Construction Of Europe Essays In Honor Of Emile Noel:

The Construction of Europe S. Martin, 2013-03-09 Stephen Martin The fourteen essays that constitute this work provide a coherent review of the past and present of the European Community and consider some of its possible futures Werner Abelshauser and Richard Griffiths offer separate perspectives on the precursors of the European Community Abelshauser argues that comparison of the fates of the European Coal and Steel Community and the European Defense Community demonstrate the dominance of political over economic considerations in the integration process Griffiths considers the stillborn European Political Community many of the proposed features of which somewhat transformed were embodied in the Treaty of Rome Both suggest that as a practical matter a coming together of French and German interests has been a precondition for advances in European integration Stephen Martin and Andrew Evans discuss the development of the Community's Structural Funds first envisaged as tools to smooth the transition from a collection of regional economies to a continent wide single market now increasingly seen as devices to guide adjustment to long term structural problems Stuart Holland emphasizes the role of the Structural Funds as one element in a broad range of strategies to ensure social and economic cohesion as the Maastricht Treaty ushers the European Union into the next stage of its development *European Economic and Social Constitutionalism after the Treaty of Lisbon* Dagmar Schiek, Ulrike Liebert, Hildegard

Schneider, 2011-07-21 European studies frequently regard the economic and social dimensions of EU integration as diametrically opposed maintaining that this state of affairs is beyond change This edited collection challenges this perceived wisdom focusing on the post Lisbon constitutional landscape Taking the multi layered polity that is Europe today as its central organising theme it examines how the social and the economic might be reconciled under the Union's different forms of governance The collection has a clear structure opening with a theoretical appraisal of its theme before considering three specific policy fields migration policy and civic integration company law and corporate social responsibility and the role of third sector providers in public healthcare It concludes with three case studies in these fields illustrating how the argument can be practically applied Insightful and topical with a unique interdisciplinary perspective this is an important contribution to European Union law after the Lisbon Treaty **Prospects and Challenges for EU-China Relations in the 21st**

Century Jing Men, 2010 In 25 years EU China relations have come far further than many could have imagined but how much further can these relations be taken Today their bilateral relations are at a crossroads In effect it has been 25 years since the EU and China agreed upon the legally binding Trade and Economic Cooperation Agreement which sets the basis for their diplomatic relations In an ever increasingly complex and globalised international environment these actors have become mutually interdependent on a variety of levels In 2007 they agreed to revise and update the 1985 accord and replace it with an all encompassing Partnership and Cooperation Agreement However more than three years passed and there are many points of contention which need to be negotiated What obstacles are blocking this agreement How can these obstacles be

overcome What concessions should be made and where This book will provide an up to date analysis of the problematic concerns and the means to resolve these issues that range from human rights to international trade conflicts and climate change **Project Europe** Kiran Klaus Patel,2020-04-23 Europe and European integration Peace and security Growth and prosperity Participation and technocracy Values and norms Superstate or tool of nations Disintegration and dysfunctionality The community and its world The Lost Future Jan Zielonka,2023-01-01 A timely and compelling argument for a revitalized and restructured global politics The future seems increasingly uncertain Our democracies are failing to prevent financial crises energy shortages climate change and war so how can we look to the future with confidence Jan Zielonka argues that it is democracy s shortsightedness that makes politics stumble in our increasingly connected world With our governments still confined to the borders of nation states defending the short term interests of present day voters the consequences for future generations are dire In this incisive account Zielonka makes a bold case for a new politics of time and space He considers how democracy should adjust to the world of high speed and he questions our everyday experiences as citizens Is it acceptable for authorities and firms to monitor our whereabouts Why is the distribution of time and space so unequal And most crucially can we construct a new system of governance that will allow us to plan ahead with certainty

The Future of the Nation-State Sverker Gustavsson,Leif Lewin,2005-09-30 The tension between culture politics and economy has become one the dominant anxieties of modern society On the one hand people endeavour to maintain and develop their cultural identity on the other there are many forces for international integration How to understand and explain this fundamental issue is illuminated in nine essays by eminent scholars **Competition Policy** Louis Phlips,1995-10-19

This book uses game theory to analyse anti competitive behaviour among firms and to consider its implications for competition policy Part I focuses on explicit collusion the author proves that four are few and six are many and shows how cartels can be enforced under imperfect and incomplete information Part II on tacit collusion discusses the informational requirements of collusion detection in noncooperative repeated games In Part III on semicollusion excess capacity is shown to reinforce collusion Part IV is devoted to the detection of predatory pricing In this book Louis Phlips applies the latest economic theory to a discussion of several European antitrust decisions and empirical studies The presentation of case studies combined with a clear exposition of the theory will make this book invaluable to teachers and students of competition policy

General Principles of EC Law in a Process of Development Ulf Bernitz,Joaquim Nergelius,Cecilia Cardner,Xavier Groussot,2008-01-01 What are the basic principles underlying European Community Law Although no one seeks a purely descriptive answer to this question the discussion it gives rise to is of immense significance both for theoretical legal studies and for legal practice Over the years scholars have convened from time to time to re examine the question in the light of new developments This important volume offers insights and findings of the latest such conference held at Stockholm in March 2007 and sponsored by the Swedish Network for European Legal Studies The nineteen essays here printed are all final author edited versions of papers first presented at that conference Far from merely an updating of the First Edition which marked a 1999 conference held under the same auspices at Malm this book is entirely new It underscores the importance of discovering the emergence of new general principles linked indeed to such fundamental continuing concerns as democracy accountability transparency direct effect good administration and European citizenship as they develop in such increasingly important areas as the following core aspects of competition and financial integration law the ongoing process of European constitutionalization the application of general principles in the new Member States the growth of European private law the successive creation of a jus commune europaeum and the instrumental function of the EC Court There is also special consideration attached to such overriding issues as the gap filling function of the principles within the Community legal system and the implications of the use of a comparative methodology The authors include both eminent well known experts many of whom took part in the 1999 Conference and representatives of a new generation of younger scholars in the field For the myriad parties involved in the evolution of the European project from a legal perspective this book serves as a watershed a thorough inspection of the foundations as they are perceived and understood at the present moment It is sure to be consulted and cited often in the years to come

Democrazia miope Jan Zielonka,2023-06-02T00:00:00+02:00

Siete sempre pi frustrati dalle notizie politiche Siete preoccupati per il futuro del vostro paese e dell intero pianeta Pensate che la democrazia sia sempre meno capace di offrire soluzioni Se cos benvenuti nel club dei cittadini ansiosi ed esasperati Qualcosa deve essere andato davvero storto nelle nostre democrazie se tanti di noi hanno l impressione che il futuro rischi di

andare sprecato o sia forse già perduto. Che cosa successo? Le prospettive per il futuro sono piuttosto fosche nonostante i progressi scientifici: la pandemia ha fatto morire milioni di persone, despoti come Vladimir Putin uccidono innocenti e minacciano l'annientamento nucleare, il degrado ambientale va avanti, la disuguaglianza ha raggiunto livelli senza precedenti, il capitalismo passa da una crisi all'altra. Il futuro sempre più cupo perché la politica democratica non si presta a maneggiare il tempo e lo spazio in modo tale da proteggere gli interessi delle generazioni future e da travalicare i confini nazionali, ovvio che per restituire significato al futuro e renderlo desiderabile abbiamo bisogno di politici con una visione ampia del tempo e dello spazio. Abbiamo bisogno di riformare e forse persino di reinventare la democrazia e di mettere in atto un nuovo sistema di governance globale, meno concentrata sull'adozione e sull'applicazione di leggi rigide e più aperta alla mediazione al coordinamento. Insomma possiamo ancora recuperare il futuro perduto e farlo nostro.

The Principle of Mutual Trust in EU Criminal Law Auke Willems, 2021-02-11. This book develops a conceptual framework of the principle of mutual trust in EU criminal law. Mutual trust is a household term in the EU criminal law vocabulary and is widely regarded to be a prerequisite for a successful application of mutual recognition. But despite its importance the parameters of the concept are not clear. The book demonstrates that mutual trust is multi-faceted, combining the elements essential to a successful EU criminal law as part of the Area of Freedom, Security and Justice. The book approaches trust from multiple angles: First a study of social science literature; Second a meticulous assessment of mutual trust in EU criminal law; Third a study of trust in US interstate criminal justice cooperation. Finally the book identifies a comprehensive approach to tackle trust-related difficulties in EU criminal law. This timely book will be of great interest to anyone looking to gain a full picture of this core principle in EU criminal law.

Banca-seguros. Experiencia internacional Lorenzo Mezzasoma, Albina Candian, Andrea Bellucci, Paolo Eufisio Corrias, Sara Landini, Eugenio Llamas Pombo, Carlos Ignacio Jaramillo J., 2018-02-01. El término jurídico BANCA SEGUROS es un neologismo acuñado por la doctrina jurídica y económico empresarial para identificar un fenómeno de integración y diálogo entre los sectores bancario y asegurador que se ha manifestado en los últimos decenios mediante la superposición y complementariedad de los productos y servicios ofrecidos por las entidades bancarias y aseguradoras. El desarrollo de la investigación comienza por delimitar la temática que habrá de ser objeto de estudio para encargar cada materia según los casos a expertos juristas o economistas. Dado el grado de complejidad del fenómeno, ciertamente la investigación no podía limitarse a consideraciones exclusivamente jurídicas sino que era necesario contrastar las mismas con la perspectiva de los expertos en economía y empresa. Los resultados de la investigación recogidos en este libro permiten por todo ello conocer el panorama legislativo comunitario y extracomunitario en el desarrollo de la Banca Seguros en los ordenamientos italiano, español, colombiano, argentino y uruguayo, entre otros, así como otras cuestiones de interés muy relevante desde la perspectiva comparada, como la disciplina de la hipoteca inversa, como institución que cumple una importante función asistencial. Tomado del Prefacio de esta obra.
