Constructing Boundaries Jewish And Arab Workers In Mandatory Palestine:

Constructing Boundaries Deborah Bernstein, 2000-03-31 An interdisciplinary study discussing the impact of the national crisis in Mandatory Palestine on relations between Jewish and Arab workers and their respective labor movements

Exiled in the Homeland Donna Robinson Divine, 2010-01-01 Offering a new perspective on Zionism Exiled in the Homeland draws on memoirs newspaper accounts and archival material to examine closely the lives of the men and women who immigrated to Palestine in the early twentieth century Rather than reducing these historic settlements to a single unified theme Donna Robinson Divine s research reveals an extraordinary spectrum of motivations and experiences among these populations Though British rule and the yearning for a Jewish national home contributed to a foundation of solidarity Exiled in the Homeland presents the many ways in which the message of emigration settled into the consciousness of the settlers Considering the benefits and costs of their Zionist commitments Divine explores a variety of motivations and outcomes ranging from those newly arrived immigrants who harnessed their ambition for the goal of radical transformation to those who simply dreamed of living a better life Also capturing the day to day experiences in families that faced scarce resources as well as the British policies that shaped a variety of personal decisions on the part of the newcomers Exiled in the Homeland provides new keys to understanding this pivotal chapter in Jewish history The Palestinian Peasant

Economy Under the Mandate Amos Nadan, 2006 Challenging the claim that Palestine s peasant economy progressed during the 1920s and 1930s Amos Nadan skillfully integrates a wide variety of sources to demonstrate that the period was actually one of deterioration on both the macro per capita and micro levels The economy would have most likely continued its downward spiral during the 1940s had it not been for the temporary prosperity that resulted from World War II Nadan argues that this deterioration continued despite the British authorities channeling of funds from the Jewish sector and the wealthier Arab sectors into projects for the Arab rural economy The British were hoping that Palestine s peasants would not rebel if their economic conditions improved These programs were on the whole defective because the British chose programs based on an assumption that the peasants were too ignorant to manage their farms wisely instead of working with the peasants and their own institutions

Boundaries and Belonging Joel S. Migdal, 2004-05-03 This interdisciplinary volume maintains the importance of a spatial understanding of society and history but suggests a way of conceiving of borders and space that goes beyond a school map of states Its subject is the struggle among differing spatial logics or mental maps It is concerned with the meaning that state borders hold for people but recognizes that such meaning varies and is contested by other social formations To what degree do state borders encase the mechanisms that make the decisive rules governing people s lives and to what extent do they give way to other rulemakers To what extent do states circumscribe the communities to which people feel attached and to what extent do they intersect with other communities of belonging These essays home in on the struggles and conflicting demands on people given that state borders are not automatically pre

eminent and that other spatial logics demand attention The Routledge Handbook of the History of the Middle East Mandates Cyrus Schayegh, Andrew Arsan, 2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history History from Below Brigitta Bernet, Lutz Raphael, Benjamin Zachariah, 2025-07-21 What we know as history from below has long been considered a more democratic form of history writing and research than forms of history that have counted sometimes by default as elite and therefore by implication elitist But history from below also has a tendency towards populism an emphasis on authenticity on voices uncontaminated by elite narratives and a focus on the indigenous Apart from its having a long standing problem of finding sources to give voice to the underrepresented the question as to who can write about and therefore represent the people below and a possible focus in consequence on themes of blood soil and the Volk This volume explores over nine essays and an introductory thematic essay these tensions and dichotomies The purpose is to bring to the foreground a long standing danger of celebrating voices from below perhaps uncritically at times and therefore also of a romanticisation of those voices *Israeli Sociology* Uri Ram, 2017-11-06 This book presents a comprehensive historical account of sociology in Israel the first history of sociology in Israel from its beginnings in late 19th century to the early 21st century It locates the ruptures and reorientations of the sociological text within its shifting historical context Israeli sociology is shown to have evolved in tandem with the development of the Israeli Jewish nation in Palestine and later of the state of Israel Offering a critical overview of the origins and the development of the discipline it argues that this can be divided into the following phases Predecessors 1882 1948 Founders 1948 1977 Disciples 1967 1977 Critics and More Critics 1977 1987 Intermediators 1977 2018 Post Modernists 1993 2018 and Post Colonialists 1993 2018 This book contributes a fascinating national case study to the history of sociology and will appeal further to students and scholars of social theory and Israel Studies Coffins on Our Shoulders Dan Rabinowitz, Khawla Abu-Baker, 2005-09-12 Written jointly by an Israeli anthropologist and a Palestinian family therapist this analysis of the Arab Israeli conflict combines the perspectives of two prominent segments of the Middle Eastern puzzle Israeli Jews and the

Palestinian citizens of Israel **Hamidian Palestine** Johann Büssow, 2011-08-11 During the era of Sultan Abd lhamid II modern state institutions were established in Palestine while national identities had not yet developed Hamidian Palestine explores how the inhabitants of the Ottoman District of Jerusalem interacted with each other and how they organised their interests in a historical moment before Arabs and Jews emerged as the central political categories in the country Based on a wide range of Arabic Turkish and Hebrew sources the book examines the social and political relations of Palestinians from a wide variety of perspectives By situating individual case studies within larger contexts such as modernisation regionalisation and state building it allows Palestinian society to be compared with other local societies within the Ottoman Empire and beyond

Law and Identity in Mandate Palestine Assaf Likhovski, 2006 One of the major questions facing the world today is the role of law in shaping identity and in balancing tradition with modernity In an arid corner of the Mediterranean region in the first decades of the twentieth century Mandate Palestine was confront

A History of Modern Palestine Ilan Pappé, 2006-07-31 An update of the history of Palestine since the 1800s which includes recent dramatic events

Army of Shadows Hillel Cohen, 2008-01-03 Inspired by stories he heard in the West Bank as a child Hillel Cohen uncovers a hidden history in this extraordinary and beautifully written book a history central to the narrative of the Israel Palestine conflict but for the most part willfully ignored until now In Army of Shadows initially published in Israel to high acclaim and intense controversy he tells the story of Arabs who from the very beginning of the Arab Israeli encounter sided with the Zionists and aided them politically economically and in security matters Based on newly declassified documents and research in Zionist Arab and British sources Army of Shadows follows Bedouins who hosted Jewish neighbors weapons dealers pro Zionist propagandists and informers and local leaders who cooperated with the Zionists and others to reveal an alternate history of the mandate period with repercussions extending to this day The book illuminates the Palestinian nationalist movement which branded these collaborators as traitors and persecuted them the Zionist movement which used them to undermine Palestinian society from within and betrayed them and the collaborators themselves who held an alternate view of Palestinian nationalism Army of Shadows offers a crucial new view of history from below and raises profound questions about the roots of the Israel Palestine conflict

Partitioning Palestine John Strawson, 2010-04-09 Law lies at the roots of the Palestinian Israeli conflict Jews sought a national home by Public Law while Palestinians reject the project as illegal Britain the League of Nations and the United Nations all mobilised international law to justify their interventions After the 1967 war Israel organised an occupation with excessive legalism that most of the world viewed in fact as illegal Partitioning Palestine focuses on three key moments in the Palestinian Israeli conflict the League of Nations Mandate the United Nations partition plan and the Oslo agreements None of these documents are neutral but rather encode a variety of meanings The book traces the way in which these legal narratives have both shaped national identity and sharpened the conflict In this pioneering text John Strawson argues that a committed attachment to the belief in legal justice has hampered the search for a settlement Law far

from offering conflict resolution has reinforced the trenches from which Palestinians and Israelis confront one another

The Balfour Declaration Bernard Regan, 2018-10-30 The true history of the imperial deal that transformed the Middle East and sealed the fate of Palestine On 2 November 1917 the British government represented by Foreign Minister Arthur Balfour declared it was in favour of the establishment in Palestine of a national home for the Jewish people This short note would become one of the most controversial documents of modern history Offering new insights into the imperial rivalries between Britain Germany and the Ottomans Regan exposes British policy in the region as part of a larger geopolitical game He charts the debates within the British government the Zionist movement and the Palestinian groups struggling for selfdetermination The after effects of these events are still felt today

Connecting with the Enemy Sheila H. Katz, 2016-11-08 Highlights the significance of those Israelis and Palestinians who have chosen connection and dialogue as a practical alternative to the use of force Euphrates Institute Thousands of ordinary people in Israel and Palestine have engaged in a dazzling array of daring and visionary joint nonviolent initiatives for more than a century They have endured despite condemnation by their own societies repetitive failures of diplomacy harsh inequalities and endemic cycles of violence Connecting with the Enemy presents the first comprehensive history of unprecedented grassroots efforts to forge nonviolent alternatives to the lethal collision of the two national movements Bringing to light the work of over five hundred groups Sheila H Katz describes how Arabs and Jews children and elders artists and activists educators and students garage mechanics and physicists and lawyers and prisoners have spoken truth to power protected the environment demonstrated peacefully mourned together stood in resistance and solidarity and advocated for justice and security She also critiques and assesses the significance of their work and explores why these good will efforts have not yet managed to end the conflict or occupation This previously untold story of Palestinian Israeli joint nonviolence will challenge the mainstream narratives of terror and despair monsters and heroes that help to perpetuate the conflict It will also inspire and encourage anyone grappling with social change peace and war oppression and inequality and grassroots activism anywhere in the world A profoundly important study of the history and ongoing efforts for Israeli Palestinian peace by ordinary Israelis and Palestinians A genuinely balanced perspective Stephen Zunes author of *Tinderbox U S Middle East Policy* and *the Roots of Terrorism*

Arieh Sharon and Modern Architecture in Israel Eran Neuman, 2023-11-30 Arieh Sharon and Modern Architecture in Israel Building Social Pragmatism offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel A graduate of the Bauhaus Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine There he established his office which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv After the establishment of the State of Israel in 1948 Arieh Sharon became the director and chief architect of the National Planning Department where he was asked to devise the young country s first national masterplan Known as the Sharon Plan it was

instrumental in shaping the development of the new nation During the 1950s and 1960s Sharon designed many of Israel's institutions including hospitals and buildings on university campuses This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964 Thus the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall This book will be of interest to researchers in architecture modern architecture Israel studies Middle Eastern studies and migration of knowledge

Jewish Antifascism and the False Promise of Settler Colonialism Max Kaiser, 2022-10-29 This book takes a timely look at histories of radical Jewish movements their modes of Holocaust memorialisation and their relationships with broader anti colonial and anti racist struggles Its primary focus is Australia where Jewish antifascism was a major political and cultural force in Jewish communities in the 1940s and early 1950s This cultural and intellectual history of Jewish antifascism utilises a transnational lens to provide an exploration of a Jewish antifascist ideology that took hold in the middle of the twentieth century across Jewish communities worldwide It argues that Jewish antifascism offered an alternate path for Jewish politics that was foreclosed by mutually reinforcing ideologies of settler colonialism both in Palestine and Australia

Visual Syntax of Race Noa Hazan, 2022-09-27 Analyzing the visual syntax and display rhetoric applied in newspaper photos national historical albums and museum exhibitions Noa Hazan shows that although racial thought was and still is verbally suppressed in Israel it is vividly present in its nonverbal official and public visual sphere The racist perspective of newspaper editors book publishers photographers and museum curators were morally justified in its time by such patronizing ideals as realistic news coverage or the salvation of Jewish heritage assets Although their perspectives played a dominant role in establishing a visual syntax of race in Israel they were not seen as racially discriminating at the time The racist motifs and actions are revealed here by colligating multiple cases into a coherent narrative in retrospect This book points to a direct influence of the anti Semitic discourse in Europe toward Mizrahim in Israel highlighting the shared visual stereotypes used in both Europe and the fledgling state of Israel Engraved in their body these cultural traits were depicted and understood as racial biological qualities and were visually manipulated to silo Ashkenazim and Mizrahim in Israel as distinct racial types

Overthrowing Geography Mark LeVine, 2005-05-02 Publisher Description The Nation and Its "New" Women Ellen Fleischmann, 2003-04 Though they are almost completely absent from the historical record Palestinian women were extensively involved in the unfolding national struggle in their country during the British mandate period This history studies the development of the Palestine women's movement between 1920 and 1948
