Aid And The Political Economy Of Policy Change:

Aid and the Political Economy of Policy Change Tony Killick, Ramani Gunatilaka, Ana Marr, 1998 Confronts the theory of conditionality with its limitations in practice analyses the reasons for these limitations and suggests constructive alternatives

The Political Economy of Fiscal Reform in Central-Eastern Europe Frank Bönker, 2006-01-01 Frank Bönker has done a masterful job This is probably the best book available on this important subject and its significance is not limited to studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform perspective within the field of comparative political economy John L Campbell Slavic Review

The Political Economy of Reform Failure Mats Lundahl, 2007-04-11 Economists have moved in recent years beyond analyzing the manner in which the macroeconomies of different countries function and prescribing appropriate policies for dealing with domestic and external imbalances Increasingly they have sought to understand the complex interaction between political and economic phenomena This book considers issues of economic reform in a broad range of settings developed countries transition countries developing countries Using country specific cases such as Uzbekistan Burma and Haiti it focuses on those territories which have encountered problems reforming allowing the reader to gain an accurate understanding of the factors that inhibit the success of economic reform the different context in which economic reform is attempted and the different challenges that individual countries face An international team of contributors including Bo Sdersten Deepak Lal and Ron Findlay have been brought together to analyze these topical issues making this an informative and thought provoking book of interest to those involved in the field of development studies

The Political Economy of Bank Regulation in Developing Countries Emily Jones, 2020 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations International banking standards are intended for the regulation of large complex risk taking international banks with trillions of dollars in assets and operations across the globe Yet they are being implemented in countries with nascent financial markets and small banks that have yet to venture into international markets Why is this This book develops a new framework to explain regulatory interdependence between countries in the core and the periphery of the global financial system Drawing on in depth analysis of eleven countries across Africa Asia and Latin America it shows how financial globalisation generates strong reputational and competitive incentives for developing countries to converge on international standards It explains how specific cross border relations between regulators politicians and banks within developing countries and international actors including investors peer regulators and international financial institutions generate regulatory interdependence It explains why some configurations of domestic politics and forms of integration into global finance generate convergence with international standards while other configurations lead to divergence This book contributes to our understanding of the ways in which governments and firms in the core of global finance powerfully shape

regulatory decisions in the periphery and the ways that governments and firms from peripheral developing countries manoeuvre within the constraints and opportunities created by financial globalisation

Aid to Africa Carol Lancaster, 1999-04-15 5 The United States

Programme Aid and Development Geske Dijkstra, Howard White, 2013-09-05 This important contribution to the literature on development economics analyses the effectiveness of programme aid i.e. aid that is not given in the form of projects Using real world examples from countries such as Nicaragua Tanzania and Vietnam this book deals with one of the core issues in development economics today

Foreign operations, export financing, and related programs appropriations for 1991 United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 1990

African Economies and the Politics of Permanent Crisis, 1979-1999 Nicolas Van de Walle, 2001-09-24 This 2001 book explains why African countries have remained mired in a disastrous economic crisis since the late 1970s It shows that dynamics internal to African state structures largely explain this failure to overcome economic difficulties rather than external pressures on these same structures as is often argued Far from being prevented from undertaking reforms by societal interest and pressure groups clientelism within the state elite ideological factors and low state capacity have resulted in some limited reform but much prevarication and manipulation of the reform process by governments which do not really believe that reform will be effective which often oppose reforms because they would undercut the patronage and rent seeking practices which undergird political authority and which lack the administrative and technical capacity to implement much reform Over time state decay has increased

Conditionality Revisited Stefan Koeberle, 2005-01-01 Annotation This book brings together different perspectives on the role of conditionality drawing on the experiences and lessons learned by the donor community NGO critics and academic circles and the borrowing countries and provides a board overview of contemporary approaches to conditionality in today's aid architecture

Handbook of Aid and Development Raj M. Desai, Shantayanan Devarajan, Jennifer L. Tobin, 2024-06-05 With intellectual rigour the Handbook of Aid and Development not only critically examines the relationship between aid and development but also discusses recent trends within the field and judiciously considers its future prospects

Problem-Driven Political Economy Analysis Verena Fritz, Brian Levy, Rachel Ort, 2014-01-13 This volume presents eight good practice examples of problem driven political economy analysis conducted at the World Bank and reflect what the Bank has so far been able to achieve in mainstreaming this approach into its operations and policy dialogue

The Law of Development Cooperation Philipp Dann, 2013-11-07 This comparative study of rules governing development assistance asks how accountability human rights and sovereignty are preserved while combating poverty

40 Years of Research on Rent Seeking 2 Roger D. Congleton, Arye L. Hillman, Kai A. Konrad, 2008-08-01 The last survey of the rent seeking literature took place more than a decade ago Since that time a great deal of new research has been published in a wide variety of journals covering a wide variety of topics The scope of that research is such that very few researchers will

be familiar with more than a small part of contemporary research and very few libraries will be able to provide access to the full breadth of that research This two volume collection provides an extensive overview of 40 years of rent seeking research The volumes include the foundational papers many of which have not been in print for two decades They include recent game theoretic analyses of rent seeking contests and also applications of the rent seeking concepts and methodology to economic regulation international trade policy economic history political competition and other social phenomena The new collection is more than twice as large as any previous collection and both updates and extends the earlier surveys Volume I contains previously published research on the theory of rent seeking contests which is an important strand of contemporary game theory Volume II contains previously published research that uses the theory of rent seeking to analyze a broad range of public policy and social science topics The editors spent more than a year assembling possible papers and although the selections fill two large volumes many more papers could have been included

International Political Economy Kendall W. Stiles, Tsuneo Akaha, 1991

Handbook of Global Economic Governance Manuela Moschella, Catherine Weaver, 2013-12-17 Since the summer of 2007 the world scenario has been dominated by the US sub prime mortgage crisis and its repercussions on global financial markets and economic growth As banks around the world wrote down their losses and governments intervened to rescue domestic financial institutions financial distress severely hit the real economy leading to what has been widely defined as the worst recession since the 1930s Under these conditions along with the immediate concern for stemming the effects of the crisis policy makers around the world have been debating the long term measures that have to be adopted in order to reduce the likelihood of future crises and to ensure stable economic growth Although this debate has not yet produced significant transformations it indicates a renewed concern about the institutional architecture that is meant to govern the global economic and financial system This book tackles the issue of what the governance of the global economic and financial system looks like and what the prospects for its reform are Specifically the book will address the following three main themes Governance What is governance in the international economic system What forms does it take How did it come about How can we study it Functions of governance What are the functions of global economic governance Who performs them What are the rules and mechanisms that make global governance possible Problems and prospects of governance What are the problems in global economic governance Is there a trade off between legitimacy and efficiency What are the prospects for reform of global economic governance in the aftermath of the global financial crisis This book will _ Provide a thorough analysis of the issues at stake in designing international rules and institutions able to govern the global economy _ Illustrate and analyze virtually all the main institutions rules and arrangements that make up global economic governance inscribing them within the function these institutions rules and arrangements are meant to perform _ Discuss the problems that affect today's global economic governance and assess alternative proposals to reform the international financial architecture

New Perspectives on Foreign Aid and Economic Development B. Mak

Arvin,2002-05-30 The success or failure of economic assistance programs is a shared responsibility of recipient countries and donors The negative attitude about aid prevalent today underscores a perception the aid has failed Critics often blame corrupt regimes weak governments or poor economic policies However the poor track record of aid is also due to donors inability to allocate limited funds effectively and poor coordination of their aid efforts Declining aid budgets have led to fundamental questioning of foreign aid s allocation and utility while the apparent ineffectiveness of aid has shrunk aid budgets and turned public opinion against providing it This edited collection containing pieces written by leading development specialists evaluates these emerging questions of allocation and efficiency Development economists policy makers and development specialists will benefit from reading this work Chapters examine the optimal and intertemporal allocation of aid the role and accountability of NGOs in allocation the importance of untying a new perspective on low levels of aid and links between the allocation pattern of donors Additional chapters deal with the impact of aid on economic growth democracy wage inequality between skilled and unskilled labor and the role of governance and institutional capacity in aid effectiveness An effective balance between theoretical and empirical models is offered to better illustrate the issues involved
