Albert Ankar:

Albert Anker (1831-1910). Swiss Institute (New York, N.Y.),1995 **Albert Anker** Masao Miyazawa,Therese Bhattacharya-Stettler,Bunkamura Museum of Art (Tokyo),2007 **Six Important Works by Albert Anker from a Private Swiss Collection which Will be Sold at Christie's Great Rooms on Friday 22 June 1990 at 12.00 Noon**

Approximately ... Albert Anker,Christie, Manson & Woods,1990 **Le Corbusier, the Noble Savage** Adolf Max Vogt,Le Corbusier,1998 Vogt s investigation of LC s early life and education not only reveals important previously unacknowledged influences on specific projects such as the League of Nations headquarters and the Villa Savoye but also suggests why LC throughout his career preferred to lift buildings above the ground to give them the appearance of floating This tendency had decisive consequences for buildings associated with the modern movement and continues to influence architecture today

Art Books Wolfgang M. Freitag,2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition Albert Anker , **The Laboratory of Progress** Joseph Jung,2022-09-16 The Laboratory of Progress Switzerland in the 19th Century tells the improbable story of how a small backward mountainous agricultural country with almost no raw materials became an industrial powerhouse a hub of innovation a touristic mecca and a pioneer in transportation all in the course of a single century That a tiny landlocked country should become a dominant steamship builder for the rest of the world that a country that had never seen a cotton plant should become the world s second largest textile producer that a country with hardly any level terrain should come to boast the world s most highly developed railway network and that a country whose main export was impoverished emigrants should be transformed into one of the world s major financial centres these astonishing developments among many others are explored and explained both through the specific stories of individual innovators and through a prescient analysis of the political economic societal and cultural structures that formed the context in which Switzerland s astonishing transformation took place The book is a compelling read both for professional historians and for general readers with an interest in Switzerland it highlights the roles of transport networks and individual pioneers in industrial and political development

Albert Anker, 1831-1910 Kunsthaus Zürich,1911 Nationalism, Religious Violence, and Hate Speech in Nineteenth-Century Western Europe Francisco Javier Ramón Solans,2024-04-01 Nationalism Religious Violence and Hate

Speech in Nineteenth Century Western Europe critically analyses the role played by different memories of past religious violence in public debates in nineteenth century Europe Looking back European societies often did not seek to overcome their differences and create a framework of peaceful coexistence among various religions and denominations but rather more frequently to fuel intra and inter religious hatred Moreover various violent pasts were mobilised to define what and who was intolerant in order to mark the other as intolerant and therefore incompatible with societal values To examine conflicting memories of violence and hatred this book focuses on commemorations statues publications and public polemics surrounding past religious violence Three elements serve as a framework to explain the conflictive nature of these memories of intolerance the age of commemorations the culture wars and the second confessional age The authors explore cases in France Germany Italy Spain Switzerland the United Kingdom and the Low Countries covering Catholicism Protestantism Anglicanism Islam and Judaism The book focuses on iconic victims such as Giordano Bruno and Michael Servetus collective massacres and discourses surrounding religious hatred in events such as the Crusades The cases of religious violence remembered in the nineteenth century span the Middle Ages and the intense period of religious violence known as the confessional age This book will appeal to students and scholars of politics religious tolerance and freedom hate speech nationalism religious history and European history

EC Law and the Sovereignty of the Member States in Direct Taxation Mathieu Isenbaert, 2010 In order to develop a suitable framework for the analysis of the European Court of Justice ECJ case law it is first analysed what significance if any the concept of sovereignty has in the contemporary supranational environment of the European Union All too often tax scholars equate sovereignty with the concepts of competence or jurisdiction It will be established in this thesis that a much more specific and higher level meaning is to be attributed to the sovereignty concept

which goes beyond the strictly legal concepts of competence or jurisdiction The cornerstone of this thesis however is an extensive analysis of the case law of the ECJ in direct tax matters including a comparison with its non tax case law A new kind of methodology is used in discussing the cases they are categorized according to whether a discrimination or a restriction based analysis was applied by the ECJ
