Agrarian Transition In America:

The Agrarian Transition in America Wayne C. Rohrer, Louis H. Douglas, 1969 *African Land Questions, Agrarian Transitions and the State* Sam Moyo, 2008 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa's development and capital accumulation trajectories especially with regard to the land rights of the continent's poor The study thus questions the capacity of emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa Critical Perspectives on Agrarian Transition B. B. Mohanty, 2016-01-29 This book evaluates the relevance of classical debates on agrarian transition and extends the horizon of contemporary debates in the Indian context linking national trends with regional experiences It identifies new dynamics in agrarian political economy and presents a comprehensive account of diverse aspects of capitalist transition both at theoretical and empirical levels The essays discuss several neglected domains in agricultural economics such as discursive dimensions of agrarian relations and limitations of stereotypical binaries between capital and non capital rural and urban sectors agriculture and industry and accumulation and subsistence With contributions from major scholars in the field this volume will be useful to scholars and researchers of agriculture economics political economy sociology rural development and development studies Agricultural Transition in New York State Donald H. Parkerson, 2002-09 This study of Agricultural Transition in New York State focuses on the transformation of the U S agricultural economy in the middle of the nineteenth century and the its impact on farm families **Agrarian Questions** Henry Bernstein, Tom Brass, 2016-01-20 This collection celebrates T J Byres seminal contributions to the political economy of the agrarian question Uniting the various themes is the demonstration of the continuing relevance of a critical historical and comparative materialist analysis of agrarian question **The Agrarian Transition in Advanced Capitalist Social Formations** Pierre Marc LaRamée, 1989 **The End of American Exceptionalism** David M. Wrobel, 1993 A lucid and rewarding synthesis of cultural and western history Richard W Etulain author of *Writing Western History* Wrobel makes a fine contribution to the study of myth by analyzing the anxiety or angst Americans felt about the frontier in the half century after 1890 This is an excellent book on a

big subject executed with much skill Western Historical Quarterly Direct admirably brief and crisply written Journal of American History **Latin American Peasants** Tom Brass,2004-08-02 The essays in this collection examine agrarian transformation in Latin America and the role in this of peasants with particular reference to Bolivia Peru Chile Brazil and Central America Among the issues covered are the impact of globalization and neo liberal economic policies

Environment and Development in Latin America David Goodman,M. R. Redclift,1991 An examination of how Latin America originally viewed by outsiders as a storehouse of natural resources which could be translated into wealth was not sustained in developmental terms in the colonial period Her ambivalent relationship with the developed world is analyzed to the present day *A Companion to American Agricultural History* R. Douglas Hurt,2022-06-08 Provides a solid foundation for understanding American agricultural history and offers new directions for research A Companion to American Agricultural History addresses the key aspects of America s complex agricultural past from 8 000 BCE to the first decades of the twenty first century Bringing together more than thirty original essays by both established and emerging scholars this innovative volume presents a succinct and accessible overview of American agricultural history while delivering a state of the art assessment of modern scholarship on a diversity of subjects themes and issues The essays provide readers with starting points for their exploration of American agricultural history whether in general or in regards to a specific topic and highlights the many ways the agricultural history of America is of integral importance to the wider American experience Individual essays trace the origin and development of agricultural politics and policies examine changes in science technology and government regulations offer analytical suggestions for new research areas discuss matters of ethnicity and gender in American agriculture and more This Companion Introduces readers to a uniquely wide range of topics within the study of American agricultural history Provides a narrative summary and a critical examination of field defining works Introduces specific topics within American agricultural history such as agrarian reform agribusiness and agricultural power and production Discusses the impacts of American agriculture on different groups including Native Americans African Americans and European Asian and Latinx immigrants Views the agricultural history of America through new interdisciplinary lenses of race class and the environment Explores depictions of American agriculture in film popular music literature and art A Companion to American Agricultural History is an essential resource for introductory students and general readers seeking a concise overview of the subject and for graduate students and scholars wanting to learn about a particular aspect of American agricultural history **Agrarian Policies in Central America** W. Pelupessy,R. Ruben,1999-12-13

Macroeconomic adjustment and sectoral reforms have strongly modified the framework for rural development in Central America This book offers a structural analysis of agrarian policies in Central America and their impact on production conditions and farmers welfare **The New American Farmer** Laura-Anne Minkoff-Zern,2019-11-12 An examination of Latino a immigrant farmers as they transition from farmworkers to farm owners that offers a new perspective on racial

inequity and sustainable farming Although the majority of farms in the United States have US born owners who identify as white a growing number of new farmers are immigrants many of them from Mexico who originally came to the United States looking for work in agriculture In *The New American Farmer* Laura Anne Minkoff Zern explores the experiences of Latino immigrant farmers as they transition from farmworkers to farm owners offering a new perspective on racial inequity and sustainable farming She finds that many of these new farmers rely on farming practices from their home countries including growing multiple crops simultaneously using integrated pest management maintaining small scale production and employing family labor most of which are considered alternative farming techniques in the United States Drawing on extensive interviews with farmers and organizers Minkoff Zern describes the social economic and political barriers immigrant farmers must overcome from navigating USDA bureaucracy to racialized exclusion from opportunities She discusses among other topics the history of discrimination against farm laborers in the United States the invisibility of Latino farmers to government and universities new farmers sense of agrarian and racial identity and the future of the agrarian class system Minkoff Zern argues that immigrant farmers with their knowledge and experience of alternative farming practices are despite a range of challenges actively and substantially contributing to the movement for an ecological and sustainable food system Scholars and food activists should take notice *The Economics of American Agriculture* Steven C.

Blank, 2014-12-18 This book answers the questions What is happening to American agriculture and why Steven C Blank uses portfolio theory to analyze both macro and microeconomic data that paints a clear picture of the trends in agriculture and explains why these trends are consistent with market evolution and global economic development He clarifies agriculture's specific role in economic development with a focus on the current and future globalizing commodity markets The book features empirical research that demonstrates the link between farm level investment decisions and regional and national economic trends It shows how the dynamic environment of industrialization and globalization of agriculture is part of a continuing development that is driven by technological innovation This all points to a future with a very different agricultural production sector and some extremely important policy choices that will face the entire country [Latin America's](#)

[Turbulent Transitions](#) Roger Burbach, Michael Fox, Federico Fuentes, 2013-02-14 Over the past few years something remarkable has occurred in Latin America For the first time since the Sandinista Revolution in Nicaragua in the 1980s people within the region have turned toward radical left governments specifically in Venezuela Bolivia and Ecuador Why has this profound shift taken place and how does this new so called Twenty First Century Socialism actually manifest itself What are we to make of the often fraught relationship between the social movements and governments in these countries and do in fact the latter even qualify as socialist in reality These are the bold and critical questions that *Latin America's Turbulent Transitions* explores The authors provocatively argue that although US hegemony in the region is on the wane the traditional socialist project is also declining and something new is emerging Going beyond simple conceptions of the left the book

reveals the true underpinnings of this powerful transformative and yet also complicated and contradictory process

Welfare, Poverty and Development in Latin America Christopher Abel, Colin M. Lewis, 2015-12-30 The book analyzes the social consequences of recent development strategies in Latin America The volume introduces readers to official strategies private initiatives and individual responses to issues of welfare and poverty during the twentieth century These issues are addressed from several disciplines A substantial introduction is followed by a wide range of case studies including Pinochet s Chile the Haiti of the Duvaliers and Nicaragua under the somocistas and sandinistas as well as Brazil Mexico the Argentine Cuba and Colombia *Handbook of Critical Agrarian Studies* Akram-Lodhi, A. H., Dietz, Kristina, Engels, Bettina, McKay, Ben M., 2021-12-14 Exploring the emerging and vibrant field of critical agrarian studies this comprehensive Handbook offers interdisciplinary insights from both leading scholars and activists to understand agrarian life livelihoods formations and processes of change It highlights the development of the field which is characterized by theoretical and methodological pluralism and innovation *Global Perspectives on Industrial Transformation in the American South* Michele Gillespie, 2005 Covering the late colonial age to World War I and beyond this collection of essays places the economic history of the American South in an international light by establishing useful comparisons with the larger Atlantic and world economy In an attempt to dispel long lasting myths about the South the essays analyze the economic evolution of the South since the slave era From this perspective the conception of a backward wholly agricultural antebellum South occupied only by wealthy planters poor whites and contented slaves has finally given way to one of economic and social dynamism as well as regional prosperity In a coherent and cohesive progression of subjects these essays show that the South had been deeply enmeshed in the Atlantic economy since the colonial period and after the Civil War retained distinctive needs that caused increasing departure from the course northerners adopted on matters of political economy This comparative approach also helps explain the motivations behind the political choices made by the South as an eminently export oriented region This book shows that the South was not slower to develop with respect to industrialization than either the majority of the northern states especially in the West or the countries of Western Europe In fact the apparently disappointing performance of the New South s economy appears to be the result of more pervasive and largely uncontrollable trends that affected the national as well as the international economy *Global Perspectives on Industrial Transformation in the American South* makes an important contribution to the economic history of the South and to recent efforts to place American history in a more international context **Three Frontiers** Dean L. May, 1997-04-28 This book studies how in the Far West Americans moved from communal values to individualistic and exploitative ones **The Oxford Handbook of the Archaeology of Diet** Julia Lee-Thorp, M. Anne Katzenberg, 2024-06-24 Humans are unique among animals for the wide diversity of foods and food preparation techniques that are intertwined with regional cultural distinctions around the world The Oxford Handbook of the Archaeology of Diet explores evidence for human diet from our earliest ancestors

through the dispersal of our species across the globe As populations expanded people encountered new plants and animals and learned how to exploit them for food and other resources Today globalization aside the results manifest in a wide array of traditional cuisines based on locally available indigenous and domesticated plants and animals How did this complexity emerge When did early hominins actively incorporate animal foods into their diets and later exploit marine and freshwater resources What were the effects of reliance on domesticated grains such as maize and rice on past populations and the health of individuals How did a domesticated plant like maize move from its place of origin to the northernmost regions where it can be grown Importantly how do we discover this information and what can be deduced about human health biology and cultural practices in the past and present Such questions are explored in thirty three chapters written by leading researchers in the study of human dietary adaptations The approaches encompass everything from information gleaned from comparisons with our nearest primate relatives tools used in procuring and preparing foods skeletal remains chemical or genetic indicators of diet and genetic variation and modern or historical ethnographic observations Examples are drawn from across the globe and information on the research methods used is embedded within each chapter The Handbook provides a comprehensive reference work for advanced undergraduate and graduate students and for professionals seeking

authoritative essays on specific topics about diet in the human past **The Nature of the Future** Emily Pawley, 2022-06-07

In the seemingly mundane Northern farm of early America and the people who sought to improve its productivity and efficiency Emily Pawley finds a world rich with innovative practices and marked by a developing interrelationship between scientific knowledge industrial methods and capitalism Agricultural improvers became increasingly scientific driving tremendous increases in the range and volume of agricultural output and transforming American conceptions of expertise success and exploitation Pawley s focus on soil fertilizer apples mulberries agricultural fairs and experimental stations shows each nominally dull subject to have been an area of intellectual ferment and sharp contestation mercantile epistemological and otherwise
