Johnson, 2013-07-24 This volume explores agenda setting theory in light of changes in the media environment in the 21st century In the decades since the original Chapel Hill study that launched agenda setting research the theory has attracted the interest of scholars worldwide Agenda Setting in a 2.0 World features the work of a new generation of scholars The research provided by these young scholars reflects two broad contemporary trends in agenda setting A centrifugal trend of research in the expanding media landscape and in domains beyond the original focus on public affairs and a centripetal trend further explicating agenda setting's core concepts **La cultura editorial universitaria** Camilo Ayala Ochoa, 2016-04-01 En 1988 Arturo Souto Mantec n public dentro de la colecci n Biblioteca del Editor un estudio sobre la organizaci n administrativa en torno a la edici n en la Universidad Nacional Aut

noma de México que junto a otros trabajos lleva el título de La actividad editorial universitaria. Si lo habíamos pasado dos años desde la disposición que en la unam descentralizó tanto el proceso editorial como las funciones de distribución y varias dependencias universitarias estaban integrando un comité editorial y formando su departamento editorial. Tres noventa y dos después el sistema editorial de la institución se ha venido transformando a medida que lo ha hecho la organización universitaria y se han socializado nuevas tecnologías de comunicación e información lo que conlleva a dichas discusiones en la doctrina de los derechos de autor. En sus inicios la Biblioteca del Editor llevaba una presentación de Humberto Muñoz García y Arturo Velázquez Jiménez el uno a la sazón coordinador de Humanidades y el otro director general de Fomento Editorial. El maestro Velázquez decía que la colección era un espacio de reflexión, información y renovación. La actividad editorial universitaria tenía entre sus propósitos el extraer del análisis de la labor editorial universitaria el significado intrínseco que le otorga su carácter propiamente universitario. Haciendo eco a esas palabras es necesario volver a exponer los procesos de las distintas áreas que intervienen en el quehacer editorial de la unam como en su día lo hizo el libro compilado por Souto Mantecón. Ese es el sentido de este trabajo.

Professional Training of Psychologists Julio César Ossa, Ana María Jacó-Vilela, Jean Nikola Cudina, 2025-04-28. This book represents an intellectual journey through the history, culture, and training of psychologists in Latin America to transcend borders. It analyzes the inception of academic programs in each country in the region, exploring the socio-political and economic context and delves into the conceptual, methodological, and epistemological aspects of training. Similarly, it discusses how psychology prepares professionals for their roles in society and provides updated data on the discipline's growth in the region. Furthermore, it promotes international and intercultural dialogue, enriching the global understanding of psychology. The book's emphasis on adopting a historical and cultural approach is essentially an effort to introduce a critical component to the analysis of psychologist professional training. This component adds value for the reader and aids in understanding how Latin American psychology has been shaped by historical events, social movements, government policies, and the diverse cultural traditions of the region. Readers will gain a profound understanding of why psychology has developed in a particular way in each Latin American country, shedding light on significant variations in psychological practice and theory in this part of the world. Essentially, this work constitutes an invaluable resource for academics, professionals, and anyone interested in understanding the intersection between psychology and the rich historical and cultural diversity of Latin America.
