Constructing Outdoor Furniture With 99 Projects:

Constructing Outdoor Furniture, with 99 Projects Percy W. Blandford, 1983 Constructing Tables and Chairs-- with 55 Projects Percy W. Blandford, 1982 Index to Handicraft Books, 1974-1984 Carnegie Library of Pittsburgh. Science and Technology Department, 1986 Handicrafts and do it yourself projects have always been a library's most popular and heavily requested subject. And for more than a decade a definitive index to handicraft books has not been published. To fill this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the Index to Handicraft Books listing more than 900 books and over 12,400 subject entries covering books published from 1974 to 1984. The Index to Handicraft Books is an essential reference tool for librarians who want to help someone find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books have listed. Each entry in the index consists of a subject heading, the name of the project as listed in the book, the author and title of the book, and the page numbers on which the project can be found. The author and title correspond to those in the List of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through interlibrary loan. Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974, the list concentrates mainly on medium priced books that most libraries buy. Backyard Structures and How to Build Them Monte Burch, 2025-09-09 Does your backyard or garden look bleak and boring? Has your spouse ever told you that you need your own work building? Are your children's toys overflowing into the neighbor's yard because you have nowhere to put them? Have you ever thought about investing in a screened-in porch or a greenhouse? If you answered yes to any of these questions, this is the book for you. We all know that hiring a contractor or builder to take care of backyard projects can be costly and frustrating. Monte Burch's Backyard Structures and How to Build Them will show you how to undertake these projects yourself, saving time and money and still end up with beautiful new outbuildings. Everything you need to know, from getting started to purchasing tools and materials to the final construction, is covered here. Over two dozen attractive and practical building plans with material lists are fully presented in this book. Many of the structures are pole buildings which require no foundation excavation, only limited grading and few materials. They also allow for the use of sites not suitable for other types of construction and offer excellent structural integrity and wind resistance. With sections on decks and patios, backyard decor, backyard playing, backyard shelters, and animal houses and feeders, you can learn to build Under deck storage, Walk through rose trellis, Classic picnic table, Playhouse, Picnic shelter, Attached carport, Drive thru mini pole shed, Birdhouses, Suspended bird feeder, Poultry housing, Rabbit housing, One stall horse stable. And many more. Burch's fresh ideas offer something for everyone. Better still, their simplicity and ease of construction make them ideal for the first time builder. *New Technical Books* New York Public Library, 1985 58 Home Shelving & Storage Projects Percy W.
