Oughton,1991-01-01 **Consumer Protection and Online Auction Platforms** Christine Riefa,2016-03-03 Online auctions have undergone many transformations and continue to attract millions of customers worldwide However these popular platforms remain understudied by legal scholars and misunderstood by legislators This book explores the legal classification of online auction sites across a range of countries in Europe Including empirical studies conducted on 28 online auction websites in the UK the research focusses on the protection of consumers economic rights and highlights the shortcomings

that the law struggles to control With examinations into important developments including the Consumer Rights Directive and the latest case law from the CJEU on the liability of intermediaries Riefa anticipates changes in the law and points out further changes that are needed to create a safe legal environment for consumers whilst preserving the varied business model adopted by online auction sites The study provides insights into how technical measures as well as a tighter legislative framework or enforcement pattern could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves

Selling Tourism Services at a Distance Josep Maria Bech Serrat, 2012-05-26 New rules on distance contracts provided for the Consumer Rights Directive of 25 October 2011 do not apply to package holidays or contracts falling within the scope of the Timeshare Directive Moreover contracts for passenger transport services and contracts for the provision of accommodation car rental catering or leisure services if the contract provides for a specific date or period of performance are not covered by some of these rules Yet measures aimed at protecting the consumer when a contract is concluded via the phone the Internet by mail or other means of distance communication play a role in tourism This book helps readers to navigate through uncertainties in travel contracts regarding information requirements the right of withdrawal or providing alternative services Findings reveal that consumer acquis is inadequately adapted to the features of the tourism industry when an optional instrument based on the Draft Common Frame of Reference might be used in the future
