Aircraft Carrier Story 1908 1945:

The Aircraft Carrier Story Guy Robbins, 2001 The beginnings of the aircraft carrier were difficult Guy Robbins detailed history tells of the early days in World War I when seaplanes had to be lowered from the ship to take off from the sea and winched aboard again on their return These impracticalities led eventually to aircraft that could take off and land from a long flat deck The author examines Royal Navy American and Japanese progress in carrier development and strategy through the interwar years showing how naval powers gradually shifted their thinking to favour the carrier Together with sharply reported accounts of wartime engagements both successes and failures this book offers a valuable account of the most significant weapons platform to have emerged in the mid 20th century

The Eastern Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942 1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web

it possessed a fantastically effective naval aviation force This book covers the design development and operation of IJN aircraft carriers built prior to and during World War II Pearl Harbor Midway and the first carrier vs carrier battle the battle of the Coral Sea are all discussed **Spyhunter** Michael Shrimpton LLB,2025-08-29 Spyhunter is the only published history of the Deutscherverteidigungsdienst DVD the covert agency set up by Admiral Wilhelm Canaris in 1943 after German defeats in the Battles of the Atlantic and the Kursk Salient Canaris and the Gestapo chief Muller faked their deaths in 1945 The world's most powerful intelligence agency the DVD went on to control the UN assassinate President Kennedy and install its man Saddam Hussein in Iraq Part 1 explains how Michael came to be involved at a high level in the secretive world of intelligence Part 2 is a history of German intelligence prior to 1945 including the shootdown and murder of Amelia Earhart and Part 3 covers the DVD itself The book probably features in the libraries of most intelligence agencies The postwar world cannot be explained without understanding the DVD **Flying to Victory** Mike Bechthold,2017-04-06 Canadian born flying ace

Raymond Collishaw 1893 1976 served in Britain's air forces for twenty eight years As a pilot in World War I he was credited with sixty one confirmed kills on the Western Front When World War II began in 1939 Air Commodore Collishaw commanded a Royal Air Force group in Egypt It was in Egypt and Libya in 1940 41 during the Britain's Western Desert campaign that he demonstrated the tenets of an effective air ground cooperation system Flying to Victory examines Raymond Collishaw's contribution to the British system of tactical air support a pattern of operations that eventually became standard in the Allied air forces and proved to be a key factor in the Allied victory The British Army and Royal Air Force entered the war with conflicting views on the issue of air support that hindered the success of early operations It was only after the chastening failure of Operation Battleaxe in June 1941 fought according to army doctrine that Winston Churchill shifted strategy on the direction of future air campaigns ultimately endorsing the RAF's view of mission and target selection This view adopted principles of air ground cooperation that Collishaw had demonstrated in combat Author Mike Bechthold traces the emergence of this strategy in the RAF air campaign in Operation Compass the first British offensive in the Western Desert in which Air Commodore Collishaw's small force overwhelmed its Italian counterpart and disrupted enemy logistics Flying to Victory details the experiences that prepared Collishaw so well for this campaign and that taught him much about the application of air power especially how to work effectively with the army and Royal Navy As Bechthold shows these lessons learned altered the Allied approach to tactical air support and ultimately changed the course of the Second World War

Sumatra 1944-45 Angus Konstam,2024-10-22 The first history of how the aircraft of the British Pacific Fleet shattered Japanese oilfields in Sumatra starving Japan of oil and proving how Anglo American navies could fight together With the war in Europe in its final stages by 1944 the Royal Navy was able to put together a major force to join the campaign against Japan The British Pacific Fleet was arguably the most powerful fleet the Royal Navy has ever sent into action In this book renowned naval historian Angus Konstam explores how the first target of British naval power in the Pacific would be the strategically

vital oil fields in Japanese occupied Sumatra part of the Dutch East Indies Between April 1944 and January 1945 the task force struck oil fields and production centres Japanese airfields naval facilities and troop concentrations Initially working alongside US Navy carriers and learning their ruthlessly effective fast carrier doctrine the British would end the Sumatra campaign with a powerful fleet of ten carriers of their own Packed with dramatic artwork maps 3D diagrams and archive photos this is the first history of the Sumatra raids a prime example of how naval air power could achieve key strategic ends They also proved that the Allied navies could fight successfully alongside one another paving the way for the BPF's participation in the capture of Okinawa

US Cold War Aircraft Carriers Brad Elward, 2014-03-20 The Forrestal class Forrestal Saratoga Ranger and Independence was the first completed class of US Navy supercarriers so named for their 25 percent size increase over the World War II era carriers such as the Midway class and the strength of their air wings 80 100 aircraft compared to 65 75 for the Midway and fewer than 50 for the Essex class Design wise the Forrestals were a huge improvement over their predecessors being more stable and comfortable while maintaining advancements such as the armored flight decks that had been introduced with the Midway The Kitty Hawk class was an improvement on the Forrestal class designs and four were built in the 1960s Kitty Hawk Constellation America and John F Kennedy These were even longer than the Forrestals and fitted with advanced defensive weapons systems and an improved elevator layout All nine of the carriers covered by this volume are icons and hold a much respected place in US naval history They are also some of the more well known vessels outside of the military for their long service histories as well as for some of the more unfortunate events that seem to follow them

The Convoy Angus Konstam, 2023-10-24 The

Convoy represents a fresh approach to the story of the Battle of the Atlantic. It is also the first to deal with the more spectacular story of HG 76, a major turning point in the naval war. HG 76 sailed from Gibraltar to Britain in December 1941 and was specially targeted by the Germans. A wolfpack of U-boats was sent against it, and the Luftwaffe was heavily committed too, in a rare example of German inter-service cooperation. German intelligence agents in Gibraltar and Spain also knew every detail of HG 76 before it had even sailed, seemingly stacking the odds in favour of the Kriegsmarine. Despite this, the convoy fought its way through. Improved radar and sonar gave the convoy's escorts a slight edge over their opponents, while the escort group was led by Commander Walker, an anti-submarine expert who had developed new aggressive U-boat hunting tactics. Previous Gibraltar convoys had been mauled by Luftwaffe bombers operating from French airfields. This time, though, HG 76 would be accompanied by HMS Audacity, the Royal Navy's first escort carrier, a new type of warship purpose-built to defend convoys from enemy aircraft and U-boats. Following seven days and nights of relentless attack, the horrors of which are brought home through a series of first-hand accounts, the convoy finally reached the safety of a British port, for the loss of only two merchant ships. Its arrival was seen as the first real convoy victory of the war. Brought to life by expert naval historian Angus Konstam, *The Convoy* combines the story of the technical and tactical developments that won the Battle of the Atlantic for the Allies, along with a narrative that reveals both the terror and the stubborn determination that defined the experiences of those that served on convoy duties.

Early Naval Air Power Dennis Haslop, 2018-01-03 This book examines the British and German approach to naval air power, describing the creation and development of the two naval air service organizations and doctrine. This work provides new insights as to how two naval air services were influenced by internal and political interventions and how each was integrated into the organizational structures of the Royal Navy and the Kaiserliche Marine (KM). Both the Admiralty and the KM made substantial alterations to their organizations and doctrine in the process. Principal air doctrines employed are examined chronologically, and the application of operational doctrine is described. While they adopted similar air doctrines, there were differences in operational doctrine which they addressed according to their different requirements. This book is a comparative study about the development of organization and air power doctrine in the RNAS (Royal Naval Air Service) and the IGNAS (Imperial German Naval Air Service). It investigates public and political interventions and early concepts of air power, placing into context the factors which contributed to how naval theorists came to think about the best means of controlling its working medium, air space. Ultimately, it examines the similarities and differences between the RNAS and IGNAS understanding of naval air power within the broader strategic and theoretical framework of their parent organizations. This book will be of great interest to students of air power, naval power, military history, strategic studies, and IR in general.

The Imperial Japanese Navy in the Pacific War Mark Stille, 2014-11-20 A highly illustrated examination of the key ships, tactics, and operations of the Imperial Japanese Navy in the War in the Pacific in World War II. The Imperial Japanese Navy (IJN) was the third most powerful navy in the world at the start of World

War II and came to dominate the Pacific in the early months of the war This was a remarkable turnaround for a navy that only began to modernize in 1868 although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose Bringing together for the first time material previously published in Osprey series books and with the addition of new writing making use of the most recent research this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed how they were armed when and where they were deployed and how effective they were in battle The Imperial Japanese Navy in the Pacific War provides a history of the IJN s deployment and engagements analysis of the evolution of strategy and tactics and finally addresses the question of whether it truly was a modern navy fully prepared for the rigors of combat in the Pacific Illustrated throughout with photographs and detailed colour artworks this is a valuable reference source for Pacific War enthusiasts and historians alike

British Aircraft Carriers 1939-45 Angus Konstam,2012-12-20 With war against Germany looming Britain pushed forward its carrier program in the late 1930s In 1938 the Royal Navy launched the HMS Ark Royal its first ever purpose built aircraft carrier This was quickly followed by others including the highly successful Illustrious class Smaller and tougher than their American cousins the British carriers were designed to fight in the tight confines of the North Sea and the Mediterranean Over the next six years these carriers battled the Axis powers in every theatre attacking Italian naval bases hunting the Bismark and even joining the fight in the Pacific This book tells the story of the small but resilient carriers and the crucial role they played in the British war effort
