THE JFK FILES Peter Kross, 2019-02-12 In October 2017 2 800 files about the 1963 murder were made public for the first time bringing to the fore revelations that an alleged Cuban intelligence officer met Lee Harvey Oswald in Mexico City and praised his shooting ability and that the Soviet spy agency KGB believed then Vice President Lyndon Johnson may have conspired to assassinate Kennedy On April 26 2018 the U S Government released 19 000 newly declassified government documents on the Kennedy assassination It is said that investigators learned little except that the government s ideas about what needs to be secret and what doesn t are cryptic and unpredictable Some stuff in the documents that had been open for years is now classified again and some stuff that had been classified and is now open is so innocuous that nobody can figure out what the point was In some cases the documents had re redacted material that had already been declassified in previous versions Often that seemed to reflect Trump administration sensitivities to the feelings of foreign governments A 1975 CIA report on the surveillance of shooter Lee Harvey Oswald during his visit to the Soviet embassy in Mexico City just a few weeks before Kennedy s death was released years ago identifying a particular photo

as coming from a Mexican police surveillance camera In the same document re released April 26 the words Mexican police had been covered over Why are these documents even more redacted than previously known versions of the same document What astonishing information was released by the documents if any Why aren t all of the documents released in their entirety without any information redacted Are the intelligence agencies afraid they will look incompetent and unable to protect the President Or do they further confirm that Vice President Lyndon Johnson was involved in the assassination as earlier documents suggested

The Secrets We Keep Roland Betancourt,2024-08-06 An intriguing look at secrecy during the Byzantine Empire and the role of the art historian in seeking truth Secrecy has played a role throughout human history and continues to capture the popular imagination Some of the most seductive aspects of the Byzantine Empire such as the relics of the imperial palace and the military uses of Greek fire have been shrouded in mystery for centuries This book provides a brief history of secrecy in Byzantium and examines the role of the art historian in uncovering the truth demonstrating how visual evidence can not only reveal new findings but also purposely conceal answers Art historians face many challenges in their search for hidden knowledge including accessing accounts preserved in fragmentary glimpses and reconciling how practices of speculation and reconstruction result in different and sometimes contradictory understandings With pressing urgency this book asks scholars to consider their role in articulating the stories of marginalized people particularly for queer and trans history At the core of these investigations is the quest to discover how clandestine knowledge was transmitted and how relationships were strengthened by collective secret keeping as well as how concealment is used as a strategy for exercising power With insights into the religious imperial military and cultural uses of
