Consolation Of Otherness The Male Love Elegy In Milton Gray And Tennyson:

The Consolation of Otherness Matthew Curr, 2002-06-06 The social and religious constraints of their time may have prevented John Milton Thomas Gray and Alfred Tennyson from conscious expression or even unconscious recognition of the true extent of their love and devotion to their young male friends but it lies at the heart of their emotional lives and poetry Connected by the extraordinary coincidence that each of their loved ones died young Milton Gray and Tennyson are also connected by the male love elegies that sprang from their grief This work examines the relationships between John Milton and Charles Diodati Thomas Gray and Richard West and Alfred Tennyson and Arthur Hallam through a critical study of Milton's Epitaphium Damonis Gray's Elegy and Tennyson's In Memoriam It shows how their concepts of otherness and difference from the people around them provided comfort after the loss of their loved ones It discusses Milton's use of Latin to mourn his friend and screen the most resounding expressions of his love while keeping at bay those not ready to understand his concept of otherness how Gray used both Latin and the vernacular to express his grief while conforming to social and religious constraints by also addressing larger concerns and Tennyson's ability to use the vernacular with complete security to speak out and yet hold back private thoughts about the person he loved more than almost any other in his life

Both English and Latin Estelle Haan, 2012-01-01 This study examines the interplay of Latin and English in a selection of John Milton's neo Latin writings It argues that this interplay is indicative of an inherent bilingualism that proceeds hand in hand with a self fashioning that is bicultural in essence Interlingual flexibility ultimately proved central to the poet of Paradise Lost an epic uniquely characterized by its Latinate vernacular and its vernacular Latinitas Author Estelle Haan Sheehan is Professor of English and Neo Latin Studies at The Queen's University of Belfast She is a well known and well respected Neo Latinist who has published several volumes with the American Philosophical Soc and has recently edited Milton's Latin and Greek poetry for Oxford University Press

[The Oxford Handbook of Neo-Latin](#) Stefan Tilg, Sarah Knight, 2015 From the dawn of the early modern period around 1400 until the eighteenth century Latin was still the European language and its influence extended as far as Asia and the Americas At the same time the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics Latin also entered into a complex interplay with the rising vernacular languages This Handbook gives an accessible survey of the main genres contexts and regions of Neo Latin as we have come to call Latin writing composed in the wake of Petrarch 1304-74 Its emphasis is on the period of Neo Latin's greatest cultural relevance from the fifteenth to the eighteenth centuries Its chapters written by specialists in the field present individual methodologies and focuses while retaining an introductory character The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo Latin literature and culture It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome its early modern reception and the shifting characteristics of post classical Latin language and literature

Political social cultural and intellectual historians will find much relevant material in the Handbook and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest **Veteran Poetics**

among the Disciplines Ruth Abbott, Ephraim Levinson, 2024-12-31 Throughout the 250 years that have passed since Thomas Gray s death he has primarily been celebrated as a poet This makes sense because although he published relatively little verse he published less indeed precisely nothing of his abundant polymathic writing in other fields His place within the history of scholarship has therefore been obscured Like many eighteenth century antiquaries however he shared his learning through correspondence and manuscript circulation and thereby influenced intellectual as well as literary life This book explores Gray s scholarship within the changing norms of eighteenth century disciplines at once locating him within histories of specialisation and examining the ways in which he challenges their narratives Scholars from across the humanities reveal his methods and global interests and analyse many newly uncovered manuscripts Offering fresh understanding of broader fields through focused investigation of Gray s multidisciplinary writings the book will appeal to scholars of eighteenth century literary intellectual and scientific history *GLQ*, 1993 *The Latin Poetry of Thomas Gray* Estelle
