Constructing World Culture:

Constructing World Culture John Boli, George M. Thomas, 1999 The contributors contrast this world polity perspective to other approaches to understanding globalization including realist and neo realist analyses in the field of international relations and world system theory and interstate competition theory in sociology *World Culture, EPZ Edition* Frank J. Lechner, John Boli, 2008-04-15 This book explores the development content and impact of world culture Combining several of the most fruitful theoretical perspectives on world culture including the world polity approach and globalization theory the book gives a historical treatment of the development of world culture and assesses the complex impact of world culture on people organizations and societies This is a provocative synthetic and grounded interpretation of world culture that is essential for any student or scholar of globalization and world affairs Traces world culture back from the mid 19th century to the present day Includes numerous illustrations of key issues and empirical research Written in lively accessible language for the student and general scholar **Religion in Global Civil Society** Mark Juergensmeyer, 2005-11-03 The extraordinary changes in world society at the beginning of the 21st century have involved religion to a degree that would have amazed earlier observers of modernity Within the past decade religion has been associated with some of the world's most strident forms of political encounter including new movements of nationalism the clerical leadership of political sects and the religiously motivated acts of terrorism Religion seems to be trying to tear the planet apart even as other cultural forces seem to be trying to pull it together The technology of the Internet film television cell phones and other forms of rapid universal communication seem to be knitting the world into a single social fabric Consumer franchises and popular culture seem to be making the world a single global city Religion seems to be at odds with all of this Is religion the natural enemy of globalization The essays in this volume explore the difficulties and possibilities of a diversity of religious groups occupying the same civil society The authors avoid simplistic generalizations Religion they show is not only identified with the culture and politics of the hostile anti urban village it is not simply the jihad that Benjamin Barber identified as the opponent of the homogenous global culture of McWorld True some religious activists have blown things up But others have tried to smooth things over Even the religious opposition to globalization is nuanced Some violent activists like Hindu extremists in India want a new religious state Others like Christian militias or al Qaeda envision a transnational religious entity a kind of religious globalization to supplant the secular one Prophetic religious voices call for moderation justice and environmental protection Religion these essays demonstrate plays diverse and sometimes contradictory roles in the new cultural globalization In a global culture the shared values of different religious traditions can provide a collective sense of virtuous conduct in public life But religion can also support the position of enemies of global society those who see in globalization the effort to impose the values and power of one country over the others Globalization of Education Joel Spring, 2008-11-19 Continuing Joel Spring's reportage and analysis of the intersection of global forces and education this text offers a

comprehensive overview and synthesis of current research theories and models related to the topic Spring introduces readers to the processes institutions and forces by which schooling has been globalized and examines the impact of these forces on schooling in local contexts Designed for courses on globalization and education international and comparative education educational foundations multicultural education and educational policy the text is written in a clear narrative style to engage readers in thoughtful consideration of topics discussed Each chapter includes Key Points that summarize the content and suggest issues and questions for critical analysis discussion and debate

The Nonprofit Sector Walter W. Powell, Richard Steinberg, 2006-01-01 Provides a multi disciplinary survey of nonprofit organizations and their role and function in society This book also examines the nature of philanthropic behaviours and an array of organizations international issues social science theories and insight

The Study of World Politics James N. Rosenau, 2006-05-02 James Rosenau's work is known for its originality and clarity and the sixteen articles in this new volume are no exception Tackling the specific challenges posed by globalization and governance this book covers four key areas the challenge tensions contradictions outcomes and global affairs the profession community globalized space and international relations globalization complexities contradictions and theory governance understanding and future The Study of World Politics presents the thinking of one of the most innovative scholars in the last half century The subjects addressed provide the big picture whilst also being meticulous in detail This new book gives the reader an unparalleled understanding of globalization and governance and is an invaluable tool to students and scholars of politics and world affairs alike

The Rise of Japanese NGOs Kim D. Reimann, 2009-12-04 Looking at domestic politics transnational diffusion the state's relationship with civil society and societal actors the book demonstrates how and why NGOs active in global issues have become more visible in Japan and are now established players in the policy making process

Protestant Missions and Local Encounters in the Nineteenth and Twentieth Centuries Hilde Nielssen, Inger Marie Okkenhaug, Karina Hestad-Skeie, 2011-07-27 This book makes visible an important but neglected aspect of Christian missions its transnational character Missionaries considered themselves global actors yet they operated within a variety of nation states The volume demonstrates how processes on a national level are closely linked to larger transnational processes

Religion, Globalization and Culture Peter Beyer, Lori Gail Beaman, 2007 The topic of religion and globalization is complex susceptible to a great variety of approaches This book combines contributions from many authors who examine a wide range of subjects ranging from overall theoretical considerations to detailed regional perspectives No single understanding of either religion or globalization is privileged

Institutional Theory Ronald L. Jepperson, John W. Meyer, 2021-04 Comprehensively collects the essential theoretical ideas of sociological neo institutionalism one of the leading approaches in social theory

Global Social Change Christopher K. Chase-Dunn, Salvatore J. Babones, 2006-09-22 This informative and exciting volume brings together accomplished sociologists and scholars to offer an introduction to ways of studying and understanding global social change The essays in Global Social

Change explore globalization from a world systems perspective untangling its many contested meanings This perspective offers insights into globalization s gradual and uneven growth throughout the course of human social evolution In this informative and exciting volume Christopher Chase Dunn and Salvatore J Babones bring together accomplished senior sociologists and outstanding younger scholars with a mix of interests expertise and methodologies to offer an introduction to ways of studying and understanding global social change In both newly written essays and previously published articles from the Journal of World Systems Research the contributors employ historical and comparative social science to examine the development of institutions of global governance the rise and fall of hegemonic core states transnational social movements and global environmental challenges They compare post World War II globalization with the great wave of economic integration that occurred in the late nineteenth century analyze the rise of the political ideology of the globalization project Reaganism Thatcherism and discuss issues of gender and global inequalities

National Policy-Making Pertti Alasuutari, Ali Qadir, 2013-12-04 Notions of social change are often divided into local versus international But what actually happens at the national level where policies are ultimately made and implemented when policy making is interdependent worldwide How do policy makers take into account the prior choices of other countries Far more research is needed on the process of interdependent decision making in the world polity National Policy Making domestication of global trends offers a unique set of hybrid cases that straddle these disciplinary and conceptual divides The volume brings together well researched case studies of policy making from across the world that speak to practical issues but also challenge current theories of global influence in local policies Distancing itself from approaches that conceive narrowly of policy transfer as a one way street from powerful nations to weaker ones this book argues instead for an understanding of national decision making processes that emphasize cross national comparisons and domestic field battles around the introduction of worldwide models The case studies in this collection show how national policies appear to be synchronized globally yet are developed with distinct national flavors Presenting new theoretical ideas and empirical cases this book is aimed globally at scholars of political science international relations comparative public policy and sociology

NGOs, Africa and the Global Order R. Pinkney, 2015-12-04 Formal political structures have produced little more than electoral democracy in Africa without tackling the problems of poverty and elite exploitation This book looks at the opportunities for and limitations of voluntary bodies in seeking a more just order at both African and global levels

Nonviolent Conflict and Civil Resistance Sharon Erickson Nepstead, Lester R. Kurtz, 2012-10-08 This volume covers how regime changes political movements and nonviolent unrest develop and then shape the political decisions of both civil society and the state Chapter discussions include the civil rights movement in Northern Ireland youth movements in Post Communist states and the efforts of nonviolent INGOs

A Historical Guide to NGOs in Britain M. Hilton, N. Crowson, J. Mouhot, J. McKay, 2012-07-20 Aiming to furnish the reader with the historical data to engage with the debates surrounding the Cameron government s Big Society and civil society this

book gives the reader a greater and more informed historical consciousness of how the NGO sector has grown and influenced

Building States Without Society Beate Sissenich, 2007-01-01 Focusing on the 2004 enlargement of the European Union *Building States without Society* highlights the real limits of cross national rule transfer even when power is uneven between rule makers and rule takers Tracing the role of labor and other non state actors in transferring rules Beate Sissenich shows the persistent relevance of national politics specifically state capacity and interest organizations Social network analysis demonstrates that even in a highly integrated Europe state borders continue to structure communications

Capitalism Beyond Mutuality? Subramanian Rangan, 2018 Trust in business is declining because business has focused too much on performance and too little on progress From climate change to unfair compensation and technology related fears our list of concerns is large and growing This text explores how economic actors might evolve their paradigms preferences and practices

How Educational Ideologies Are Shaping Global Society Joel Spring, 2014-04-08 In this book Joel Spring explores three major international educational ideologies that are shaping global society neo liberal educational ideology human rights education and environmentalism Neo liberal ideology reflects a rethinking of nationalist forms of education as the nation state slowly erodes under the power of a growing global civil society Traditional nationalist education attempts to mold loyal and patriotic citizens who are emotionally attached to symbols of the state whereas the goal of neo liberal educational ideology is to change nationalist education to serve the needs of the global economy These changes are fueling a clash between the ideas of free market and consumer based neo liberals and those of human rights and environmental educators Human rights education is concerned with creating activist global citizens It is rooted in the idea that inherent in human rights doctrines is a collective responsibility to ensure the rights of all people Environmentalism is the most radical of the ideologies because it rejects the industrial and consumerist paradigm that has dominated most economic thought including capitalism and communism Spring synthesizes and analyzes the effect of these educational ideologies on shaping the future of the global society In the concluding section he compares the effect of these ideologies on global society with the possibility of a world divided between conflicting civilizations

How Educational Ideologies Are Shaping Global Society Intergovernmental Organizations NGOs and the Decline of the Nation State features a critical exploration of the transition of schooling from a function of the nation state to a globalized economic and political system a discussion of the major organizations and trading blocs shaping the future globalization of educational policies an analysis of the major competing global ideologies of education including national and corporate models that emphasize training workers for a competitive global free market the worldwide network of human rights and peace educators who are teaching a global set of ethics and the environmental movement's efforts to create a common set of educational standards for sustainable development and sustainable consumption and an exploration of the possible future of global educational policy and school organizations By integrating a wide range of previously scattered information within a bold new framework for

understanding educational ideologies and their impact on the global society Spring raises important questions for researchers professionals and students in history and philosophy of education educational policy educational studies comparative education multicultural education curriculum studies critical media studies global studies human rights education and related areas **The Global Emergence of Constitutional Environmental Rights** Joshua C.

Gellers,2017-05-18 Over the past 40 years countries throughout the world have similarly adopted human rights related to environmental governance and protection in national constitutions Interestingly these countries vary widely in terms of geography politics history resources and wealth This raises the question why do some countries have constitutional environmental rights while others do not Bringing together theory from law political science and sociology a global statistical analysis and a comparative study of constitutional design in South Asia Gellers presents a comprehensive response to this important question Moving beyond normative debates and anecdotal developments in case law as well as efforts to describe and categorize such rights around the world this book provides a systematic analysis of the expansion of environmental rights using social science methods and theory The resulting theoretical framework and empirical evidence offer new insights into how domestic and international factors interact during the constitution drafting process to produce new law that is both locally relevant and globally resonant Scholars practitioners and students of law political science and sociology interested in understanding how institutions cope with complex problems like environmental degradation and human rights violations will find this book to be essential reading Commonsense Constructivism, or the Making of World Affairs Ralph Pettman,2015-04-29 Fully accessible to students and scholars alike this engaging book introduces the constructivist approach to understanding world affairs In a highly readable and witty way it shows how people and their social relations are the basis for everything around us International Relations included
