Basic Business Statistics Robert A. Stine, Dean P. Foster, Richard P. Waterman, 2013-03-14

Basic Business Statistics Dean P. Foster, Robert A. Stine, Richard P. Waterman, 2001-06-27 Preface Statistics is seldom the most eagerly anticipated course of a business student It typically has the reputation of being a boring complicated and confusing mix of mathematical formulas and computers Our goal in writing this casebook and the companion volume Business Analysis Using Regression was to change that impression by showing how statistics yields insights and answers interesting business questions Rather than dwell on underlying formulas we show how to use statistics to answer questions Each case study begins with a business question and concludes with an answer to that question Formulas appear only as needed to address the questions and we focus on the insights into the problem provided by the mathematics The mathematics serves a purpose The material in this casebook is organized into 11 classes of related case studies that develop a single key idea of statistics The analysis of data using statistics is seldom very straightforward and each analysis has many nuances Part of the appeal of statistics is this richness this blending of substantive theories and mathematics For newcomers however this blend is too rich and they are easily overwhelmed and unable to sort out the important ideas from nuances Although later cases in these notes suggest this complexity we do not begin that way

Basic Business Statistics Mark L. Berenson, David M. Levine, Kathryn A. Szabat, Martin O'Brien, Judith Watson, Nicola Jayne, 2015-09-18 Student friendly stats Berenson's clear and consistent explanations of how and why accepted statistical techniques are used and fresh conversational writing style helps students with their comprehension of the concepts Explore the interactive brochure Berenson's real world business focus takes students beyond the pure theory by connecting statistical concepts to functional areas of business through engaging examples Examples of real people working in real business environments using statistics to tackle real business challenges bring the subject to life Pearson recommends including the latest version of MyMathLab for Basic Business Statistics 4th edition with purchase This effective online learning system helps educators to help students both inside and outside the
