Romania Bianca Selejan-Gutan,2016-04-21 In December 1989 Romania became the last Eastern European communist country to break with its communist dictatorship the most powerful in the region at the time It has struggled ever since to overcome the transition to democracy and to become a full time member of the Western democratic community of states This book provides a contextual analysis of the Romanian constitutional system with references to the country s troubled constitutional history and to the way in which legal transplantation has been used The Constitution s grey areas as well as the gap between the written constitution and the living one will also be explained through the prism of recent events that cast a negative shadow upon the democratic nature of the Romanian constitutional system The first chapters present a brief historical overview and an introduction to Romanian constitutional culture as well as to the principles and general features of the 1991 Constitution The chapters which follow explain the functioning of the institutions and their interrelations Parliament the President the Government and the courts The Constitutional Court has a special place in the book as do local government and the protection of fundamental rights The last chapter refers to the mechanisms and challenges of constitutional change and development **Legal Reform in Post-Communist Europe** Stanislaw J. Frankowski,Paul B.

Stephan III,2023-10-20 This book represents an effort to assess the unprecedented political economic and social reforms that have swept through Central and Eastern Europe in the five years since the collapse of Communism The dismantling of the

Warsaw Pact the Council for Mutual Economic Assistance the Communist Party apparatus and the various manifestations of the nomenklatura political control system have meant different things in different countries but throughout the region we have witnessed a struggle to replace an authoritarian one party political system and a command economy with something resembling Western style constitutional democracy and market economics Accompanying this struggle have been attempts to transform the legal structure of these countries It is no exaggeration to claim that lawyers and particularly legal scholars have played a central role in the struggle for reform in post communist Europe As conceived by its principal organizer and editor Stanislaw Frankowski this study gives these scholars an opportunity to express their perceptions of the success achieved to date and the work still remaining A secondary goal is to expose a Western audience to the views and insights of legal scholars who have worked within the Central and Eastern European traditions The four parts of this book reflect the principal areas in which legal reform seemed essential First comes the reconstitutionalization of the societies in question which means above all else the elimination of single party politics and the notion of unity of powers Then comes the creation of the legal institutions that would make possible a civil society under law Then the institutions that moderate and control the uses of state power to discipline and punish persons that have transgressed the society's norms Finally there is the question of how law reform had dealt with industrial democracy and the anticipated transformation of the workplace

Tiberiu Dianu, 1997 **The Responsibility of a Constitution for the Future** Rainer Arnold, Toni Fickentscher, 2024-09-23 A constitution has the task of realizing its regulatory objective for the entire duration of its existence In doing so it bears responsibility for the present but also for the future It must ensure that the legitimate interests of future generations are also

taken into account in today's decision making and policies. The concept of intertemporal protection of fundamental rights developed by German constitutional jurisprudence and the jurisprudence in other countries have particularly stimulated the discussion on the constitution's responsibility for the future which is important in numerous areas. At the World Congress of the International Association of Constitutional Law in Johannesburg in December 2022 one workshop which was chaired by the two editors of this volume was dedicated to this topic. This book brings together the presentations of 13 authors from 10 countries on fundamental questions and specific aspects of this important issue.

In doing so it tracks possible roadblocks to the future evolution of European integration. Its single structure approach allows for comparison while maintaining consistency. It will become the standard reference work for academics, students and practitioners in the field of European Union law and integration.

Good Administration and the Council of Europe Ulrich Stelkens, Agnė Andrijauskaitė, 2020. This book seeks to find an answer to the question of how to rule a state well by drawing on a range of organizational procedural and substantive standards of administrative conduct developed within the framework of the Council of Europe (CoE) as an organization of a broader scope than the European Union.

Law and Religion in the 21st Century Rinaldo Cristofori, Silvio Ferrari, 2016-04-15. This book brings together leading international scholars of law and religion to provide an overview of current issues in State-religion relations. The first part of the collection offers a picture of recent developments in key countries and regions. The second part is focused on Europe and in particular on the Nordic States and the post-communist countries where State-religion systems have undergone most profound change. The third and final part is devoted to four issues that are currently debated all over the world: the relations between freedom of expression and freedom of religion, proselytism and the right to change religion, the religious symbols and the legal status of Islam in Europe and Canada. The work will be a valuable resource for academics, students and policy makers with an interest in the interaction between law and religion.

A Political History of Reunifying Europe Iordan Gheorghe Bărbulescu, 2025-01-24. The proposed volume delves into the European Union's expansion into Central and Eastern Europe after the fall of the Berlin Wall. It emphasizes the candidate states' perspective.

and seeks to draw parallels between the 1990s expansion and potential future enlargements. The historical context is vital, particularly the democratization and consolidation effects that past expansions had on both the candidate states and the EU as a whole. The work also discusses the recently established European Political Community and its role in creating a unified European political space. It contends that past expansions were win-win scenarios benefiting both the EU and the candidate states and suggests that similar mutual gains can be achieved in the EU's potential enlargement into the Western Balkans and Eastern Europe. The author proposes that analyzing past expansion processes offers valuable insights and concrete strategies for future extensions. This may include concepts like pre-accession and the European Political Community. The current geopolitical climate with a more assertive Russia underscores the importance of further EU expansion to enhance Europe's stability and security. Overall, the book offers a comprehensive exploration of past and potential EU enlargements, highlighting the enduring significance of this ongoing process in shaping the European landscape.
