The Use and Abuse of EFL Dictionaries Hilary Nesi,2012-02-14 The book begins with a review of research into dictionary use A number of experimental design problems are discussed in particular the unreliability of questionnaire responses and the need for detailed accounts of individual dictionary consultations whilst sampling in numbers sufficient to represent specified populations The experiments reported in subsequent chapters investigate issues raised in the review The first two studies find that dictionary use during a reading comprehension test affected completion speed but not test scores The apparent failure of dictionary use to improve comprehension is attributed to the test itself the dictionaries and the users choice of look up words The ability of users to interpret dictionary entries is investigated in three further studies which use computers to gather data on large numbers of individual consultations The findings indicate that there is little difference

between three major EFL dictionaries in terms of speed of consultation and overall productive success They also indicate that Malaysian ESL subjects who have higher vocabulary scores are slower in their reading and less successful in their interpretation of entries than Portuguese EFL subjects Finally the findings suggest that overall productive success is unaffected by the presence or absence of examples The experimental findings lead to the conclusion that dictionary consultation is a process in which users match pre existing beliefs about word meaning and behaviour against segments in the dictionary entry Such segments are often selected because they are familiar sounding and conceptually accessible but may contain only incomplete or non essential information Where pre existing beliefs and dictionary information conflict dictionary information is sometimes overridden Thus word knowledge acquired from a single consultation is often insufficient to ensure productive success Although it is probably inevitable that word knowledge will be acquired slowly through multiple encounters modifications to the dictionary entry and the training of users might help to avoid serious misinterpretation of dictionary information

The Speaking Self: Language Lore and English Usage Michael Shapiro, 2017-02-28 This book aims to explain social variation in language otherwise the meaning and motivation of language change in its social aspect It is the expanded and improved 2nd edition of the author's self published volume with the same title based on revised and adapted posts on the author's LanguageLore blog Each vignette calls attention to points of grammar and style in contemporary American English especially cases where language is changing due to innovative usage In every case where an analysis contains technical or recondite vocabulary a Glossary precedes the body of the essay and readers can also consult the Master Glossary which contains all items glossed in the text The unique form of the book's presentation is aimed at readers who are alert to the peculiarities of present day American English as they pertain to pronunciation grammar and style without dumbing down or compromising the language in which the explanations are couched b Praise for the First Edition Michael Shapiro is one of the great thinkers in the realm of linguistics and language use and his integrated understanding of language and speech in its semantic and pragmatic structure grammatical and historical grounding and colloquial to literary stylistic variants is perhaps unmatched today This book is a treasure to be shared Robert S Hatten The University of Texas at Austin Jewel of a book a gift to us all from Michael Shapiro Like a Medieval Chapbook it can be a kind of companion whose vignettes on language use can be randomly and profitably consulted at any moment Some may consider these vignettes opinionated That would be to ignore how deeply anchored each vignette is in Shapiro's long and rare polyglot experience with language It could well serve as a night table book taken up each night to read and reflect upon to ponder both in the twilight mind and in the deeper reaches of associative somnolence There is nothing else like it that I know of James W Fernandez The University of Chicago
