of the pages of the Talmud through and despite the lens of contemporary competing theological and philosophical theories of the political The book commits such rereading of the Talmud which at the same time is a reconsideration of contemporary political theory In that way The Political intervenes both to the study of the Talmud and Jewish Thought in its aftermath and to political theory in general The question of the political for the excluded others or for those who programmatically do not claim any original belonging to a particular territory comes at the forefront of analysis in the book Other Others approaches this question by moving from a modern political figure of Jew as such an other other to the late ancient texts of the Talmud The pages of the Talmud emerge in the book as a disappearing display of the interpersonal rather than intersubjective political The argument in the book arrives at the end to a demand to think earth anew now beyond the notions of territory land nationalism or internationalism or even beyond the notion of universe that have defined the thinking of earth so far

Post-Apocalyptic Cultures Julia Urabayen, Jorge León Casero, 2024-03-19 This book advocates for the necessity of recovering the value of utopias as political projects that open new channels of action The criticism of modern political utopias is based on the supposed impossibility of creating for the future because there is no longer a future apocalyptic ideology However this edited collection seeks to show that the post apocalyptic world in which we live entails a renewed freedom of design for the radical reorganization of institutions Post apocalyptic cultures are not obligated to follow the capitalist anthropocentric correlationist and sovereign modes of the old political project of emancipation the Western enlightenment that has started to collapse With this in mind this book is divided into four sections dedicated to the main themes from which to rethink the projects of political emancipation that are possible nowadays technopolitics posthumanist biopolitics non western politics and the crossover between arts and politics
