Systematic Reviews of Research in Basic Education in South Africa Felix Maringe, 2021-04-09 Maringe ought to be commended for putting together an invaluable contribution to our understanding of research into a complex education system in South Africa This volume provides a useful foundation to the current state of education quality in South Africa including the impact of interventions It also brings to the fore challenges still facing education transformation The evidence presented which taken together lays out a coherent view of how improvements could be made Albert Chanee Head of Planning Gauteng Department of Education For too long the weight of educational scholarship produced in South Africa has been limited to that simple and standard form called the literature review Now for the first time education researchers are provided with an African based text on the concepts and methods of conducting systematic reviews In this exceptional work of editorship Felix Maringe brings together

some of the leading researchers on South African education to model and demonstrate how to review a significant body of research on a chosen topic which is adjudicated strictly on the basis of the quality and efficacy of the evidence in hand I have no doubt that this remarkable book will become a standard reference for educational researchers in and beyond the African continent It will also lift the quality of educational inquiry by equipping a new generation of scholars with the capacity for doing evidence based research that compels the attention of policymakers planners and practitioners alike Prof Jonathan Jansen Stellenbosch University

The Essentials of Special Education Research Andrew M. Markelz, Benjamin S. Riden, 2024-08-21 Researchers in special education have been developing a knowledge base of evidence based practices that improve the outcomes of students with disabilities Unfortunately filtering that knowledge into classrooms implemented by special education teachers has been a challenge In *The Essentials of Special Education Research* Andrew M Markelz and Benjamin S Riden directly address the persistent research to practice gap by systematically presenting the essential components of research that every special education teacher must know The first section investigates the foundations of research and why special education teachers should regularly read research articles It also examines the basic structure of research articles to demystify jargon and provide teachers confidence when reading scientific literature The second section explores various research methodologies that consumers of research must know Methodologies such as literature reviews single case design quantitative qualitative and others are unpacked so that special education teachers know the critical components of these methodologies along with their limitations to become critical consumers of research The third section focuses on putting this knowledge into practice Using practical scenarios the authors demonstrate how a special education teacher can combat common classroom problems by locating and reading relevant research to gain information and implement best practices based on scientific evidence This step by step guide combines the knowledge and skills outlined in this book to truly become a scientific practitioner
