Lundskow, 2005-01-11 Certain timeless questions rise and fall through changing social conditions: scientific advances and cultural variation. Who am I? How should I live? What happens when I die? In modern society, traditions no longer integrate the individual into a larger spiritual community, and so movements have risen to address the crisis of meaning in a rapidly changing world. This collection of essays, while considering variables of work, class, race, and gender, theoretically and empirically examines how diverse groups are trying to restore a sense of meaning through religious innovation. The first group of essays considers new developments in theory, framing critical inquiry into recent developments in religion and the larger quest for meaning. The second section examines grass-roots emancipation movements which seek an expanded role for the individual in both belief and practice. Topics addressed include the dialectic between religious and secular values and norms, anti-Semitism, new evangelism, Neopaganism on the internet, Max Horkheimer's critical theory of religion, Christian speed thrash metal music, Islamic fundamentalism, modernity and the role of women, French tourist destination Rocamadour, and

competition between the Catholic shrine and secular attractions developments within the Polish Roman Catholic Church the Finnish Satanism scare of 1999 and Islam and politics in Turkey A bibliography completes each essay Instructors considering this book for use in a course may request an examination copy here **Cultural Theories: Oxford Bibliographies Online Research Guide** Oxford University Press,2010-05-01 This ebook is a selective guide designed to help scholars and students of criminology find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In criminology as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Criminology a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of criminology Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.aboutobo.com

Aftermath Daniel Kanstroom, 2012-06-07 In *Aftermath* immigration and deport expert Daniel Kanstroom reveals the rarely discussed effects of deportation under the United States current system the actual effects on individuals families U S communities and the countries that must process and repatriate ever increasing numbers of U S deportees Addressing a wide range of political social and legal issues Kanstroom considers whether our deportation system works in any meaningful sense

America Behind Bars Rick Ruddell, 2004 Ruddell examines the political cultural and social factors that contributed to the growth in incarceration in the United States from 1952 to 2000 Controlling for the influences of economic stress violent crime unemployment direct outlays for assistance the percentage of population that is black and the percentage of males aged 15 to 29 years Ruddell studies the influences of political disaffection civic disengagement and social disruption on adult imprisonment trends The findings provide evidence of the relationships between increases in the use of punishment and cultural or political values The results also support the proposition that the use of punishment is an inherently complex and political process

Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition *Lies*

Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance *The War on Drugs in Sport* Vanessa McDermott,2015-10-23 This book is an innovative and compelling work that develops a modified moral panic model illustrated by the drugs in sport debate Drawing on Max Weber s work on moral authority and legitimacy McDermott argues that doping scandals create a crisis of legitimacy for sport governing bodies and other elite groups This crisis leads to a moral panic where the issue at stake for elite groups is perceptions of their organizational legitimacy The book highlights the role of the media as a site where claims to legitimacy are made and contested contributing to the social construction of a moral panic The book explores the way regulatory responses in this case anti doping policies in sport reflect the interests of elite groups and the impact of those responses on individuals or folk devils The War on Drugs in Sport makes a key contribution to moral panic theory by adapting Goode and Ben Yehuda s moral panic model to capture the diversity of interests and complex relationships between elite groups The difference between this book and others in the field is its application of a new theoretical perspective supported by well researched empirical evidence *The Mythology of Crime and Criminal Justice* Victor E. Kappeler,Gary W. Potter,2017-07-18 The social construction of crime is often out of proportion to the threat posed The media and advocacy groups shine a spotlight on some crimes and ignore others Street crime is highlighted as putting everyone at risk of victimization while the greater social harms from corporate malfeasance receive far less attention Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior Interest groups promote their agendas by appealing to public fears Justifications often have no basis in fact but the public accepts the exaggerations and blames the targeted offenders The net widening effect of more laws and more punishment catches those least able to defend themselves This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system Kappeler and Potter dissect popular images of crimes and criminals in a cogent compelling and engaging manner They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs The authors

encourage skepticism about commonly accepted beliefs offer readers a fresh perspective and urge them to analyze important issues from novel vantage points

Immigration, Integration, and Security Ariane Chebel D'Appollonia, Simon Reich, 2008-05-01 Recent acts of terrorism in Britain and Europe and the events of 9 11 in the United States have greatly influenced immigration security and integration policies in these countries Yet many of the current practices surrounding these issues were developed decades ago and are ill suited to the dynamics of today s global economies and immigration patterns At the core of much policy debate is the inherent paradox whereby immigrant populations are frequently perceived as posing a potential security threat yet bolster economies by providing an inexpensive workforce Strict attention to border controls and immigration quotas has diverted focus away from perhaps the most significant dilemma the integration of existing immigrant groups Often restricted in their civil and political rights and targets of xenophobia racial profiling and discrimination immigrants are unable or unwilling to integrate into the population These factors breed distrust disenfranchisement and hatred factors that potentially engender radicalization and can even threaten internal security The contributors compare policies on these issues at three relational levels between individual EU nations and the U S between the EU and U S and among EU nations What emerges is a timely and critical examination of the variations and contradictions in policy at each level of interaction and how different agencies and different nations often work in opposition to each other with self defeating results While the contributors differ on courses of action they offer fresh perspectives some examining significant case studies and laying the groundwork for future debate on these crucial issues

A Comprehensive Study of Female Offenders Martin Guevara Urbina, 2008 Few empirical studies have focused on women in prison In the last few years though a number of studies have demonstrated that there are fundamental differences

between male and female prisoners in an ever changing penal system Consequently there has been a need for more comprehensive studies of female offenders for three primary reasons 1 imperative research gaps remain to be bridged 2 the female prison experience is not constant and 3 prison rates for female offenders especially minority offenders have increased considerably in the last few years A central goal of this book then is to provide a balance to the existing literature and research on female prisoners in the United States and to an extent abroad focusing primarily on female offenders and using data gathered from the Wisconsin Department of Corrections The book utilizes a comprehensive investigative approach by equating the experience of female offenders by the totality of circumstances within an historical institutional political and ideological context The critical objective is to offer an inclusive analysis of the things that are considered by female inmates to be the most significant before during and after their incarceration as a way of better understanding the reasons that lead to their first incarceration as well as subsequent incarcerations By reading this book the reader will have a greater understanding of the many challenges facing female inmates as well as the relationship between inmates correctional officers and by extension society in general Also provided is a series of policy recommendations throughout the book particularly in the concluding chapter and epilogue

Gangs in the Caribbean Randy Seepersad, 2013-09-17 The present volume represents the first published book on gangs in the Caribbean The study of criminal gangs is both timely and of the utmost importance to policy and security in the region In many countries across the Caribbean criminal gangs are increasing in number and prominence and official crime data indicate that they are responsible for an increasing proportion of violent crimes The Caribbean region experienced a dramatic increase in murder rates from 14.3 murders per 100,000 inhabitants in 2000 to 28.1 murders per 100,000 inhabitants in 2010 In some of the countries with comparatively high murder rates such as Jamaica and Trinidad and Tobago the proportion of gang related murders has reached alarming levels In the case of Trinidad and Tobago for example for the period 2001 to 2012 29.5% of all murders which occurred were classified as gang related with fully 38% being so classified in 2012 The Caribbean represents a diverse region with very different cultures and security issues Foreign experiences and research on gangs may not generalize to the region nor may foreign policy be entirely relevant The present volume represents an attempt to come to terms with the phenomenon of gangs in the Caribbean and presents a wealth of empirical data as well as an analysis of the varying issues from a number of disciplinary perspectives Much of what is currently known about gangs in the Caribbean is brought together in this volume with the primary aims of understanding the varying issues and examining relevant strategies for dealing with the proliferation of criminal gangs

Aftermath Dan Kanstroom, 2012-06-29 Examines the current deportation system in the United States the aftermath effects and the political social and legal issues
