## **Constructivism And Comparative Politics:**

*Constructivism and Comparative Politics* Daniel M. Green, 2002-02-27 This work presents an approach to the study of comparative politics that builds on the assumption that political actors and institutions operate within constructed communities of meaning which in turn interface with other such communities

**Constructivism and Comparative Politics** Richard T Green, 2016-09-16 This work presents an approach to the study of comparative politics that builds on the assumption that political actors and institutions operate within constructed communities of meaning which in turn interface with other such communities

**The Oxford Handbook of Comparative Politics** Carles Boix, Susan Carol Stokes, 2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades

*Comparative Politics* Daniele Caramani, 2008 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes

**The New Constructivism in International Relations Theory** David M. McCourt, 2023-06-13 Tracing constructivist work on culture identity and norms within the historical geographical and

professional contexts of world politics this book makes the case for new constructivist approaches to international relations scholarship     Rethinking Global Political Economy Kurt Burch, Robert A. Denemark, Kenneth P. Thomas, Mary Ann

Tétreault, 2004-02-24 This new volume presents innovative approaches to the fundamental issues of the global political economy in particular post Cold War development analyses of capital and negative aspects of globalization

**Constructivist Theories of Ethnic Politics** Kanchan Chandra, 2012-10-25 Taking the possibility of change in ethnic identity into account this book shows and dismantles the theoretical logics linking ethnic diversity to negative outcomes and processes such as democratic destabilisation clientelism riots and state collapse Even more importantly it changes the questions we can ask about the relationship between ethnicity politics and economics     *Foreign Policy in a Constructed World* Vendulka Kubalkova, 2016-09-16 This volume demonstrates the application of the constructivist approach to the analysis of foreign policy i.e. states actions in a world of states Part I introduces constructivism for foreign policy studies Part II presents five model case studies the Cold War Francoism the two Chinas inter American relations and Islam in U.S. foreign policy Part III reviews their results     **Cultures of Order** Katja Weber, Paul A. Kowert, 2012-02-16 Cultures of Order explores how Germany and Japan each struggled to define an appropriate role for themselves in the postwar international order In Germany proponents of institutional constraint fought and generally prevailed over those who stressed national rights This pattern continued even as Germany achieved unification at the end of the Cold War In Japan however the national rights strategy was more successful and Japanese leaders have been less willing than their German counterparts to predicate international order on commitment to an emergent institutional framework In both cases the choices made by leaders were critical despite the constraints under which they operated In this book the authors utilize a constructivist theory of order emphasizing the distinctive ways language works to normative effect to explain these debates and how they have contributed to two very different cultures of order     **The Globalization of World Politics** John Baylis, Steve Smith, Patricia

Owens, 2011 Now in its fifth edition this title has been fully revised and updated in the light of recent developments in world politics with new chapters on the changing nature of war human security and international ethics     Political Culture, Political Science, and Identity Politics Howard J. Wiarda, 2016-04-08 Political Culture defined as the values beliefs and behavioral patterns underlying the political system has long had an uneasy relationship with political science Identity politics is the latest incarnation of this conflict Everyone agrees that culture and identity are important specifically political culture is important in understanding other countries and global regions but no one agrees how much or how precisely to measure it In this important book well known Comparativist Howard J. Wiarda traces the long and controversial history of culture studies and the relations of political culture and identity politics to political science Under attack from structuralists institutionalists Marxists and dependency writers Wiarda examines and assesses the reasons for these attacks and why political culture went into decline only to have a new and transcendent renaissance and revival in the writings of Inglehart Fukuyama Putnam

Huntington and many others Today political culture now updated to include identity politics stands as one of these great explanatory paradigms in political science the others being structuralism and institutionalism Rather than seeing them as diametrically exposed Howard Wiarda shows how they may be made complementary and woven together in more complex multicausal explanations This book is brief highly readable provocative and certain to stimulate discussion It will be of interest to general readers and as a text in courses in international relations comparative politics foreign policy and Third World studies

**Comparative Politics** Mark Irving Lichbach, Alan S. Zuckerman, 2009-02-02 Comparative Politics Rationality Culture and Structure is a revised second edition of the volume that guided students and scholars through the intellectual demands of comparative politics Retaining a focus on the field's research schools it now pays parallel attention to the pragmatics of causal research Mark Lichbach begins with a review of discovery explanation and evidence and Alan Zuckerman argues for explanations with social mechanisms Ira Katznelson writing on structuralist analyses Margaret Levi on rational choice theory and Marc Ross on culturalist analyses assess developments in the field's research schools Subsequent chapters explore the relationship among the paradigms and current research the state culturalist themes and political economy the international context of comparative politics contentious politics multi level analyses nested voters endogenous institutions welfare states and ethnic politics The volume offers a rigorous and exciting assessment of the past decade of scholarship in comparative politics

**Epistemic Communities, Constructivism, and International Environmental Politics** Peter M. Haas, 2015-08-20 Epistemic Communities Constructivism and International Environmental Politics brings together 25 years of publications by Peter M Haas The book examines how the world has changed significantly over the last 100 years discusses the need for new constructivist scholarship to understand the dynamics of world politics and highlights the role played by transnational networks of professional experts in global governance Combining an intellectual history of epistemic communities with theoretical arguments and empirical studies of global environmental conferences as well as international organizations and comparative studies of international environmental regimes this book presents a broad picture of social learning on the global scale In addition to detailing the changes in the international system since the Industrial Revolution Haas discusses the technical nature of global environmental threats Providing a critical reading of discourses about environmental security this book explores governance efforts to deal with global climate change international pollution control stratospheric ozone and European acid rain With a new general introduction and the addition of introductory pieces for each section this collection offers a retrospective overview of the author's work and is essential reading for students and scholars of environmental politics international relations and global politics

Institutional Constructivism in Social Sciences and Law Dora Kostakopoulou, Theodora Kostakopoulou, 2018-10-04 The book develops the model of institutional constructivism to aid socio legal research and to account for patterns of socio legal change

*Constructivism Reconsidered* Patrick James, Mariano E Bertucci, Jarrod Hayes, 2018-11-12 In international relations IR the

theory of constructivism argues that the complicated web of international relations is not the result of basic human nature or some other unchangeable aspect but has been built up over time and through shared assumptions Constructivism Reconsidered synthesizes the nature of and debates on constructivism in international relations providing a systematic assessment of the constructivist research program in IR to answer specific questions What extent of disagreement exists with regard to the meaning of constructivism To what extent is constructivism successful as an alternative approach to rationalism in explaining and understanding international affairs Constructivism Reconsidered explores constructivism's theoretical empirical and methodological strengths and weaknesses and debates what these say about its past present and future to reach a better understanding of IR in general and how constructivism informs IR in particular **Transnational Labour Solidarity** Katarzyna Gajewska, 2009-06-02 Why and how to study European solidarity Analytical categories in conceptualizing solidaristic behaviour Presentation of cases The vertical dimension of Europeanization of the trade union movement Interaction and action as transformational mechanisms Framing solidarity interests identification and reciprocity Situational mechanisms market integration and trade unions The Political Economy of WTO Implementation and China's Approach to Litigation in the WTO Yenkong Ngangjoh-Hodu, Zhang Qi, 2016-01-29 Why and how do states obey international law This engaging book tackles this very question head on via its examination of the conflicting and conciliating processes of the Chinese approach to litigation and the Western approach to legal orientation in the field of the WTO dispute settlement mechanism The authors examine the normative framework of WTO rule implementation in a globalised international economic order They further explore the notion of the rule of law in China's Confucian system and how it interacts with a rule based world trading system Topics discussed include theorising the WTO implementation regime the Chinese approach to law China and the WTO dispute settlement system and Chinese Confucianism and compliance With its focus on international economic law and political science this book will be accessible to students policy makers practitioners and academics looking to understand China and the rule of law in a global context Russia's Security Policy under Putin Aglaya Snetkov, 2014-11-27 This book examines the evolution of Russia's security policy under Putin in the 21st century using a critical security studies approach Drawing on critical approaches to security the book investigates the interrelationship between the internal external nexus and the politics of in security and regime building in Putin's Russia In so doing it evaluates the way that this evolving relationship between state identities and security discourses framed the construction of individual security policies and how in turn individual issues can impact on the meta discourses of state and security agendas To this end the securitisation discourses and practices towards the issue of Chechnya are examined as a case study In so doing this study has wider implications for how we read Russia as a security actor through an approach that emphasises the importance of taking into account its security culture the interconnection between internal external security priorities and the dramatic changes that have taken place in Russia's conceptions of itself national and security priorities and

conceptualisation of key security issues in this case Chechnya These aspects of Russia's security agenda remain somewhat of a neglected area of research but as argued in this book offer structuring and framing implications for how we understand Russia's position towards security issues and perhaps those of rising powers more broadly This book will be of much interest to students of Russian security critical security studies and IR Why Communism Did Not Collapse Martin K. Dimitrov, 2013-07-31 Addresses the durability of communist autocracies in Eastern Europe and Asia the longest lasting type of non democratic regime to emerge after World War I **Constructing Neoliberalism** Jonathan Swarts, 2013-12-06 Constructing Neoliberalism presents a rich analysis of the shift to neoliberal economic policies in four Anglo American democracies Canada Britain Australia and New Zealand over the course of the 1980s and 1990s This period witnessed a dramatic shift away from traditional post war consensus policies of active state economic intervention public ownership and full employment toward those informed by an ideological commitment to deregulation privatization entrepreneurialism and freer trade Jonathan Swarts argues that this transformation was not simply a marginal adjustment in existing economic policies but rather the result of political elites seeking to reshape what he calls their societies political economic imaginaries Swarts demonstrates that this shift cut across traditional party lines and that in all four cases the result was a new set of intersubjective norms about appropriate economic policies the role of the state in the economy the expectations and aspirations of citizens and the very nature of an advanced industrial democracy in a globalizing world
