Constructing The New Consumer Society:

Construction of the New Consumer Sulkunen,1997 This work argues that the coming of a new consumerism in the affluent societies marks a distinct phase of modernity Limits of production no longer confine consumption to what is necessary or instrumental Demands for increasing production no longer shape ideology and culture as they did previously

Constructing the New Consumer Society Pekka Sulkunen,1997 This work argues that the coming of a new consumerism in the affluent societies marks a distinct phase of modernity Limits of production no longer confine consumption to what is necessary or instrumental Demands for increasing production no longer shape ideology and culture as they did previously

Constructing the New Consumer Society John Holmwood,Hilary Radner,Gerhard Schulze,Pekka Sulkunen,1997-05-13 This book argues that the coming of the a new consumerism in the affluent societies marks a distinct phase of modernity Limits of production no longer confine consumption to what is necessary or instrumental Demands for increasing production no longer shape ideology and culture as they did previously Important contemporary themes of morality the body citizenship and inequality are here placed in a new theoretical light The book provides examples of new codes of happiness in consuming products culture and entertainment Issues of nutrition consumer policy environmental risk and health are discussed in the light of these new codes

Consumer Society and the Post-modern City David B Clarke,2004-03 Working through the often controversial ideas of the consumer society s most influential theorists Jean Baudrillard and Zygmunt Bauman this book assesses the ways in which consumerism is reshaping the nature and meaning of the city

Social Psychology and Theories of Consumer Culture Matthew McDonald,Stephen Wearing,2013 *Social Psychology and Theories of Consumer Culture A Political Economy Perspective* presents a critical analysis of the leading positions in social psychology from the perspective of classical and contemporary theories of consumer culture The analysis seeks to expand social psychological theory by focusing on the interface between modern western culture consumer culture and social behaviour McDonald and Wearing argue that if social psychology is to play a meaningful role in solving some of society s most pressing problems e g global warming obesity addiction alienation and exclusion then it needs to incorporate a more comprehensive understanding and analysis of consumer culture Wide ranging and challenging the book offers a fresh insight into critical social psychology appropriate for upper undergraduate and postgraduate courses in personality social psychology critical and applied psychology It will also appeal to those working in clinical counselling abnormal and environmental psychology and anyone with an interest in the integration of social psychology and theories of consumer culture

The World of Consumption Ben Fine,Ellen Leopold,2002-06 In the opinion of many people the last decade saw the arrival of the consumer society However the response of social theory to consumerism has been barely appropriate to the scale of the changes As an antidote to this the authors propose the adoption of a new more inclusive theoretical approach based on systems of provision This emphasises different forms of determination for different products It

also emphasises the essential continuity between the various aspects of consumption production distribution marketing advertising and sales

Leisure in Contemporary Society Kenneth Roberts, 2006-01-01 In Western societies leisure has been a major force in changing people's lives. The containment of working time and the rise in spending power have been long term trends and are likely to continue over the next decades. While growth of leisure may not have eradicated differences by social class, gender or age, it has transformed how these differences are expressed, challenged or modified. In parallel, leisure studies has itself developed significantly as an academic discipline. This second edition is a complete rewrite of the first edition published in 1999. It is an introductory undergraduate text on leisure. It has a sociological perspective and discusses recent debates and research on topics such as post modernity, consumer cultures and lifestyles.

Ordinary Consumption Jukka Gronow, Alan Warde, 2013-01-11 The sociology of consumption has concentrated unduly on the more spectacular and visual aspects of contemporary consumer behaviour, thereby constructing an unbalanced and misleading view. This collection emphasises ordinary rather than extraordinary items, routine and repetitive behaviour rather than conscious decision making. It studies practical contexts of use rather than decisions to purchase and analyses collective identification rather than personal identity. Each essay argues one or more of these points for the most part using new empirical material from several different national contexts. The topics analysed include shopping in Taiwan, second home ownership in France, environmental considerations concerning food choice in Denmark, the take up of new domestic technologies in Finland and kitchen design in England. Key concepts like tradition, routine and habit are clarified and new conceptual distinctions are made with the book defending theoretical approaches deriving from Simmel, Weber, Durkheim and Bourdieu. *Ordinary Consumption* promotes a distinctive approach to the understanding of the central practices of consumer society; it is a book with a controversial message, one which will be a source of debate about the appropriate agenda for future research.

Being Middle-class in India Henrike Donner, 2012-06-25 Hailed as the beneficiary, driving force and result of globalisation, India's middle class is puzzling in its diversity as a multitude of traditions, social formations and political constellations manifest. This project, this book looks at Indian middle class lifestyles through a number of case studies ranging from a historical account detailing the making of a savvy middle class consumer in the late colonial period to saving clubs among women in Delhi's upmarket colonies and the dilemmas of entrepreneurial families in Tamil Nadu's industrial towns. The book pays tribute to the diversity of regional, caste, rural and urban origins that shape middle class lifestyles in contemporary India and highlights common themes such as the quest for upward mobility, common consumption practices, the importance of family values, gender relations and educational trajectories. It unpacks the notion that the Indian middle class can be understood in terms of public performances, surveys and economic markers and emphasises how the study of middle class culture needs to be based on detailed studies as everyday practices and private lives create the distinctive sub cultures and cultural politics that characterise the Indian middle class today. With its focus on private domains, middleclassness appears as a carefully orchestrated and complex way of life and presents a fascinating way to understand South Asian cultures and communities.

Constructed Situations Frances Stracey,2014-10-20 The Situationist International were a group of anti authoritarian highly cultured revolutionary artists whose energy and enragement fundamentally shaped the revolutions of the late 1960 s most famously in Paris in May 68 They took on their shoulders the history of the workers struggle saw that it had been corrupted by authoritarianism and transformed it with influences incorporating the avant garde via Dada and Surrealism They were not Marxologists defenders of the faith Marxism came back to life in their raging analyses the use of the spectacle and at the heart of the project was the idea of the constructed situation This book by Frances Stracey offers itself up as the first historiography of constructed situations Within it are new insights into the movement and with them a sense of relevance to political situations and practice today As an archivist Stracey uncovered new documents which amongst other things revealed how the SI related to representations of sexuality and is able to discuss whether they could be considered as feminists or not She also looked at their famous motto Never Work and again shows how alienated labour is even more relevant to us today Constructed Situations is not a history of celebrated personalities or cultural influences or political circumstances It is instead an open door to one of the most influential art movements in modern history and an invitation for us to reclaim inspiration from this ubiquitous movement

Exploring Indian Modernities Leïla Choukroune,Parul Bhandari,2018-06-04 This book analyses how multiple and hybrid modernities have been shaped in colonial and postcolonial India from the lens of sociology and anthropology literature media and cultural studies law and political economy It discusses the ideas that shaped these modernities as well as the lived experience and practice of these modernities The two broad foci in this book are a The dynamism of modern institutions in India delineating the specific ways in which ideas of modernity have come to define these institutions and how institutional innovations have shaped modernities and b perspectives on everyday practices of modernities and the cultural constituents of being modern This book provides an enriching read by bringing together original papers from diverse disciplines and from renowned as well as upcoming scholars

Building the Cold War Annabel Jane Wharton,2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States Building the Cold War examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking

visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel s unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul s cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War s first international businesses and demonstrates that the Hilton s role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space

Identity Construction and Tourism Consumption Erdal Arslan, İnci Oya Coşkun, 2022-10-26 This book explores how identity plays a pivotal role in tourism consumption Almost all tourism related consumption studies underestimate or refer inadequately to identity s relationship with tourism consumption As identity phenomenon is considerably a new subject in the tourism literature this book examines its relationship with the consumption theory It is of interest to readers curious about how pre during and post consumption activities affect a person s identity and vice versa This book contains an analysis of consumption theories and a summary of literature identifying the phenomenon s evolution through pre modern modern and post modern periods In this context this book aims to enlighten the interactions between identity construction and tourism consumption The grounded theory one of the qualitative research approaches was applied to accomplish the relevant purpose and in depth interviews were recruited following the method approach stages to enable the researchers to gain new insights into the subject By presenting the identity tended tourism consumption model this book provides a set of profound contributions to the relevant literature and insight for practitioners decision makers and entrepreneurs This book attempts to clarify the tourists consumption process and understand how the interactions between identity construction and tourism consumption work The qualitative methodology grounded theory allows in depth analysis and insights of the participants of the study on their definitions of themselves as human beings and as tourists decisions on their travel plans their considerations motivations to travel and destination preferences interactions with others vacation activities evaluations on their travel experiences et cetera Therefore this book appeals to readers of marketing business operations sociology and economics

Liquid Modernity Zygmunt Bauman, 2013-07-10 In this new book Bauman examines how we have moved away from a heavy and solid hardware focused modernity to a light and liquid software based modernity This passage he argues has brought profound change to all aspects of the human condition The new remoteness and unreachability of global systemic structure coupled with the unstructured and under defined fluid state of the immediate setting

of life politics and human togetherness call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history This book is dedicated to this task Bauman selects five of the basic concepts which have served to make sense of shared human life emancipation individuality time space work and community and traces their successive incarnations and changes of meaning Liquid Modernity concludes the analysis undertaken in Bauman's two previous books Globalization The Human Consequences and In Search of Politics Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today
