W. B. Patterson

Constitutional Royalism And The Search For Settlement C 1640 1649:

Constitutional Royalism and the Search for Settlement, C.1640-1649 David L. Smith, 2002-05-02 An investigation into the Constitutional royalists and their role in the English Revolution Royalists at War in Scotland and Ireland, 1638-1650 Barry Robertson, 2016-04-08 Analysing the make up and workings of the Royalist party in Scotland and Ireland during the civil wars of the mid seventeenth century Royalists at War is the first major study to explore who Royalists were in these two countries and why they gave their support to the Stuart kings It compares and contrasts the actions motivations and situations of key Scottish and Irish Royalists paying particular attention to concepts such as honour allegiance and loyalty as well as practical considerations such as military capability levels of debt religious tensions and political geography It also shows how and why allegiances changed over time and how this impacted on the royal war effort Alongside this is an investigation into why the Royalist cause failed in Scotland and Ireland and the implications this had for crown strategy within a wider British context It also examines the extent to which Royalism in Scotland and Ireland differed from their English counterpart which in turn allows an assessment to be made as to what constituted core elements of British and Irish Royalism **Royalism and the Three Stuart Kingdoms** Robert Armstrong, 2023-10-30 This book addresses a conundrum Alone of the major competing political interests during the civil wars of the 1640s royalism needed to transcend attachment to one nation or one religious tradition and recruit a support base in each of England Ireland and Scotland This book aims to provide a concise interpretation and reassessment of royalism during these crucial years and focuses on this dilemma and on the resources intellectual and practical deployed to address it with mixed success It focuses on the key ideas and values which made royalism a formidable political alternative rather than on the more usual factional military or literary perspectives It argues that a three kingdom perspective not only gives a broader view but also clarifies the distinctive characteristics of English royalism more robust than its counterparts in the other nations Enforcing the English Reformation in Ireland James Murray, 2011-07-21 This text examines the efforts of the Tudor regime to implement the English Reformation in Ireland during the sixteenth century **Major-General Thomas Harrison** David Farr, 2016-05-13 Thomas Harrison is today perhaps best remembered for the manner of his death As a leading member of the republican regime and signatory to Charles I's death warrant he was hanged drawn and quartered by the Restoration government in 1660 a spectacle witnessed by Samuel Pepys who recorded him looking as cheerful as any man could do in that condition Beginning with this grisly event this book employs a thematic rather than chronological approach to illustrate the role of millenarianism and providence in the English Revolution religion within the new model army literature image and reputation and Harrison's relationship with key individuals like Ireton and Cromwell as well as groups most notably the Fifth Monarchists Divided in three parts the study starts with an analysis of Harrison's last year of life the nature of his response to the political collapse of the Interregnum regimes and his apparent acceptance of the Restoration without overt resistance Part two considers

Harrison's years of power analysing his political activities and influence in the New Model especially with regard to the regicide The final part ties Harrison's political retreat to his initial emergence from obscurity arguing that Harrison's relative political quietism during the later 1650s was a reflection of the development of his millenarianism Unlike the only two previous full length studies of Harrison the present work makes use of a full range of manuscript primary and secondary sources including the huge range of new material that has fundamentally changed how the early modern period is now understood Fully footnoted and referenced this study provides the first modern academic study of Harrison and through him illuminates the key themes of this contested period

A/AS Level History for AQA The English Revolution, 1625-1660

Student Book Tom Wheeley, 2015-12-03 A new series of bespoke full coverage resources developed for the AQA 2015 A/AS Level History Written for the AQA A/AS Level History specifications for first teaching from 2015 this print Student Book covers The English Revolution 1625-1660 Depth component Completely matched to the new AQA specification this full colour Student Book provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes

Literature and Political Intellection in Early Stuart England

Todd Wayne Butler, 2019 Todd Butler charts how some of the Stuart period's major challenges to governance evoked much greater disputes about the mental processes by which monarchs and subjects imagined and effected political action He draws upon a myriad of literary and political texts including the work of Francis Bacon John Donne Philip Massinger and John Milton

Word and Self Estranged in English Texts, 1550-1660

Dr L E Semler, Dr Philippa Kelly, 2013-04-28 The essays in Word and Self Estranged in English Texts 1550-1660 consider diverse historical contexts for writing about strangeness They draw on current practices of reading to present contrasts and analogies within and between various social understandings In so doing they reveal an interplay of thematic and stylistic modes that tells us a great deal about how and why certain aspects of life and thinking were estranged in sixteenth and seventeenth century thinking The collection's unique strength is that it makes specific bridges between contemporary perspectives and early modern connotations of strangeness and inhibition The subjects of these essays are strange to our ways of thinking because of their obvious distance from us in time and culture And yet curiously far from being entirely alien to these texts some of the most modern thinking about paradigms texts concepts connects with the early modern in unexpected ways Milton meets the contemporary competent reader Wittgenstein meets Robert Cawdrey Shakespeare embraces the teenager and Marvell matches wits with French mathematician Ren Thom Additionally the early modern texts posit their own others or sites of estrangement Moorishness Persian art even the human body with which they perform their own astonishing maneuvers of estrangement and alignment In reading Renaissance works from our own time and inviting them to reflect upon our own time Word and Self Estranged in English Texts 1550-1660 offers a vital reinterpretation of early modern texts

Reprobates: The Cavaliers of the English

Civil War John Stubbs, 2012-12-17 Stubbs has a storyteller's gift for atmosphere and drama Wall Street Journal Liberty, Authority, Formality John Morrow, 2012-03-26 The essays in this volume are all inspired by the historical scholarship of J C Davis During a prolific career Davis has transformed our understanding of early modern utopian literature and its contexts and compelled students of seventeenth century English to re-evaluate the significance of movements and individuals who have had a prominent place in the historiography of the English Revolution Davis's analyses of groups like the Levellers and individuals like Gerrard Winstanley and Oliver Cromwell has reoriented the inquiry around the contemporary moral themes of liberty authority and formality around which concepts this volume engages **Law-Making and Society in Late**

Elizabethan England David Dean, 2002-08-22 The years leading up to this book's publication had seen a re-assessment by historians of the Elizabethan parliament David Dean's book contributed to this development by offering the first detailed account and analysis of the legislative impulses of the men attending the last six parliaments of Elizabeth's reign Examining a wide range of social and economic issues law reform religious and political concerns and affairs both national and local Law Making and Society in Late Elizabethan England addresses the importance of parliament both as a political event and as a legislative institution David Dean draws on an array of local corporate and personal archives as well as parliamentary records to reinterpret the legislative history of the period *King James VI and I and the Reunion of Christendom* W. B.

Patterson, 2000-09-14 This book shows King James VI and I king of Scotland and England in an unaccustomed light Long regarded as inept pedantic and whimsical James is shown here as an astute and far-sighted statesman whose reign was focused on achieving a permanent union between his two kingdoms and a peaceful and stable community of nations throughout Europe *The Church in an Age of Danger* Donald A. Spaeth, 2000-12-21 This book explores popular support for the Church of England during a critical period from the Stuart Restoration to the mid-eighteenth century when Churchmen perceived themselves to be under attack from all sides In many provincial parishes the clergy also found themselves in dispute with their congregations These incidents of dispute are the focus of a series of detailed case studies drawn from the diocese of Salisbury which help to bring the religion of the ordinary people to life while placing local tensions in their broader national context The period 1660-1740 provides important clues to the long-term decline in the popularity of the Church Paradoxically conflicts revealed not anticlericalism but a widely shared social consensus supporting the Anglican liturgy and clergy the early eighteenth century witnessed a revival Nevertheless a defensive clergy turned inwards and proved too inflexible to respond to lay wishes for fuller participation in worship **Popular Politics and the English**

Reformation Ethan H. Shagan, 2003 This book is a study of popular responses to the English Reformation It takes as its subject not the conversion of English subjects to a new religion but rather their political responses to a Reformation perceived as an act of state and hence like all early modern acts of state negotiated between government and people These responses included not only resistance but also significant levels of accommodation co-operation and collaboration as people

attempted to co opt state power for their own purposes This study argues then that the English Reformation was not done to people it was done with them in a dynamic process of engagement between government and people As such it answers the twenty year old scholarly dilemma of how the English Reformation could have succeeded despite the inherent conservatism of the English people and it presents a genuinely post revisionist account of one of the central events of English history

The English Reformation and the Laity Caroline Litzenberger,2002-05-16 This book examines the effects of the English Reformation on the full spectrum of lay religion from 1540 to 1580 through an investigation of individuals and parishes in Gloucestershire Rather than focusing on either the acceptance of Protestantism or the demise of the traditional Catholic religion as other historians have done it considers all shades of belief against the backdrop of shifting official religious policy The result is the story of responses ranging from stiff resistance to eager acceptance creating a picture of the religion of the laity which is diverse and complex but also layered as parishes and individuals expressed their faith in ways which reflected the institutional or personal nature of their piety Finally while the book focuses on Gloucestershire it reveals broad patterns of beliefs and practices which could probably be found all over England

Henry Parker and the English Civil War Michael Mendle,2003-11-13 Professor Mendle situates each of Parker s significant tracts in its polemical intellectual and political context

Pamphlets and Pamphleteering in Early Modern Britain Joad Raymond,2003 By the end of the seventeenth century the most effective means of persuasion and communication was the pamphlet which created influential moral and political communities of readers and thus formed a public sphere of popular political opinion This book is a unique history of the printed pamphlet in sixteenth and seventeenth century Britain and traces its rise as an imaginative and often eloquent literary form Using a long term perspective and a broad range of historical bibliographical and textual evidence the book sketches a complex definition of a pamphlet showing the coherence of the literary form the diversity of genres and imaginative devices employed by pamphleteers and it explores readers relationship with pamphlets and how both influenced politics Individual chapters examine topics such as Elizabethan religious controversy the book trade the distribution of books and pamphlets pamphleteering in the English Civil War women and gender and print in the Restoration

The Politics of Social Conflict Andy Wood,1999-09-16 This book provides an alternative approach to the history of social conflict popular politics and plebeian culture in the early modern period Based on a close study of the Peak Country of Derbyshire c 1520 1770 it has implications for understandings of class identity popular culture riot custom and social relations A detailed reconstruction of economic and social change within the region is followed by an in depth examination of the changing cultural meanings of custom gender locality skill literacy orality and magic The local history of social conflict sheds light upon the nature of political engagement and the origins of early capitalism Important insights are offered into early modern social and gender identities civil war allegiances the appeal of radical ideas and the making of the English working class Above all the book challenges the claim that early modern England was a hierarchical pre class society

Protestantism and Patriotism Steven C. A. Pincus, 2002-05-09 A detailed study of the first two Anglo Dutch Wars and the ideological contexts in which they were fought *Gender in Mystical and Occult Thought* Brian J. Gibbons, 2003-11-13
An evaluation of the intellectual legacy in England of the ideas of Jacob Boehme 1575 1624
