**Dog Training Basics** ,2024-12-11 Getting a new puppy or adult dog is always an exciting time for the entire family Dogs are known as man s best friend and a loyal dog becomes a beloved member of the family To achieve that level of love and companionship it is important to start your puppy or adult dog o on the right foot A solid grounding in obedience and problem behavior avoidance is essential to making your dog and you happier and healthier If you ve ever wondered How does your dog sit when you tell him to and mine doesn t or Wow He comes when you tell him to you need to invest some time into basic dog training Starting to train your dog from a young age is crucial as the rst few months of his life is when you will have the greatest inuence on him this is where he is shaped into

the dog he is going to be when he is all grown up The most basic of dog training is to get your dog to sit and come Teaching him those commands are essential for him to learn These commands are used for various reasons such as if your dog jumps making him sit will immediately get him o and come is the all important command If you take your dog for a walk you let him o the leash and expect him to come back to you not run around the park with you chasing after him shouting at him to get here right this instance That would be just downright embarrassing To teach your dog how to come requires only the most basic of techniques but a lot of repetition The simplest way to get him to come is to have a toy in one hand and a treat in the other When you are in the house simply walk away from him hold out the toy and excitingly call him to you When he comes over give him a treat always using the command for come that you are going to use in the future Doing this several times a day is a great way to teach him but remember to have lots of long breaks so he doesn't get bored and stop enjoying it and don't forget the treats Getting him to sit could be slightly harder but again only requires basic dog training When you have mastered the come command call him to you place your hand on the end of his back and say sit while gently pushing down on his backside When he sits his bottom down give him a treat and a lot of praise If you want him to sit longer just delay giving him the treat and the praise Get him to sit but take your time bending down to him and feeding him his titbit Basic dog training is simple and very effective It should also be fun for you and your dog it doesn't have to be hours and hours each day just maybe 5 minutes or so Don't forget to reward your dog and yourself for all the hard work though Let's start with a look at getting started on basic puppy training from bringing the new addition home to making sure he is properly socialized and behaved

**Basic Dog Training** Darius Havlicek,2021-08-06 Congratulations It s time to bring home your new puppy You know how important socialization and good behavior is for a family pet and you re invested in starting a puppy obedience training program in your home right from the start Plus puppy training builds a bond between a dog and his new human family But where do you start In this book you will learn the basics of obedience training and some important things you ought to know before embarking on this dog training journey You will find out the benefits that dog training has to offer to you as well as your dog There are quite a lot of devices related to obedience training nowadays and it can get quite frustrating if you don t know much on this subject or if this is your first attempt to train a dog We will go through the most common and also essential devices that can actually make a difference and make it easier for you to train your dog A Trained Dog Is a Good Dog Jan Meyer,2012-10-04 A dog can be a wonderful companion with enormous affection for you and your family His keen senses and alertness can provide you with much needed protection but it is important to remember that you must be prepared to care for your pet for the next twelve or more years Like a child it will depend on you not only for its health and well being but also for dedicated training in order to become a friendly well mannered dog that is a pleasure for you and others It must also be remembered that we do not live in a dogs world but that our dogs are the ones who must learn to live in a human world It is therefore our responsibility to adequately prepare them for the unfamiliar environment in which we place them Society does not punish a child for pulling a dogs tail but will punish the dog for biting that child Before a handler can train his dog he must understand what is involved in the training process He needs to understand what is required from him and the dog in each part of each of the different obedience exercises He must be able to teach his dog what it is expected to know help it as much as possible and make it as easy as possible for the dog He needs to know about positive reinforcement in order to get the targeted behavior to recur and to reward good behavior Above all he needs to know when

and how much to praise and what to do when the dog is not performing a task it was taught All this he cannot learn during the relatively short time he spends each week with the instructor at the club Six days a week he is alone at home with his dog and needs to continue to build on the training he received at the club He needs to remember the sequence of training steps and how to break them up into the small component parts to be mastered by the dog And when he becomes confused he needs help or notes to refer to This is what I had in mind when I decided to write these notes on basic dog obedience training There are many basic training methods from clicker training to the more traditional methods that can be used to train a dog for obedience work The perfect training method does not exist otherwise we would all have had copies made and used on our dogs No we are all learning and improving I have adopted an eclectic approach to dog training that is I have over many years studied different training methods and selected from them what will work for most dogs At times however I may use a combination of these methods or I may shift from one method to another depending on the training need or exercise What is very important to me is that the reader must not only know about the best methods of teaching dogs today but must understand why a dog behaves the way it does Above all it must be remembered that dog training must be fun for both dog and trainer Most dog owners do not ask much of their dogs they ask only that the dogs obey some basic commands and that they are well behaved at home and in public That is why all dogs should at least do the Canine Good Citizen test I hope my notes will add to your knowledge of basic dog obedience training and that your trained dog will bring much joy to you and your family Jan Meyer BA SA MEd DCRT US HP MT
