Translation, Linguistics, Culture Nigel Armstrong, 2005-01-01 This book takes a linguistic approach to translation issues looking first at the structural view of language that explains the difficulty of translation and at theories of cultural non equivalence A subsequent chapter on text types readership and the translator's role completes the theoretical framework The linguistic levels of analysis are then discussed in ascending order from morpheme up to sentence while a summarising chapter considers various translation types and strategies again considered in relation to text type author and reader

Translation, Rewriting, and the Manipulation of Literary Fame André Lefevere, 2016-10-26 Lefevere explores how the process of rewriting works of literature manipulates them to ideological and artistic ends so that the rewritten text can be given a new sometimes subversive historical or literary status

Harriet Beecher Stowe's "Uncle Tom's Cabin" in Arabic Abeer Abdulaziz AL-Sarrani, 2016-03-25

This book explores the challenges of cross cultural translation of American literary works into Arabic which I argue have prevented many nineteenth century literary works from being translated into Arabic I have used the Arabic translations of Harriet Beecher Stowe's *Uncle Tom's Cabin* and an abridged English text accompanying one of the translations as a case study Since most of the Arabic translations of English and especially American literary works are merely linguistic oriented ones I reinforce the importance of adopting a period specific cultural oriented approach that maintains the cultural context of American literary works including the historical cultural religious geopolitical and gender based elements during the literary translation into the Arabic culture I start with discussing the internationalization of American works and the importance of a cultural reading of these works Reviewing many translations of English and American works in general I categorize the challenges of cross cultural literary translation from English into Arabic into the following cultural religious geopolitical and gender based ones While I am not calling for accurate cross cultural literary translations since it is impossible however I am advocating for faithful translations which maintain the literary text's cultural and historical contexts The accuracy of a literary translation depends on the amount of linguistic skill a translator has while the faithfulness of a literary translation is based upon the translator's sincere effort to include the literary text's entire cultural context including the historical cultural religious geopolitical and gender based elements Using *Uncle Tom's Cabin* as a case study I discuss how the previous challenges had negatively affected the translation process of the work Despite the fact the work has been translated seven times into Arabic due to the linguistic oriented approach the historical and cultural significance of Stowe's novel has not yet been introduced to Arab readers through translation Due to the current era of globalization that demands individuals to have multicultural knowledge and understanding and due to the recent cultural and translation projects of literary works from English into Arabic this book reinforces the importance and possibility of addressing the cultural religious geopolitical and gender based challenges while using *Uncle Tom's Cabin* as an example
