## **Agnostics Apology 2nd Edition:**

**The Burdens of Perfection** Andrew H. Miller, 2011-08-15 Literary criticism has in recent decades rather fled from discussions of moral psychology and for good reasons too Who would not want to flee the hectoring moralism with which it is so easily associated portentous pious humorless But in protecting us from such fates our flight has had its costs as we have lost the concepts needed to recognize and assess much of what distinguished nineteenth century British literature That literature was inescapably ethical in orientation and to proceed as if it were not ignores a large part of what these texts have to offer and to that degree makes less reasonable the desire to study them rather than other documents from the period or from other periods Such are the intuitions that drive *The Burdens of Perfection* a study of moral perfectionism in nineteenth century British culture Reading the period's essayists Mill Arnold Carlyle poets Browning and Tennyson and especially its novelists Austen Dickens Eliot and James Andrew H Miller provides an extensive response to Stanley Cavell's contribution to ethics and philosophy of mind In the process Miller offers a fresh way to perceive the Victorians and the lingering traces their quests for improvement have left on readers

**Conflict and Crisis in the Religious Life of Late Victorian England** Herbert Schlossberg, 2017-09-08 Contrary to its popular image as dull and stodgy the Victorian period was one of revolutionary change In its politics its art its economic affairs its class relationships and in its religion change was constant A half century after Queen Victoria's death it was said that she was born in one world and died in another The most interesting and valuable studies of the period take the long view as does Schlossberg in his fascinating analysis of religious life in this period For the Victorians religion was not cordoned off from the push and shove of real life The early evangelicals got off to a shaky start beset by hostility but the movement spread within the churches despite the suspicion in which it was held Evangelicals frequently called Puritans by those who opposed them called for fundamental reforms in both the Church and the society a social ethic was part of their program of religious renewal Their moral sense explains the social activism of both Church of England Evangelicals and Dissenters including the half century crusade for the abolition of slavery Schlossberg shows how religion in England dealt with such issues as science and the effect of German scholarship on religious thinking Church history cannot simply be explained by its response to external forces as much as by the internal responses to those challenges The nature of the religious enterprise itself its theologians clergy lay people like all people and all institutions all responded with alternatives Schlossberg helps us understand the Victorian period as well as the increasing secularity of English life today

Cashdollar,2014-07-14 Charles Cashdollar reinterprets nineteenth century British and American Protestant thought by identifying positivism as the central intellectual issue of the era Positivism meant at first the ideas of the French thinker Auguste Comte later in the century the term indicated a more general opposition to supernatural religion Cashdollar shows that contemporary thinkers recognized positivism at each of these stages as the most fundamental of the proliferating challenges to religious belief He further reveals how the encounter with positivism altered Protestant orthodoxy in both subtle and radical ways Positivists denied that humans could know anything other than physical phenomena Declaring many orthodox beliefs archaic they proposed a new ethically based vision of service to humanity After portraying the dissemination of these positions among British and American Protestants the author explains how each of several groups reacted A few theologians rejected positivism outright but many more responded by recasting their own beliefs The implications of this story of change extend to such topics as Darwinism Biblical criticism the rise of the social sciences theological liberalism and the Social Gospel the beginnings of fundamentalism and the twentieth century debate about creationism and science Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     *A History of Atheism in Britain* David Berman,2013-05-02 Probably no doctrine has excited as much horror and abuse as atheism This first history of British atheism first published in 1987 tries to explain this reaction while exhibiting the development of atheism from Hobbes to Russell Although avowed atheism appeared surprisingly late 1782 in Britain there were covert atheists in the middle seventeenth century By tracing its development from so early a date Dr Berman gives an account of an important and fascinating strand of intellectual history     **The Fin-de-Siècle World** Michael Saler,2014-11-20 This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history the Fin de Siècle Featuring contributions from over forty international scholars this book takes a thematic approach to a period of huge upheaval across all walks of life and is truly innovative in examining the Fin de Siècle from a global perspective The volume includes pathbreaking essays on how the period was experienced not only in Europe and North America but also in China Japan the Middle East Latin America Africa India and elsewhere across the globe Thematic topics covered include new concepts of time and space globalization the city and new political movements including nationalism the New Liberalism and
