Constructing Boundaries Jewish And Arab Workers In Mandatory Palestine Suny Series In Israeli Studies:

Constructing Boundaries Deborah Bernstein, 2000-03-31 An interdisciplinary study discussing the impact of the national crisis in Mandatory Palestine on relations between Jewish and Arab workers and their respective labor movements

Boundaries and Belonging Joel S. Migdal, 2004-05-03 This interdisciplinary volume maintains the importance of a spatial understanding of society and history but suggests a way of conceiving of borders and space that goes beyond a school map of states Its subject is the struggle among differing spatial logics or mental maps It is concerned with the meaning that state borders hold for people but recognizes that such meaning varies and is contested by other social formations To what degree do state borders encase the mechanisms that make the decisive rules governing people s lives and to what extent do they give way to other rulemakers To what extent do states circumscribe the communities to which people feel attached and to what extent do they intersect with other communities of belonging These essays home in on the struggles and conflicting demands on people given that state borders are not automatically pre eminent and that other spatial logics demand attention

Canadian Readings of Jewish History Daniel Maoz, Esti Mayer, 2023-03-11 This book takes the reader through a genealogical embodied journey explaining how our historical context through various expressions of language culture knowledge pedagogy and power has created and perpetuated oppression of marginalised identities throughout history The volume is in essence a social justice initiative in that it shines a spotlight on elitist forms of knowledge and their attached privileged protectors As such the reader will unavoidably reflect on their own pre conceived meanings and culturally inherent notions while engaging with these pages and in so doing open a third space where new forms of knowledge that may transcend time and space can evolve into endless possibilities It is these possibilities of expanding the nuanced meanings of evolving knowledge fluid lifestyles and of a dynamic connection to humanity and God which make this book contextually relevant in our post modern landscape It un situates philosophies which have traditionally been unknowingly situated and in so doing propels the reader to re interpret discourse and recreate taken for granted universal truths **Journal of**

Palestine Studies , 2001 **Contesting the Monolith** Priya Singh, 2025-10-24 The book challenges the notion that Israel is a homogeneous state whether in theory or in practice It offers a detailed and critical intersectional analysis of nationalism ethnicity gender and marginality in Israeli society revealing how these forces converge to produce multiple as well as fused identities within a complex social fabric Examining the ruptures and fault lines that shape a multi layered society the study contends that Israel s exceptionality lies not in its self proclaimed Jewish and democratic character but in its resort to exceptional legal and coercive measures to mask internal diversity By obscuring this heterogeneous reality the state cultivates an illusion of a monolithic and uniform Israeli identity The analysis presents a society far more fragmented and stratified than official narratives suggest offering readers an understanding of how intersecting structures of identity and power operate in the Israeli context and how social and political institutions respond to and regulate internal difference This

book will be of interest to academic researchers postgraduate and doctoral students and policymakers engaged with questions of nationalism marginality identity and Middle Eastern politics particularly within the disciplines of political science sociology Middle Eastern studies and gender studies
