Agony In The Garden A Stranger In Central America:

Agony in the Garden Edward R. F. Sheehan, 1989 As reporter explorer and above all witness Sheehan makes a profoundly personal report on Central America From President Ortega to American servicemen Central America is a garden where human agony seems to flourish **The causes of continuing conflict in Nicaragua** , **Newsletter** United States. Department of State, 1992 State , 1992 **Intervention Or Neglect** Linda Robinson, 1991 FROST copy 2 From the John Holmes Library collection *An Energy Field More Intense Than War* Michael True, 1995-11-01 American history abounds with a rich tradition of literature dealing with nonviolence In a work that spans from the seventeenth century to the present Michael True brings to light the strong but long neglected strain in American culture nonviolence as an active response to conflicts and divisiveness In identifying writings about action for social change he distinguishes literary works from peace advocacy and nonviolence and relates them to broad currents of United States history The Quakers of the 1680s and abolitionists of the 1850s the sanctuary Movement and Plowshares of the 1980s novelists from Nathaniel Hawthorne to Norman Mailer and poets from Walt Whitman to Denise Levertov all have written powerful works on nonviolent action Through this literature the author explores the beauty of an important theme in American literature At a time when people face widespread injustice True reminds us that nonviolence holds a significant place in our country s history **Unfinished Conquest** Victor Perera, 1995-11-14 Spanning the years of civil war in Guatemala this book portrays an embattled country facing the third cycle of a conquest that began when the conquistadors arrived in the sixteenth century As personal narrative weaves with reportage and oral testimony readers are introduced to the victims champions and villains of a society torn apart by violence and injustice 1994-1995 Brian Hunter, 2021-06-21 No detailed description available for 1994 1995 **The Real Contra War** Timothy Charles Brown, 2001 The Contra War and the Iran Contra affair that shook the Reagan presidency were center stage on the U S political scene for nearly a decade According to most observers the main Contra army or the Fuerza Democrática Nicaragüense FDN was a mercenary force hired by the CIA to oppose the Sandinista socialist revolution The Real Contra War demonstrates that in reality the vast majority of the FDN s combatants were peasants who had the full support of a mass popular movement consisting of the tough independent inhabitants of Nicaragua s central highlands The movement was merely the most recent instance of this peasantry s one thousand year history of resistance to those they saw as would be conquerors The real Contra War struck root in 1979 even before the Sandinistas took power and during the next two years grew swiftly as a reaction both to revolutionary expropriations of small farms and to the physical abuse of all who resisted Only in 1982 did an offer of American arms persuade these highlanders to forge an alliance with former Guardia anti Sandinista exiles those the outside world called Contras Relying on original documents interviews with veterans and other primary sources Brown contradicts conventional wisdom about the Contras debunking most of what has been written about the movement s leaders origins aims and foreign support 1993-1994 Brian Hunter, 2021-06-21 No detailed description

Berger,1995 Examines how North American scholarship on Latin America has tended to support US policy toward that part of the world since the latter part of the nineteenth century This work looks at universities research centers the various branches of the US government and the numerous philanthropic foundations concerned with Latin America **A Little Matter of Genocide** Ward Churchill,1997 Ward Churchill has achieved an unparalleled reputation as a scholar activist and analyst of indigenous issues in North America Here he explores the history of holocaust and denial in this hemisphere beginning with the arrival of Columbus and continuing on into the present He frames the matter by examining both revisionist denial of the nazi perpetrated Holocaust and the opposing claim of its exclusive uniqueness using the full scope of what happened in Europe as a backdrop against which to demonstrate that genocide is precisely what has been and still is carried out against the American Indians Churchill lays bare the means by which many of these realities have remained hidden how public understanding of this most monstrous of crimes has been subverted not only by its perpetrators and their beneficiaries but by the institutions and individuals who perceive advantages in the confusion In particular he outlines the reasons underlying the United States s 40 year refusal to ratify the Genocide Convention as well as the implications of the attempt to exempt itself from compliance when it finally offered its endorsement In conclusion Churchill proposes a more adequate and coherent definition of the crime as a basis for identifying punishing and preventing genocidal practices wherever and whenever they occur Ward Churchill enrolled Keetoowah Cherokee is Professor of American Indian Studies with the Department of Ethnic Studies at the University of Colorado Boulder A member of the American Indian Movement since 1972 he has been a leader of the Colorado chapter for the past fifteen years Among his previous books have been *Fantasies of a Master Race* *Struggle for the Land* *Since Predator Came* and *From a Native Son* *Washington Letter on Latin America* ,1989 *The New York Times Book Review* ,1989-04 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback Yearbook on International Communist Affairs 1990 Richard Felix Staar,1990-08 *Latin America* Juan Manuel Pérez,2004 This is a general bibliography on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified
