Construction Failure:

Construction Failure Jacob Feld, Kenneth L. Carper, 1996-12-26 First published in 1968 Jacob Feld's *Construction Failure* has long been considered the classic text on the subject Retaining all of the key components of Feld's comprehensive exploration of the root causes of failure this Second Edition addresses a multitude of important industry developments to bring this landmark work up to date for a new generation of engineers architects and students In addition to detailed coverage of current design tools techniques materials and construction methods *Construction Failure* Second Edition features an entire chapter on the burgeoning area of construction litigation including a thorough examination of alternative dispute resolution techniques Like the original this edition discusses technical and procedural failures of many different types of structures but is now supplemented with new case studies to illustrate the dynamics of failure in action today Jacob Feld knew thirty years ago that in order to learn from our mistakes we must first acknowledge and understand them With this revised volume Kenneth Carper has ensured that Feld's posthumous message will continue to be heard for years to come Jacob Feld's comprehensive work on failure analysis has now been skillfully amended to address current design and construction tools materials and practices Building on the first edition's peerless examination of the causes and lessons of failure *Construction Failure* Second Edition provides you with expanded coverage of Technical procedural structural and nonstructural failures Natural hazards earthworks soil and foundation problems and more Reinforced precast and prestressed concrete steel timber masonry and other materials Responsibility and litigation concerns dispute avoidance and alternative dispute resolution techniques Construction safety issues Many different types of structures including dams and bridges *Construction Failure* has as much to teach us today as it did thirty years ago This revised volume is an essential resource for design engineers architects construction managers lawyers and students in all of these fields
