Constitutions Of The Communist World:

The Constitutions of the Communist World William B. Simons, 1980-01-01 The written contributions compiled in this book are based upon lectures held during a symposium on the administrative law implementation enforcement of community law organized by the Directorate General Financial Control the Dutch Law Association for the Study of Protection of Financial Interests of the EC The topic is regarded from the perspective of both administrative practice administrative law While concentrating on the Dutch case the arguments put forward should also be of interest to the other EC countries since they also have to deal with both community law national administrative law Furthermore the book sheds light upon the development of community law in general The importance of national administrative law for the putting into practice of community law is a topic which has received increasing attention from both the sides of administrative practice legal science At the same time it is clear that administrative law has acquired more more community tasks obligations The latter development might point towards an European version of administrative law in the future EU Enlargement and the Constitutions of Central and Eastern Europe Anneli Albi, 2005-06-30 This book explores the adaptation of the constitutions of Central Eastern Europe CEE for membership in the European Union *Constitutions of the World* Robert L. Ludwikowski, 1996 Contains texts of constitutions of various countries which were once part of the U S S R *Prospects for Constitutionalism in Post-Communist Countries* Levent Gönenç, 2002-06-01 The last decade of the 20th century saw radical changes in Eastern Europe and the former USSR Most of these countries made a transition from totalitarianism or authoritarianism to democracy and from central planning to a market economy Adding to the latter a number of national entities gained their independence after the disintegration of the federative states of the USSR Yugoslavia and Czechoslovakia Many recent studies have focused on these double in some cases triple transitions and

scholars from different fields analyzed the so called 1989 Revolution from different perspectives Rather less scholarly attention has been paid to the future of post communist constitutions and prospects for constitutionalism in these countries The main questions dealt with throughout this study can be formulated as follows Will liberal democratic constitutionalism take root in these countries Will new constitutions in Eastern Europe and the former USSR perish or survive This study also aims at contributing to the construction of a general constitutional theory by studying the causes and dynamics of constitutional change in general Such constitutional change is not only on the East European but also on the West European agenda The purpose of this study is not to introduce a general theory about constitutional in stability but studying post communist constitutions will help us to understand the causes and dynamics of constitutional change from a broader perspective

The Distinctiveness of Soviet Law Ferdinand J.M. Feldbrugge,2024-12-02 **The Cambridge Companion to Comparative Constitutional Law** Roger Masterman,Robert Schütze,2019-10-03 Comparing constitutions allows us to consider the similarities and differences in forms of government as well as the normative philosophies behind constitutional choices The objective behind this Companion is to present the reader with a succinct yet wide ranging companion to a modern comparative constitutional law course

Constitutional Revolution Gary Jeffrey Jacobsohn,Yaniv Roznai,2020-05-19 Few terms in political theory are as overused and yet as under theorized as constitutional revolution In this book Gary Jacobsohn and Yaniv Roznai argue that the most widely accepted accounts of constitutional transformation such as those found in the work of Hans Kelsen Hannah Arendt and Bruce Ackerman fail adequately to explain radical change For example a constitutional moment may or may not accompany the onset of a constitutional revolution The consolidation of revolutionary aspirations may take place over an extended period The moment may have been under way for decades or there may be no such moment at all On the other hand seemingly radical breaks in a constitutional regime actually may bring very little change in constitutional practice and identity Constructing a clarifying lens for comprehending the many ways in which constitutional revolutions occur the authors seek to capture the essence of what happens when constitutional paradigms change
