García-Mainar,2016-06-10 This book explores the formal and thematic conventions of crime film the contexts in which these have flourished and their links with the social issues of a globalized world The crime film has traditionally been identified with suspense a heterogeneous aesthetic and a tacit social mind However a good number of the crime films produced since the early 2000s have shifted their focus from action or suspense and towards melodrama in narratives that highlight the social dimension of crime intensify their realist aesthetics and dwell on subjectivity With the 1940s wave of Hollywood semi documentary crime films and 1970s generic revisionism as antecedents these crime films find inspiration in Hollywood cinema and constitute a transnational trend With a close look at Steven Soderbergh's Traffic 2000 David Fincher's Zodiac 2007 Jacques Audiard's Un prophète 2009 and Tomas

Hollywood 9/11 Tom Pollard, 2015-12-03 The terrorist attacks of September 11 2001 and the subsequent US led invasions of Afghanistan in 2001 and Iraq in 2003 profoundly affected all aspects of society including cinema Or did they Even now years after those horrific events debate still rages over their impact on films At the time many expected Hollywood to tamp down graphic movie violence while others hoped that filmmakers would finally lay bare volatile socio political issues fuelling terrorist attacks In

fact what has emerged is a thicket of darkly pessimistic genres including thrillers combat films sci fi and horror that makes pre 9 11 films appear naive and optimistic Hollywood 9 11 explores this transformation critically examining everything from Harry Potter and the Half Blood Prince to The Hurt Locker and placing the films in the context of both the socio political scene and the history of cinema

What Democracy Looks Like Amy Schrager Lang,Cecelia Tichi,2006 The convergence of activists in Seattle during the World Trade Organization meetings captured the headlines in 1999 These demonstrations marked the first major expression on U S soil of worldwide opposition to inequality privatization and political and intellectual repression This turning point in world politics coincided with an ongoing quandary in academia particularly in the humanities where the so called death of theory has left the field on tenuous footing In What Democracy Looks Like the editors and twenty seven contributors argue that these crises in the world and the academy are not unrelated The essays insist that in the wake of Seattle teachers and scholars of American literature and culture are faced with the challenge of addressing new points of intersection between American studies and literary studies The narrative the poem the essay and the drama need to be reexamined in ways that are relevant to the urgent social and political issues of our time Collectively urging scholars and educators to pay fresh attention to the material conditions out of which literature arises this path breaking book inaugurates a new critical realism in American literary studies It provides a crucial link in the growing need to merge theory and practice with the goal of reconnecting the ivory tower elite to the activists on the street
