**Legal Traditions of the World** H. Patrick Glenn, 2007 Previous editions published 2nd 2004 and 1st 2000

**Reshaping Change** Patrick Dawson, 2003 This book highlights the theoretical and practical value of using a processual perspective to make sense of organizational change Featuring data collected over 20 years of fieldwork it does much more than provide a simple overview of theory and change models and instead makes the processual approach understandable and accessible to both researchers and practitioners The author s case studies of radical and large scale change programmes include those from General Motors Pirelli Shell Britax and Laubman and Pank and considers aspects of processual research the context politics and substance of change and finally the future of the processual perspective This is an innovative and highly practical study that captures the truly complex processes of the changing organization and illustrates how best to understand them from a processual point of view

Ethics through Corporate Strategy Daniel R. Gilbert, 1996-09-19 Ethics Through Corporate Strategy is a daring challenge to anyone who uses the customary language of business in America It is daring because Daniel Gilbert argues that we should discard two popular ways of linking business and ethics It is challenging because Gilbert proceeds from the premise that everyone who uses a language of business is responsible for the ethical implications of that way of talking This work is one demonstration of how we can relocate conversations about business in the larger conversation that we know as liberal education

The Twilight of Corporate Strategy Daniel R. Gilbert, 1992 Nietzsche argued that ideas should be placed in the twilight between the daylight of continued usage and the darkness of irrelevance for humans This volume distinguishes itself from other books on strategic management in that it explores the corporate strategy concept in an ethical twilight Gilbert argues that the corporate strategy concept provides hope that the corporation can be interpreted as a context in which humans can flourish even as the dominant use of that concept denies such hope
