and theoretical papers in the Consulting Room reveals how the most extreme types of trauma can continue to have effects across generations and how these effects manifest in the consulting room. Essays in this volume consider traumas that have affected multiple generations of people such as the Holocaust experiences in the gulags and the experience of slavery. Authors here consider the clinical challenges of working with the demonic force in severe childhood abuse and the effects of serious and prolonged physical injury and illness. Inevitably there is in such difficult clinical work the combined effects of hauntings in the analysts and in patients and often in the surrounding culture. In this book distinguished psychoanalysts explore the myriad forms of ghosts and the demonic which interfere and disrupt the endlessly difficult psychic work of mourning. It will be of interest to psychotherapists and psychoanalysts as well as social workers, family therapists, psychologists and psychiatrists. In the Consulting Room it will appeal to those specializing in bereavement and trauma and on a broader level to sociologists and historians interested in understanding means of coping with loss and grief on both an individual and larger scale basis.

Speed Queens Rachel Harris-Gardiner, 2023-04-06. Speed Queens is a history of women in motorsport from the very beginning in 1897 to the modern era. Tracing the different ways that women have found into motor racing and rallying, it covers over a century of stories across the world. Each chapter takes a particular event as an introduction to a racer and her contemporaries, taking a different theme each time and moving forward through history. Circuit racing and rallying are both covered. Much more than a collection of profiles and lists of achievements, it explores ideas including sportswomen as performers in the early 20th century, women, death and risk, and how the expansion of small car production in the 1960s benefitted female drivers. Some of the best known female competitors such as Michele Mouton, rallying and Lella Lombardi, Formula 1, make appearances, but Speed Queens is not just concerned with big names and historic firsts. For every woman to be the first to do something on wheels, there were usually several others vying for that honor. In this book, they are given back their place in the story and their relationships to one another examined.
