Aging The Law General Edition:

The Lawyer's Guide to Elder Injury and Accident Compensation James T. O'Reilly, 2004 War Crimes Law Comes of Age Theodor Meron, 1998 In this edited collection Theodor Meron the world's most important author on issues of international humanitarian law brings together a fascinating collection of his essays on war crimes and related areas together with a new concluding chapter from which the book takes its title which brings together the themes explored in the essays The rapid and fundamental developments in the last few years on the establishment of individual criminal responsibility for serious violations of international humanitarian law have been such that now more than ever is an appropriate time to assess their principal features This book will be welcomed by all scholars in the field as a useful and significant contribution to our understanding of international humanitarian law The Older Worker in the Federal Service United States Civil Service Commission, 1961 *The Law on Age Discrimination in the EU* Malcolm Sargeant, 2008-01-01 The EC Directive establishing a general framework for equal treatment in employment and occupation covers a number of grounds of discrimination including age The EU's population is ageing but there is much evidence that age discrimination is widespread The Directive is a reaction to that and the consequent desire to encourage greater participation in the labour market by older workers This is the first time that age discrimination has been made unlawful by the EU and as a result there are now laws in every Member State making such discrimination unlawful The Directive and much of the national legislation however treats age discrimination differently to the other grounds for unlawful discrimination It is the only area which permits direct discrimination Age discrimination generally may still be objectively justified by a legitimate aim if the means of achieving that aim are appropriate and necessary Such aims include legitimate employment policy labour market and vocational training objectives This insightful book written by national experts in eight Member States and at the EU level considers the ways in which the Directive has been implemented in some of the Member States and the extent to which they have taken advantage of the exceptions that are inherent in the Directive Particular issues that are covered are what legislation has been adopted in each country the development of the case law that exists in some States the demographic imperative existing in each country measures taken to improve the position of young people retirement and the exit from the workforce of older workers the approach and case law of the European Court of Justice As an important contribution towards an understanding of age discrimination within the European Union this book opens a field of law that has heretofore not been considered in all its seriousness It will be of real value to lawyers human resource management professionals and those with an interest in discrimination and EU issues It is an important contribution to what will be a developing field of study The Law Times, 1875 *Social Security Legislation Throughout the World* United States. Law and Muslim States** Kamran Hashemi,2008-08-31 This book offers an exploration of aspects of the subject Islam and
Human Rights which is the focus of considerable scholarship in recent years predominantly from Western scholars Thus it is
interesting and important to have the field addressed from a non Western perspective and by an Iranian scholar The study
draws on Persian language literature that addresses both theological and legal dimensions of the theme The work is also
distinctive in that it tackles three areas that have been largely ignored in the literature It undertakes a comparative study of
the laws of several Muslim States with respect to religious freedom minorities and the rights of the child The study offers an
optimistic vision of the fundamental compatibility of Islam and international human rights standards
