**Scottish Modernism and its Contexts 1918-1959** Margery Palmer McCulloch, 2009-05-15 This innovative book proposes the expansion of the existing idea of an interwar Scottish Renaissance movement to include its international significance as a Scottish literary modernism interacting with the intellectual and artistic ideas of European modernism as well as responding to the challenges of the Scottish cultural and political context Topics range from the revitalisation of the Scots vernacular as an avant garde literary language in the 1920s and the interaction of literature and politics in the 1930s to the fictional re imagining of the Highlands the response of women writers to a changing modern world and the manifestations of a late modernism in the 1940s and 1950s Writers featured include Hugh MacDiarmid Lewis Grassie Gibbon Neil M Gunn Edwin and Willa Muir Catherine Carswell Sydney Goodsir Smith and Sorley MacLean

**Anthologies of British Poetry** Barbara Korte, Ralf Schneider, Stefanie Lethbridge, 2000 From Tottel s Miscellany 1557

to the last twentieth century Oxford Book of English Verse 1999 anthologies have been a prime institution for the preservation and mediation of poetry The importance of anthologies for creating and re creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions audience tastes and reading practices or as a profitable literary commodity has often been asserted Despite its impact however the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English speaking world This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets editors publishers and cultural institutions aim to do justice to the typological functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world wide web

**Modern Scottish Poetry** Christopher Whyte, 2004 Although Scottish poetry gained an increasingly high profile towards the end of the twentieth century this groundbreaking work is the first book length study of the field Christopher Whyte takes significant collections by 20 poets writing in English Scots and Gaelic as the starting point for an examination of their whole career and of the connections between them Poets featured include Sorley MacLean Edwin Muir George Campbell Hay Sydney Goodsir Smith Edwin Morgan Tom Leonard W S Graham Iain Crichton Smith Liz Lochhead Douglas Dunn Kathleen Jamie Carol Ann Duffy and Aonghas MacNeacail Whyte argues that concerns with nationalism and national identity have so far shaped our reading of Scottish poetry and that the time has come to set these aside in favour of new approaches where Scottishness will no longer be a dominant concern His sobering yet balanced reappraisal of the failures and achievements of the interwar period offers a sound basis for the discussion of more contemporary work which follows Modern Scottish Poetry is a refreshing and stimulating reassessment of the cultural scene as the new century gets under way Innovative challenging and frequently controversial the readings demonstrate a consistent theoretical sophistication and highlight the richness and variety of work produced across six decades Features In depth coverage of each of 20 poets women poets and gay material included providing lively material for discussion and debate Sums up the critical tradition so far and suggests how it needs to change Ideas put forward are rooted in close reading of specific poems Basic bibliographical information main edition secondary literature for each author plus an invitation to further exploration and research

Scottish Studies Review , 2004

**Books in Scotland** , 1997

**The Celtic Unconscious** Richard Barlow, 2017-03-30 The Celtic Unconscious offers a vital new interpretation of modernist literature through an examination of James Joyce s employment of Scottish literature and philosophy as well as a commentary on his portrayal of shared Irish and Scottish histories and cultures Barlow also offers an innovative look at the strong influences that Joyce s predecessors had on his work including James Macpherson James Hogg David Hume Robert Burns and Robert Louis Stevenson The book draws upon all of Joyce s major texts but focuses mainly on Finnegans Wake in making three main interrelated arguments that Joyce applies what he sees as a specifically Celtic

viewpoint to create the atmosphere of instability and skepticism of *Finnegans Wake* that this reasoning is divided into contrasting elements which reflect the deep religious and national divide of post 1922 Ireland but which have their basis in Scottish literature and finally that despite the illustration of the contrasts and divisions of Scottish and Irish history Scottish literature and philosophy are commissioned by Joyce as part of a program of artistic decolonization which is enacted in *Finnegans Wake* The Celtic Unconscious is the first book length study of the role of Scottish literature in Joyce's work and is a vital contribution to the fields of Irish and Scottish studies This book will appeal to scholars and students of Joyce and to students interested in Irish studies Scottish studies and English literature
