Eastman,2020-03-17 An in depth investigation of selected aspects of Chinese history during the Nanking Decade illuminating the forces that prevented the re creation of national unity and vitality under Chiang Kai shek and the Kuomintang nationalists **Peasant Wars of the Twentieth Century** Eric R. Wolf,1999 Peasant Wars of the Twentieth Century provides a good short course in the major popular revolutions of our century in Russia Mexico China Algeria Cuba and Viet Nam not from the perspective of governments or parties or leaders but from the perspective of the peasant peoples whose lives and ways of living were destroyed by the depredations of the imperial powers including American imperial power New York Times Book Review Eric Wolf s study of the six great peasant based revolutions of the century demonstrates a mastery of his field and the methods required to negotiate it that evokes respect and admiration In six crisp essays and a brilliant conclusion he extends our understanding of the nature of peasant reactions to social change appreciably by his skill in isolating and analyzing those factors which by a magnification of the anthropologist s techniques can be shown to be crucial in linking local grievances and protest to larger movements of political transformation American Political Science Review An intellectual tour de force Comparative Politics *Chinese Local Elites and Patterns of Dominance* Joseph W. Esherick,Mary Backus Rankin,2024-06-04 This important volume affords a panoramic view of local elites during the dramatic changes of late imperial and Republic China Eleven specialists present fresh detailed studies of subjects ranging from cultivated upper gentry to twentieth century militarists from wealthy urban merchants to village leaders In the introduction and conclusion the editors reassess the pioneering gentry studies of the 1960s draw comparisons to elites in Europe and suggest new ways of looking at the top people in Chinese local social systems *Chinese Local Elites and Patterns of Dominance* lays the foundation for future discussions of Chinese elites and provides a solid introduction for non specialists Essays are by Stephen

C Averill Lenore Barkan Lynda S Bell Timothy Brook Prasenjit Duara Edward A McCord William T Rowe Keith Schoppa David Strand Rubie S Watson and Madeleine Zelin This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **The Statesman's Year-Book** Mortimer Epstein, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world

Bandits in Republican China Phil Billingsley, 1988 A study of banditry in Republican China describing the cycles whereby banditry spread from the impoverished margins geographically and socially of late Qing society into entire provinces by the 1920s **The Statesman's Year-Book** M. Epstein, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world **Yoritomo and the Founding of the First Bakufu** Jeffrey P. Mass, 2000-01-01 This book is a much expanded and wholly rewritten treatment of the subject of the author's first book Warrior Government in Early Medieval Japan published in 1974 In this new version the warrior and medieval character of Japan's first shogunate is significantly de-emphasized thus requiring not only a new title but also a new book The author's new view of the final decades of twelfth century Japan is one of a less revolutionary set of experiences and a smaller achievement overall than previously thought The pivotal figure Minamoto Yoritomo retains his dominant role in establishing the dual polity of Court and Bakufu but his successes are now explained in terms of more limited objectives A new regime was fit into an environment that was still basically healthy and vibrant leading not to the substitution of one government for another but rather to the emergence of a new authority that would have to interact with the old The book aims to present a dual perspective on the period by juxtaposing what we know against our best possible estimate of what Yoritomo himself knew It is deeply concerned with the multiple balancing acts introduced by this ever nimble experimenter in governing who was forever seeking to determine and then to promote what would work while curtailing or eliminating what would not The author seeks to recreate step by step the movement from one historical juncture to another whether this means adapting already available information building anew or working with combinations of materials Throughout the book addresses new topics and offers many new interpretations on subjects as wide ranging as the 1189 military campaign in the north and the phenomenon of delegated authority **Smokeless Sugar** Emily M. Hill, 2010 Part history part biography and part mystery story Smokeless Sugar reveals how the concept of a national economy took shape in China by investigating the 1936 execution of Feng Rui a provincial official who introduced modern sugar milling in Guangdong Examining the circumstances of Feng Rui's arrest on charges of corruption Emily Hill traces the construction of a Chinese national economy through cross border interactions between industry and agriculture and between China and Japan She makes the case that Feng was in fact a scapegoat in a multi-sided power struggle in which political leaders vied with commercial players for access to China's

markets and tax revenues This illuminating study challenges conventional wisdom about the effectiveness of the Republican state in promoting national unity during the Nanjing decade and highlights continuities in official economic policies from the 1930s to the Communist era The Political Economy of Underdevelopment Amiya Kumar Bagchi, 1982-03-31 An overview of third world problems making use of Marxist and neo Keynesian methods of analysis *The Statesman's Year-Book* S. Steinberg, 2016-12-29 The classic reference work that provides annually updated information on the countries of the world **The Political Economy of Rural Poverty** M. Riad El-Ghonemy, 2006-05-10 With the use of wide ranging case studies the author clearly illustrates the impact of schemes intended to re allocate land in developing countries Concluding that land reform can play a major part in stimulating rural economies this book explores the extent to which such policies can successfully reduce poverty and increase agricultural growth *Agricultural Economics Literature* , 1941
Agricultural Economics Literature United States. Bureau of Agricultural Economics. Library, 1939 **One Industry, Two Chinas** Lynda S. Bell, 1999-09-01 This book reopens and restructures the grand debate on the nature of economic development in China prior to the Communist revolution It rejects the debate's old contours in which quantitative data were used to argue that the trajectory of Chinese development was either positive or negative Instead the author combines quantitative analysis with a detailed study of local politics culture and gender to explain the shaping of the modern Chinese economy Focusing on silk production in Wuxi county in the Yangzi Delta the author argues that local elites used social dominance to build a silk industry continuum one industry fusing modern factory production with older patterns of peasant family farming The resulting social configuration was two Chinas one populated by wealthy urban elites transformed into a new silk industry bourgeoisie and the other by peasant families whose women became the workforce for cocoon production The author describes the roles of merchant guilds and other elite organizations established to protect the silk industry from outside competition and excessive taxation the methods and styles of elite networking and investment in building modern silk filatures and the roles of women elite women in sericulture reform and peasant women in silkworm raising She also reveals the cooperation between silk industry elites and Nationalist government officials in the 1920 s and 1930 s which resulted in an industry that was virtually state directed and designed to pass downward to the peasants the costs of building more competitive silk filatures This discovery challenges the prevailing tendency to think in terms of radical ruptures between Nationalist and Communist rule
