Revolution, Reform and Regionalism in Southeast Asia Ronald Bruce St John, 2006-01-16 Based on research carried out over the three decades this book compares the post war political economies of Cambodia Laos and Vietnam in the context of their individual and collective impact on contemporary efforts at regional integration The author highlights the different paths to reform taken by the three neighbours and the effect this has had on regional plans for economic development through the ASEAN and the Greater Mekong Subregion Through its comparative analysis of the reforms implemented by Cambodia Laos and Vietnam over the last thirty years the book draws attention to parallel themes of continuity and change The author discusses how the three states have demonstrated related characteristics whilst at the same time making different modifications in order to exploit the unique strengths of their individual cultures Contributing to the contemporary debate over the role of democratic reform in promoting economic development the book provides a detailed account of the political economies of three states at the heart of Southeast Asia

Political Legitimacy in Southeast Asia Muthiah Alagappa, 1995 Despite the end of the Cold War security continues to be a critical concern of Asian states Allocations of state revenues to the security sector continue to be substantial and have in fact increased in several countries As Asian nations construct a new security architecture for the Asia Pacific region Asian security has received increased attention by the scholarly community But most of that scholarship has focused on specific issues or selected countries This book aims to lay the groundwork for a comprehensive in depth understanding of Asian security by investigating conceptions of security in sixteen Asian countries The book undertakes an ethnographic country by country study of how Asian states conceive of their security For each country it identifies and explains the security concerns and behavior of central decision makers asking who or what is to be protected against what potential threats and how security policies have changed over time This inside out or bottom up approach facilitates both identification of similarities and differences in the security

thinking and practice of Asian countries and exploration of their consequences The crucial insights into the dynamics of international security in the region provided by this approach can form the basis for further inquiry including debates about the future of the region Civil Society in Southeast Asia Lee Hock Guan,2004 What is the relevance of civil society to people empowerment effective governance and deepening democracy This book addresses this question by examining the activities and public participation of non governmental organizations NGOs in the areas of religion ethnicity gender and the environment Examples are taken from Indonesia Malaysia the Philippines Singapore Thailand and Vietnam State regimes attempts to co opt the concept or reject it as alien to Asian values have apparently not turned out as expected This is evident from the fact that many Southeast Asian citizens are inspired by the civil society concept and now engage in public discourse and participation The experience of civil society in Southeast Asia shows that its impact or lack of impact on democratization and democracy depends on a variety of factors not only within civil society itself but also within the state **Routledge**

Library Editions: Revolution in Vietnam Various,2022-07-30 This 7 volume set of previously out of print titles examines both the war for liberation in Vietnam and its political and economic aftermath The economic reforms that began to transform Vietnam from a planned economy to a partially market one are focused on in particular as are the early days of revolutionary conflict **Communities and Forest Management in Southeast Asia** ,1999 **Land Politics and Livelihoods on the Margins of Hanoi, 1920-2010** Danielle Labbé,2013-12-15 In the late 1990s planning authorities in the Vietnamese capital of Hanoi pushed the imaginary line between city and country several kilometres westward engulfing dozens of rural settlements This book explores how one such village Hoa Muc rapidly transitioned into an urban neighbourhood and the state regulations and early urban changes that drove this transformation The compelling story of this single village is both a portrait of a population that has endured despite drastic upheavals and a new analytical window into Vietnam s ongoing urban transition *Communist Agriculture* Karl-Eugen Wädekin,2004-01-14 A fascinating comparative study of how the agricultural experience of the Soviet Bloc has shaped and sometimes hindered development in the rest of the communist world this book examines the agrarian policies of China Mongolia Vietnam and Cuba and provides an account of agricultural development in socialist economies which focuses on both the historical and contemporary aspects of this development Vietnamese State Industry and the Political Economy of Commercial Renaissance Adam Fforde,2007-02-28 This book is based upon extensive and repeated fieldwork close observation and familiarity with institutional detail It traces Vietnam s early attempts to create in State Owned Enterprises SOEs a basis for a military industrial complex and the ways in which these attempts failed which explains the nature of state commercialism through the 1980s and into recent years Since the 1990 breakout to a market economy Vietnam has shown outstanding development success with rapid GDP growth macroeconomic stability swift poverty reduction maintenance of social spending and extensive globalisation Her SOEs have played a major role not only in showing that performance gains in 1989 91 could compensate for loss of the large Soviet bloc

aid program but also as major players in the rapid economic change of the 1990s during which the officially reported state share of GDP remained high. By the middle of the 2000s however a rising private sector was in harness with a large presence of foreign companies sharply increasing pressures upon SOEs. Against this background the book concludes with an assessment of the extent to which Vietnam's commercialised SOEs are now no longer seen as an effective compromise but acting as a major hindrance to Vietnam's development. Historical analysis of the process by which Vietnam's SOEs shifted from central planning to operation in an increasingly globalised market economy. Draws upon regular and repeated fieldwork going back to the late 1970s. Uses a wide range of Vietnamese language and other sources. **Vietnam's Rural**

Transformation Benedict J Tria Kerkvliet, 2018-03-05 Since the mid 1980s Vietnam has experienced remarkable economic, political and social change. This is the first study in English to focus on rural Vietnam where nearly 80 per cent of its people live. Much of its economic production occurs and political upheavals earlier this century changed the course of history. Analyzing the impact of economic liberalization on the countryside the contributors note that despite significant improvements in real income for most rural Vietnamese poverty is still pronounced and socio economic inequality appears to be growing. The poorest now appear to have less access to educational and health services. Environmental conditions also pose significant problems. Highlighting the dynamic political scene in Vietnam the contributors also consider the interplay between national policymaking and local pressures and activity. **Institutions and Economic Change in Southeast Asia**

Colin Barlow, 1999-12-21 This work scrutinizes the role of institutional change with special reference to Southeast Asia. It suggests that the nature of institutional arrangements such as households, community groups, firms and formal governance systems can significantly affect human activity and economic success. Post-Socialist Peasant? D. Kaneff, 2001-12-03

During the past decade life in post socialist states has been fraught with instability and conflict. This book focuses on changing rural urban relations and growing divisions between them in the context of the reforms. Contributions to this volume explore responses to capitalist oriented policies and reasons for rural disenfranchisement. The work takes an ethnographic approach to exploring how global processes engage with local rural concerns in the post socialist world.

Beyond Hanoi Benedict J Tria Kerkvliet, David G Marr, 2004 This is the first book in English to examine local government and authority in Vietnam since the country's reunification in 1975. Six chapters emphasize particular villages and districts in different parts of the country: one examines a ward in Hanoi, another focuses on Ho Chi Minh City and one compares leaders in several provinces. To contextualize conditions today two chapters analyse local government in Vietnam's long history. The opening chapter synthesizes the findings in this book with those in other studies by researchers inside and outside Vietnam.

The Conservation of Key Coastal Wetland Sites in the Red River Delta Jonathan C. Eames, 1996 The End of the Peasantry in Southeast Asia R.E. Elson, 2016-01-13 This book analyses the changing context and conditions of production and livelihood amongst Southeast Asia's peasants since the beginning of the nineteenth century. It argues that with demographic

growth and the nineteenth century development of great global markets based on small scale production the size and economic significance of peasantries throughout the region was magnified However such changes brought with them new forces stronger states more regular legal systems a revolution in communications intensive commercialisation which themselves worked to undermine the foundations of peasant society and eventually to transform peasants into farmers workers and citizens *Reinventing Vietnamese Socialism* William S Turley, Mark Selden, 2019-07-11 This book presents a variety of disciplinary and theoretical perspectives on the problematic of reform in Vietnam It explores the Vietnam s reforms in relation to those taking place in other countries of the socialist world comparing doi moi with restructuring in other socialist states **Saigon's Edge** Erik Harms, 2011 Exploring the places where the rural and urban intersect where many of the world s people live **Encyclopaedia of Southeast Asia: History, society & culture** Brajendra Kumar, 2006
