## **Aging And The Religious Dimension:**

*Aging and the Religious Dimension* Susan A. Eisenhandler, 1994-02-17 Aging and religion has been badly neglected in the field of Gerontology This book containing 13 chapters of original theory and research is devoted to understanding the place that religion and spirituality hold in the lives of elderly persons The authors each experts in their own field approach this issue from their backgrounds in the social sciences and the humanities Overall this is a ground breaking collection It is one of the first attempts to seek to understand the role that religion plays in the lives of elderly persons Based on their various multi disciplinary perspectives the authors make use of a variety of qualitative and quantitative methodologies as well as personal narrative and literature to grapple with this issue Finally the book is unique in that it addresses scholars and students including the educated layman rather than the professional alone **Spiritual Dimensions of Ageing** Malcolm

Johnson, Joanna Walker, 2016-11-24 Well known authors in the field of ageing and spirituality present their considered contributions to current understandings in this fast changing field **Aging, Spirituality, and Religion** Melvin

Kimble, Susan H. McFadden, 2002-12-01 Volume II picks up where Volume I left off with practical advice and tools for ministry with the aging in a variety of settings Gerontological and theological perspectives undergird the practical guidance and a final section treats of the unique ethical issues involved in ministry with the aging The Religious Dimension of Intercultural Education Heid Leganger-Krogstad, 2011 This book explores the religious dimension in intercultural education and states that religion plays a key role in value conflicts and worldview differences in schools in pluralistic societies Religion is considered having a double role both as the reason for deep differences in mental mapping and worldviews and as a contributor to intercultural understanding and dialogue The book discusses the role religion has in education both at an institutional level in the whole school society and in Religious Education as a specific school subject Underlying Western worldviews in subject curricula and subject didactics need to be revealed and contested to increase the benefit of education for all students It argues for the need of a contextual understanding to help teaching and learning address religious diversity in schools **Aging and the Meaning of Time** Susan McFadden, Robert Atchley, 2006-05-03 As we confront our own

mortality we might ask What has my long life meant and how have the years shaped me or How long must I suffer Such questions reflect time consciousness the focus of this classic volume The authors from diverse disciplines in gerontology act as guides in the exploration of the realms of time in later life and their meanings As they examine how the study of time can give new meanings to aging they also consider the religious and spiritual questions raised when human beings consider the temporal boundaries of life This volume honors Melvin Kimble s contributions to gerontology and represents a new direction in the study of religion spirituality and aging *Religious Dimensions of Child and Family Life* Harold Coward, Philip Cook, 2006-01-01 When the UN Convention on the Rights of the Child UNCRC was unanimously approved by the UN General Assembly on November 20 1989 it was widely heralded as a landmark in children s advocacy and provided a useful

framework for developing programs and advocating for children's well-being. However, many children's programs are still designed with little thought to religious or cultural diversity even though the importance of culture was highlighted at the convention. *Religious Dimensions of Child and Family Life* examines the UN Convention on the Rights of the Child from the perspectives of eight of the world's most practised religions: Islam, Christianity, Hinduism, Buddhism, North American Native spiritual belief, Judaism, popular Chinese religious practice, and Bahá'í. The authors of each article pay special attention to religious moral codes of conduct governing parental behaviour, child-rearing norms, and the role of children in spiritual practice. They pinpoint where positive support is provided but also where the religions criticize or disagree with the ideas of the Convention. When considered in relation to the UN Convention, these ideas provoke a lively discussion.

*Aging and Spirituality* David O. Moberg, 2012-10-12 Explore the spiritual dimensions of aging through science, theory, and practice. During the later years of life, many people devote energy to a process of spiritual awakening and self-discovery. Yet their family, friends, clergy, and the helping professionals who work with them are not always prepared to understand or deal with the spiritual concerns of their clients. *Aging and Spirituality* provides a unique, far-reaching overview of this long-neglected field. Divided into four independent but interwoven sections, this landmark book covers the spiritual realm with scientific rigor and deep human understanding. *Aging and Spirituality* comprehensively surveys the issues of spirituality from the groundwork of basic definitions to detailed assessments of the role spirituality plays in the lives of the elderly and suggested directions for further research. This book's unique approach combines scholarly research and practical nuts and bolts suggestions for service delivery. By drawing from many disciplines and professions, it offers fresh perspectives to even those practitioners already familiar with the most effective spiritual techniques; their own field can offer *Aging and Spirituality* answers such as: What are the spiritual needs of people later in life? Is there any solid evidence that prayer changes things? How is spirituality related to physical and mental health? Does spirituality matter when people know they are dying? How can we measure spiritual wellness and assess the outcomes of activities intended to enhance it? Will attention to spirituality aggravate or alleviate the losses of friends, family, health, youth that so often occur during old age? *Aging and Spirituality* provides a much-needed resource for health-care professionals, clergy, social workers, and counselors working with geriatric clients. By integrating spiritual issues into the theoretical framework of social gerontology, *Aging and Spirituality* will help you understand the scientific foundations, practical applications, and public policy implications of spirituality for older adults.

**Religion, Spirituality, and Aging** Harry R. Moody, 2012-12-06 Learn how to make a more positive impact with your social work with the aged. Religion is an important coping mechanism for many aging adults. *Religion, Spirituality, and Aging: A Social Work Perspective* presents the latest research that shows how religion and spirituality can improve quality of life for elders. Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves.

The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging person's life may have on their physical and mental welfare Organized social work in the early twentieth century actively tried to distance itself from its roots as a form of religious charity in favor of becoming a scientific and professional endeavor Religion Spirituality and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discuss the issues of the aging soul while examining ways to improve care Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas Religion Spirituality and Aging discusses the latest social work trends and attitudes toward spirituality prayer meditation and acts of altruism as interventions an empirical study of how social workers use religion and spirituality as an intervention ethical considerations and best practices religion and spirituality during long term care the Postcards to God project dreams and their relationship to the search for meaning in later life a spiritual approach to positive aging through autobiography dementia and spirituality creating new rituals for sacred aging spiritual master Henri Nouwen's principles of aging and his approaches to caring for older people an interview study on elders spirituality and the changes manifested in their views of religion Religion Spirituality and Aging is a remarkable reminder that elders are our future selves This erudite well reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers human service professionals who work with the aged and gerontology scholars

*Religion in Aging and Health* Jeffrey S. Levin, 1994 This book brings together key scholars and practitioners from a range of fields in order to advance epidemiological and gerontological research into the role of religion in physical psychosocial and mental health Part One addresses such issues as hope forgiveness the psychodynamics of faith and belief and coping in a theoretical context Part Two seeks to advance the methodological sophistication of research in this area with an emphasis on measurement and design issues
