Drinking in Context Gerry Stimson, Marcus Grant, Marie Choquet, Preston Garrison, 2013-05-13 Drinking beverage alcohol is a widespread source of individual and social pleasure in most countries around the world Yet some drinking patterns can lead to serious physical mental and social harms Drinking in Context is intended to complement existing volumes dealing with international alcohol policy by focusing on three main themes drinking patterns targeted interventions and partnership development An understanding that patterns of drinking are important predictors of outcomes has led to a growing realization that alcohol policies and prevention strategies need to focus on excessive or irresponsible drinking As a result there has been a shift towards interventions that address the targeted reduction of harm These approaches recognize socio cultural differences and avoid trying to impose a one size fits all solution In this context multi stakeholder partnerships offer an excellent opportunity to promote the complex mix of measures required by each society Shared responsibilities lead to shared solutions

Drinking Occasions Dwight B. Heath, 2012-12-06 The main purpose of this book is to describe the variety of drinking occasions that exist around the world primarily in modern industrialized countries As such it celebrates the diversity of normal drinking behavior and illustrates a wide range of beneficial drinking patterns Attention is also paid to the relations between drink and culture that prevail in non Western societies and in developing countries The aims of the book are twofold to deal directly with the challenge of how to define responsible drinking in the face of the world's many different drinking styles and to portray the many ways in which people have thought about or used alcohol as an integral part of their culture

From Science to Action? 100 Years Later - Alcohol Policies Revisited Richard Müller, Harald Klingemann, 2007-05-08 Alcohol has been central to social religious and personal use throughout the history Alcohol drinking goes back almost as far as the human race does A hundred years therefore may be seen as only a flash The past century however has witnessed a fundamental change in dealing with alcohol problems Hence to give an overview of a hundred years of alcohol policies is a rather ambitious task and the contributions to this book shed only some light on the way in which alcohol policy issues have changed in this period This authoritative volume is relevant to both scientists and policy makers providing a state of the art in alcohol policy from different perspectives covering both science research treatment and prevention practice and linking these areas

Alcohol and Pleasure Stanton Peele, Marcus Grant, 2013-05-13 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand and the pain and suffering caused by alcohol abuse on the other But if we are to understand the role of alcohol in society then at the very least we need to acknowledge the pleasure as well as the pain Alcohol and Pleasure aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration

Working Together to Reduce Harmful Drinking Marcus

Grant, Mark Leverton, 2009-10-05 This book is intended to contribute to the World Health Organization's WHO global strategy to reduce the harmful use of alcohol. It explores areas where alcohol producers' technical competence can and does make a positive contribution to reducing harmful drinking and where industry input has been welcomed by WHO. The book describes each of these areas: producing beer, wine, and spirits; addressing availability of noncommercial beverages; pricing; marketing; and selling beverage alcohol; encouraging responsible choices; and working with others. The final chapter sets out views of how alcohol producers can contribute to reducing harmful drinking in countries where they are present. The messages recurring throughout the book are that reasonable regulation provides the context for good alcohol policy; excessive regulation often leads to unintended negative consequences; leading producers have a proud record of making positive contributions to implementing effective alcohol policies; but there are opportunities to do much more. *Russian-U.S. Cooperation in the Fight Against Alcoholism* United States. Congress. Commission on Security and Cooperation in Europe, 2014 Urban Violence and Insecurity Caroline O N Moser, 2004 **Swimming with Crocodiles** Marjana Martinic, Fiona Measham, 2008-06-19 There is evidence that a distinct pattern of alcohol consumption is emerging across the world and is a cause for concern because of its relationship with a range of health and social problems. Its visibility, particularly its high involvement of young people, makes this not only an issue for public safety and order in many countries but also a highly contentious and politicized subject. This book examines the rapid and heavy drinking behavior by young people described in a number of countries, positioning it within its appropriate social, historical, and cultural contexts. The book argues in favor of a new term, extreme drinking, to fully encapsulate the many facets of this behavior, taking into account the underlying motivations for the heavy, excessive, and unrestrained drinking patterns of many young people. It also acknowledges the drinking process itself and accommodates greater focus on outcomes that are likely to follow. In many ways, extreme drinking is not so far removed from other extreme behaviors such as extreme sports; all offer a challenge; their pursuit is motivated by an expectation of pleasure; and they are, by design, not without risk to those who engage in them, others around them, and society as a whole. Edited by Marjana Martinic and Fiona Measham, *Swimming with Crocodiles* is the ninth volume in the ICAP Book Series on Alcohol in Society. The authors discuss the factors that motivate extreme drinking, address the developmental, cultural, and historical contexts that have surrounded it, and offer a new approach to addressing this behavior through prevention and policy. The centerpiece of the book is a series of focus groups conducted with young people in Brazil, China, Italy, Nigeria, Russia, South Africa, and the United Kingdom, which examine their views on extreme drinking, motivations behind it, and the cultural similarities and differences that exist, conferring at once risk and protective factors. **Reasonable Risk** Marjana Martinic, Barbara C. Leigh, 2004 First Published in 2004 Routledge is an imprint of Taylor & Francis, an informa company *Handbook of European Homicide Research* Marieke C. A. Liem, William Alex Pridemore, 2011-10-17 This comprehensive work provides a sourcebook of information about the substantive methodological

and policy oriented aspects of homicide research in Europe Part one of this work covers the most recent substantive and methodological information about European homicide research The second part will contains detailed case studies on homicide research in 15 20 individual European nations This work will be both conceptual and practical conceptual and practical Conceptual aspects will focus on theoretical frameworks and patterns and trends of violence in Europe Practical aspects will examine the results of empirical research topics relating to different data sources and the variation of legal definitions of violence throughout Europe and policy issues relating to variation in homicide prevention and punishment of homicide offenders throughout Europe This handbook will not only provide an up to date reference that brings together known information but will also offer previously unpublished comprehensive literature reviews and original research findings The editors distinctive approach is to provide readers with an English language central source of information about the voluminous literature on European homicide research that is currently spread widely in dozens of different European and American journals

Gender Dimensions of Alcohol Consumption and Alcohol-related Problems in Latin America and the Caribbean Hnin Hnin Pyne, Mariam Claeson, Maria Correia, 2002-01-01 While the World Bank has included the issue of alcohol consumption and production on its agenda for the past ten years it has not included gender dimensions in the issue By focusing on alcohol consumption in Latin America and the Caribbean the instances of death disease and domestic violence arising from alcoholism were tracked This study recommends an approach to dealing with the damage done by alcohol consumption and

production that goes beyond controlling its availability Specifically the measures recommended include increasing knowledge through research developing indicators to measure consumption levels and patterns among men and women and the economic and social consequence of alcohol use integrating the issue of alcohol use and related problems into consultations with governments and civil society organizations and investment lending where appropriate to address the issue
