ALEKS is an artificial intelligence-based system for individualized math learning available for Higher Education from McGraw Hill over the World Wide Web. ALEKS delivers precise assessments of your math knowledge, guides you in the selection of appropriate new study material, and records your progress toward mastery of goals. ALEKS interacts with you much as a skilled human tutor would, moving between explanation and practice as needed, correcting and analyzing errors, defining terms, and changing topics on request. By accurately assessing your knowledge, ALEKS focuses clearly on what you are ready to learn next, helping you master the course content more quickly and easily. Today's Developmental Math students enter college needing more than just the math, and this has directly impacted the instructor's role in the classroom. Instructors have to teach to different learning styles within multiple teaching environments and to a student population that is mostly unfamiliar with how to be a successful college student. Authors Andrea Hendricks and Pauline Chow have noticed this growing trend in their combined 30 years of teaching at their respective community colleges, both in their face-to-face and

online courses As a result they set out to create course materials that help today s students not only learn the mathematical concepts but also build life skills for future success Understanding the time constraints for instructors these authors have worked to integrate success strategies into both the print and digital materials so that there is no sacrifice of time spent on the math Furthermore Andrea and Pauline have taken the time to write purposeful examples and exercises that are student centered relevant to today s students and guide students to practice critical thinking skills Beginning and Intermediate Algebra and its supplemental materials coupled with ALEKS or Connect Math Hosted by ALEKS allow for both full time and part time instructors to teach more than just the math in any teaching environment without an overwhelming amount of preparation time or even classroom time **ALEKS Worktext for Beginning Algebra** Donald Hutchison,2000
