Constructing Gendered Bodies:

Constructing Gendered Bodies K. Backett-Milburn, L. McKie, 2001-03-27 Interest in sociological study of the body theoretically and empirically has increased dramatically in the 1990s This book builds on this work by bringing together exciting and stimulating research which examines the social and cultural processes involved in the construction of gendered bodies and sexual practices Contributors explore these issues in a variety of settings ranging from the workplace and leisure industry to social arenas of moral and medical regulation *Gendered Bodies and New Technologies* Amanda du Preez, 2009-10-02 In this era of ubiquitous information flow heightened mobility and limitless consumer convenience human interaction with new technologies has become increasingly seamless In the process the human body is effectively and steadily reduced to just another interface or a second life so to speak What is easily forgotten during this translucent transaction is that being human also necessarily implies being embodied In other words to constitute a body in its non negotiable physicality is still what it entails to be human amongst other things To live daily in and through the complicated and dynamic intersection between mind and body psychology and physiology also known as embodiment is what makes us human *Constructing Sexualities and Gendered Bodies in School Spaces* Jón Ingvar Kjarnan, 2017-02-20 This book sheds light on how sexuality and gender intersect in producing heteronormativity within the school system in Iceland In spite of recent support for progressive policies regarding sexual and gender equality in the country there remains a discrepancy between policy and practice with respect to LGBTQ rights and attitudes within the school system This book draws on ethnographic data and interviews with LGBTQ students in high schools across the country and reveals that although Nordic countries are sometimes portrayed as queer utopias the school system in Iceland has a long road ahead in making schools more inclusive for all students **Constructing Gender through Arts and Media** Mr. Rohit Manglik, 2023-01-23 In this book we will study about constructing gender through arts and media It explores how various art forms and media representations shape challenge and reflect gender identities and social norms **Body and Gender** Roberta Sassatelli, Rossella Ghigi, 2023-12-11 Even though we often think of bodies as natural and given or else as freely plastic objects bodies are both constructed and fundamental to our sense of self This book investigates the body as an essential vector of inequality shaped by institutions interaction and culture and how in turn it contributes to partly modify them Sassatelli and Ghigi show how the process of embodiment is at the same time naturalized and contested particularly evident in the case of gender Drawing on classical sociological research about modernity and contemporary studies that emphasize intersectionality the book looks at how the gendered body has been conceptualized with special attention to body politics the power of appearance and the representation of embodied identity It also considers the interplay between body sex and sexuality and the way gendered bodies intersect with other dimensions of social inequality such as race age class and disability This exploration of the rich field of sociological inquiry into the gendered body will be an invaluable read for all

seeking to understand gender sexuality and embodiment in contemporary society **Handbook on the International Political Economy of Gender** Juanita Elias, Adrienne Roberts, 2018-02-23 This Handbook brings together leading interdisciplinary scholarship on the gendered nature of the international political economy Spanning a wide range of theoretical traditions and empirical foci it explores the multifaceted ways in which gender relations constitute and are shaped by global politico economic processes It further interrogates the gendered ideologies and discourses that underpin everyday practices from the local to the global The chapters in this collection identify analyse critique and challenge gender based inequalities whilst also highlighting the intersectional nature of gendered oppressions in the contemporary world order

God, Sex, and Gender Adrian Thatcher, 2011-03-29 Engagingly and clearly written by a highly respected theologian God Sex and Gender is the first comprehensive introduction to a theology of both sexuality and gender available in a single volume Makes a theological contribution to understanding the unprecedented changes in sexual and gender relationships of the last fifty years Discusses many topics including sexual difference sexual equality gender and power the nature of desire the future of marriage in Christian sexual ethics homosexuality and same sex unions the problems of sexual minorities contraception in a time of HIV AIDS the separation of sexual experience from marriage and offers new arguments for marriage and for chastity Offers a consistent and engaging introduction at the cutting edge of theological inquiry which is contemporary undogmatic questioning and relevant to readers experience interests and needs Written lucidly and engagingly by an established and respected academic who has published widely in this area *Exploring the Body* S.

Cunningham-Burley, K. Backett-Milburn, 2001-09-24 This volume explores diverse ways of researching and theorizing the body It draws together a range of empirical work on different themes each taking the body and its study as its central problematic It creatively combines contributions on disability illness scars sleep complementary medicine running as well as the lifecourse themes of childhood youth and death The different approaches to researching the body examined through these contributions include autobiography case studies interviews and participant observation *Back to the Future of the Body* Dominic Janes, 2013-02-14 What can the past tell us about the future of the body The origins of this collection of papers lie in the work of the Birkbeck Institute for the Humanities which has been involved in presenting a series of international workshops and conferences on the theme of the cultural life of the body The rationale for these events was that in concepts as diverse as the cyborg the questioning of mind body dualism the contemporary image of the suicide bomber and the patenting of human genes we can identify ways in which the future of the human body is at stake This volume represents an attempt not so much to speculate about what might happen but to develop strategies for bodily empowerment so as to get back to the future of the body The body it is contended is not to be thought of as an object or a sign but as an active participant in the shaping of cultural formations And this is emphatically not an exercise in digging corpses out of the historical archive The question is rather what can past lived and thought experiences of the body tell us about what the body

can be come The continuing vitality of debate around the body was proven by the range and depth of the papers presented at the workshop on which this volume is based does the body have a future Our overall theme required contributors to think through embodiment in the past This they did with considerable interdisciplinary vigour rigorousness and imagination Prof Donna Dickenson Director Birkbeck Institute of the Humanities *An Interdisciplinary Bibliography on Language, Gender and Sexuality (2000-2011)* Heiko Motschenbacher, 2012 This comprehensive state of the art bibliography documents the most recent research activity in the vibrant field of language gender and sexuality It provides experts in the field and students in tertiary education with access to language centred resources on gender and sexuality and is therefore an ideal research companion The main part of the bibliography lists 3 454 relevant publications monographs edited volumes journal articles and contributions to edited volumes that have been published within the period from 2000 to 2011 It unites work done in linguistics with that of neighbouring disciplines covering studies dealing with a broad range of languages and cultures around the globe Alphabetical listing and a keyword index facilitate finding relevant work by author and subject matter The e book version additionally enables users to search the entire document for specific terms Sections on earlier bibliographies and general reference works on language gender and sexuality complete the compilation **Sport, Masculinities and the Body** Ian Wellard, 2009-05-07 This groundbreaking work explores masculinity and the body within sports Through participant observations sporting life history interviews and research with children Wellard highlights the social processes which impact upon individual constructions and formulations of masculine identity and reviews these in relation to broader debates on gender embodiment and sporting participation **Working the Skies** Drew Whitelegg, 2007-06-01 Get ready for takeoff The life of the flight attendant a k a stewardess was supposedly once one of glamour exotic travel and sexual freedom as recently depicted in such films as Catch Me If You Can and View From the Top The nostalgia for the beautiful carefree and ever helpful stewardess perhaps reveals a yearning for simpler times but nonetheless does not square with the difficult demanding and sometimes dangerous job of today s flight attendants Based on interviews with over sixty flight attendants both female and male labor leaders and drawing upon his observations while flying across the country and overseas Drew Whitelegg reveals a much more complicated profession one that in many ways is the quintessential job of the modern age where life moves at record speeds and all that is solid seems up in the air Containing lively portraits of flight attendants both current and retired this book is the first to show the intimate illuminating funny and sometimes dangerous behind the scenes stories of daily life for the flight attendant Going behind the curtain Whitelegg ventures into first class coach the cabin and life on call for these men and women who spend week in and week out in foreign cities sleeping in hotel rooms miles from home Working the Skies also elucidates the contemporary work and labor issues that confront the modern worker the demands of full time work and parenthood the downsizing of corporate America and the resulting labor lockouts decreasing wages and hours worked job insecurity and the emotional toll of a high stress job Given the events of 9 11 flight

attendants now have an especially poignant set of stressful concerns to manage both for their own safety as well as for those they serve the passengers Flight attendants originally registered nurses charged with attending to passengers medical needs now find themselves wearing the hats of therapist security guard and undercover agent This last set of tasks pushing some as Whitelegg shows out of the business altogether

The Kaleidoscope of Gender Joan Z. Spade, Catherine G. Valentine, 2011 An accessible timely and stimulating introduction to the sociology of gender The Kaleidoscope of Gender Prisms Patterns and Possibilities Third Edition provides a comprehensive analysis of key ideas theories and applications in this field as viewed through the metaphor of a kaleidoscope This collection of creative articles by top scholars explains how the complex evolving pattern of gender is constructed interpersonally institutionally and culturally and challenges students to question how gender shapes their daily lives Like the prior edition the Third Edition maintains a focus on contemporary contributions to the field while incorporating classical and theoretical arguments to provide a broad framework Integrating a cross cultural focus and intersectional inquiry this unique text reader vividly illustrates that gender is a malleable continuum of prisms patterns and possibilities

organizations including transnational ones such as the European Union the United Nations and so on In addition to its value for teachers and students within this field it also offers insights that would be of value to policymakers and practitioners who need to reflect on the latest thinking relating to gender at work and in organizations

The Gender Paradox: Discrimination and Disparities in the Postmodern Era Zachary Elliott, 2020-01-12 Explore the origins of sex and gender through a scientific lens and understand social constructionism its reliance on regressive gender stereotypes and its pathological doctrines Social constructionist theory tells us that boys and girls are not born different but are rather made different through socialization Yet something strange has happened Across the world s most gender equal liberal democracies the differences between men and women have not gone away Paradoxically gender differences in personality interests and occupational preferences have grown larger This should not be happening If men and women are made different through socialization shouldn t the most gender equal societies be after all gender equal Gender like the Penrose Triangle is an optical illusion Many people think they know its properties but it s wildly deceptive If we can just find the correct angle then maybe we can observe gender s actual properties and with it perhaps we can solve The Gender Paradox
