**Health Care Systems Around the World** Sarah E. Boslaugh, 2013-06-24 This concise reference provides a one stop point of research that examines major aspects of health care systems for over 190 countries worldwide In a consistent format ten major health care categories are systematically examined for each country 1 Emergency Health Services 2 Costs of Hospitalization 3 Costs of Drugs 4 Major Health Issues 5 Government Role in Health Care 6 Insurance 7 Access to Health Care 8 Health Care Facilities 9 Health Care Personnel doctor level of training etc and 10 Public Health Programs The volume is organized in alphabetical order of country names Each country is presented on a two or three page spread with the same descriptive and statistical content allowing readers to compare health care systems from country to country For example a reader may compare costs of drugs in France versus the United States versus Canada Each country spread will feature short entries on the ten health care categories accompanied by charts table and photos as appropriate The work culminates as a unique and essential resource for pre med and medical students as well as researchers in sociology economics and the health management fields

Learner-Centred Education for Adult Migrants in Europe, 2021-04-12 Learner Centred Education for Adult Migrants in Europe A Critical Comparative Analysis contributes to the field of Adult Education by investigating the ways in which Learner Centred Education LCE is being enacted implemented or neglected in specific settings The book addresses the lack of research on how LCE is used in adult education as a tool for social change across different national contexts This comparative approach is crucial for exploring the complex global regional national and local dynamics that account for varying implementations or non implementations of LCE in different settings for appreciating the thin or wide differences in practices of implementation and for assessing the successes failures and needs for improvement of diverse LCE programmes The book's primary focus on

migration as a social process and migrants as active citizens is useful in unravelling the convergences and divergences of different national and urban settings where migrant adult learners live as citizens or as non citizens and how this intersects with their experiences as learners This research is contextualised in a larger political context What emerges from the parting reflection is a European scenario marked by ambivalent and contradictory relations with migrants and an educational intervention that is located somewhere between the assimilationist integrationist dialectic The four cases presented Estonia Malta Scotland and Cyprus generally respond to the learners needs on the ground while rarely problematising the ideological stance of the state in relation to the educational plight of migrants The final chapter introduces and elaborates on a new concept Emancipatory LCE to help generate a deeper analysis
