Alberta And Freedom:

Alberta and Freedom Cora Sandel, 1963 **Alberta and Freedom [by] Cora Sandel. Translated from the Norwegian by Elizabeth Rokkan** Cora Sandel, 1963 *Alberta and Freedom* Cora Sandel, 1963 **Alberta Oil and the Decline of Democracy in Canada** Meenal Shrivastava, Lorna Stefanick, 2015-10-01

In *Democracy in Alberta The Theory and Practice of a Quasi Party System* published in 1953 C B Macpherson explored the nature of democracy in a province that was dominated by a single class of producers At the time Macpherson was talking about Alberta farmers but today the province can still be seen as a one industry economy the 1947 discovery of oil in Leduc having inaugurated a new era For all practical purposes the oil rich jurisdiction of Alberta also remains a one party state Not only has there been little opposition to a government that has been in power for over forty years but Alberta ranks behind other provinces in terms of voter turnout while also boasting some of the lowest scores on a variety of social welfare indicators The contributors to *Alberta Oil and the Decline of Democracy* critically assess the political peculiarities of Alberta and the impact of the government's relationship to the oil industry on the lives of the province's most vulnerable citizens They also examine the public policy environment and the entrenchment of neoliberal political ideology in the province In probing the relationship between oil dependency and democracy in the context of an industrialized nation *Alberta Oil and the Decline of Democracy* offers a crucial test of the oil inhibits democracy thesis that has hitherto been advanced in relation to oil producing countries in the Global South If reliance on oil production appears to undermine democratic participation and governance in Alberta then what does the Alberta case suggest for the future of democracy in industrialized nations such as the United States and Australia which are now in the process of exploiting their own substantial shale oil reserves The environmental consequences of oil production have for example been the subject of much attention Little is likely to change however if citizens of oil rich countries cannot effectively intervene to influence government policy

Forging Alberta's Constitutional Framework Richard Connors, John M. Law, University of Alberta. Centre for Constitutional Studies, 2005-11 *Forging Alberta's Constitutional Framework* analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005. The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population. Challenges to authority, latent lawlessness, interaction between indigenous and settler societies, periods pre and post 1905 of jurisdictional confusion and demands for individual, group and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west, patrolled from the outset by red-coated mounted police and peopled by peaceful and law-abiding subjects of the Crown. Papers focus on the development of criminal law in the Canadian west in the nineteenth century, the Natural Resources Transfer Agreement of 1930, the National Energy Program of the 1980s, Federal-Provincial relations and the role and responsibilities of the offices of Justices of the Peace and of the Lieutenant Governor and the legacies of the Lougheed and Klein governments.

The Inherence of Human Dignity Barry W. Bussey, Angus J. L. Menzies, 2021-02-15 Focused on the more practical level, volume 2 seeks to understand the work dignity may do as a foundation for law, how it is related to religious liberty and how we should adjudicate religious liberty disputes at the individual and corporate level. What is the sphere of human dignity that the law should be trying to protect? Is the role of dignity helpful as a foundational legal concept and if so, how exactly? What is the status of religious liberty as a component of human dignity and how is it to be balanced with other individual rights such as freedom of expression? And finally, to what extent can the law adjudicate corporate religious claims.

Federalism and the Charter Peter H. Russell, Rainer Knopff, Frederick Lee Morton, 1989 This extensive revision of the landmark *Leading Constitutional Decisions* brings together recent Charter cases with the classical cases on the Canadian Constitution. An introductory essay traces the evolution and distinctive features of judicial review in Canada and includes references to the Constitution Act 1982 and the important changes resulting from it.

Value Change in the Supreme Court of Canada Matthew E. Wetstein, C.L. Ostberg, 2017-01-01 *Value Change in the Supreme Court of Canada* is a groundbreaking analysis of the degree to which Supreme Court decisions reflect the changing values of society over the past four decades. Focusing on three key areas of law: environmental disputes, free speech and discrimination cases, Wetstein and Ostberg provide a revealing analysis of the language used by Supreme Court justices in landmark rulings in order to document the way that value changes are transmitted into the legal and political landscape. Bolstered by a comprehensive and nuanced blend of research methods, *Value Change in the Supreme Court of Canada* offers a sweeping analysis of pre and post Charter influences, one that will be of significant interest to political scientists, lawyers, journalists and anyone interested in the increasingly powerful role of the Supreme Court.
